African American Troops in World War II - Alexander Bielakowski 2012-03-20

About half a million African Americans served overseas during World War II, almost all in segregated second-line units. This artificially limited their potential contribution, but their work especially along the logistic lifelines of the fighting divisions was vital. This book summarizes the service of these men and women; and it also focuses on the small proportion who, remarkably, overcame prejudicial barriers to reach the battlefields in combat units of the US forces and Coast Guard. Their story is illustrated with wartime photographs, and color plates including portraits of the most outstanding African Americans, the true heirs of the old "Buffalo Soldiers."

[The Last 100 Yards](#) - Paul Berg 2019-05

The Last 100 Yards: The Crucible of Close Combat in Large-Scale Combat Operations presents thirteen historical case studies of close combat operations from World War I through Operation Iraqi Freedom. This volume is a collection from the unique and deliberate perspective of the last 100 yards of ground combat. In today's Army, there are few leaders who have experienced multi-domain large-scale ground combat against a near-peer or peer enemy first hand. This volume serves to augment military professionals' understanding of the realities of large-scale ground combat operations through the experiences of those who lived it.

[The U.S. Army Before Vietnam, 1953-1965](#) - Donald A. Carter 2015

The U.S. Army Before Vietnam, 1953-1965, by Donald A. Carter, covers the period between the end of the Korean War and the initial deployment of ground combat troops to Vietnam. It describes the organizational and doctrinal changes the Army implemented as it attempted to digest the lessons of one conflict and to prepare the force for another. The pamphlet also discusses the service's efforts to maintain its position in national defense within the parameters of President Eisenhower's New Look strategic policy. A key issue for the Army was the question of how to prepare a force to operate on an atomic battlefield. In order to compete with the Air Force and the Navy for a diminishing defense budget, the Army had to show that it, too, was a modern, forward-thinking organization, prepared to integrate a new family of tactical atomic weapons into its organization and doctrine. The resulting experiment with the Pentomic division forced Army leaders to reexamine

some of their most basic assumptions about future conflict. With the increasing influence of Communist China throughout Southeast Asia, the Army also began to pay greater attention toward counterinsurgency and guerilla warfare. President Kennedy's interest in a doctrine of flexible response and his concern for combatting Communist inspired insurrections prompted the Army to increase training in unconventional warfare and to highlight the capabilities of its developing special forces--the Green Berets. Engineer Operations - U S Army 2014-10-17

FM 3-34 is the Army doctrine publication that presents the overarching doctrinal guidance and direction for conducting engineer activities and shows how it contributes to decisive action. It provides a common framework and language for engineer support to operations and

constitutes the doctrinal foundation for developing other fundamentals and tactics, techniques, and procedures detailed in subordinate doctrine manuals. This manual is a key integrating publication that links the doctrine for the Engineer Regiment with Army capstone doctrine and joint doctrine. It focuses on synchronizing and coordinating the diverse range of capabilities in the Engineer Regiment to support the Army and its mission successfully. FM 3-34 provides operational guidance for engineer commanders and trainers at all echelons and forms the foundation for United States (U.S.) Army Engineer School curricula. *Infantry* - 1989

The First 100 Days of Platoon Leadership - Handbook (Lessons and Best Practices) - U. S. Army 2020-03

The platoon leader and platoon sergeant are two of the most important leaders in the U.S. Army. The way platoon leaders and sergeants work together as a team can cause the success or failure of companies, battalions, brigades, and divisions. They represent the leading edge of leadership on and off the battlefield. On the battlefield, platoon leaders and sergeants build their platoons, empower squad leaders, integrate outside elements, and use troop-leading procedures to plan and lead. Off the battlefield, platoon leaders and sergeants prepare their platoon for combat through tough training. The platoon leader and platoon sergeant's ability to coach, teach, and mentor their Soldiers leads directly to the readiness of our formations. World-wide, platoon leaders and sergeants are personally leading the U.S. Army at the lowest level. This handbook is a guide for new leaders to help prepare them for a critical crucible of leadership that will determine the U.S. Army's ability to fight and win our country's wars.

Soldier: a Memoir - Neal Griffin 2016-08-19

This memoir records Mr. Griffin's life during his twenty years of military service. It begins when he was eighteen and joined the army and ends when he retired at thirty-eight. It describes his flaws, struggles, successes, failures, weaknesses, and insecurities as he faced the challenges of military service. At the same time, it examines the relationship between two kids who got married too young. It describes their struggles and failures during the turmoil of army life, including many overseas moves, raising kids, loneliness from frequent and long separations, and the results.

Training Requirements of Battle Staff NCOs in Digital Units - Raymond J. Felton 2003

The United States Army is transforming to a versatile force with the capabilities, particularly the digital technology, necessary to optimize the flow of information and enhance situational awareness. One vital enlisted position affected by the implementation of these digital technologies and equipment is assigned to Battle Staff Noncommissioned Officers. The Battle Staff Noncommissioned Officer course trains Noncommissioned Officers to be integral members of battle staffs in analog units. The current institutional training does not include instruction on how to use digital technology to leverage performance in Tactical Operations Centers. To determine if the role of the Battle Staff Noncommissioned Officer changed with the inception of digital technology, data were collected from 522 Battle Staff Noncommissioned Officers. Findings, based on surveys, observations, and interviews, suggest the need to include digital training within the Battle Staff Noncommissioned Officers Course and the need for system integration training to support the change in the role of the Battle Staff Noncommissioned Officer.

The Stewardship of Home Schooling: Teaching, Inspiring, Motivating, and More - William Overton 2016-09-19

This is a book about the stewardship of parenting, but specifically aimed at education. It contains stories of the individual experiences of parents who have been working hard to fulfill the requirements of that stewardship, in this case most directly through home schooling. However, it must be realized that every parent participates in education in the home, either as a practice of full-time teaching or as a supplement to regular public or charter school student involvement. There are three arenas: full-time home schooling; home schooling blended with public or charter school; and parent to child teaching as an on-going practice. Adopting a growth mindset should be an overall goal for the parent who wishes to teach, inspire, and motivate his or her children. Parents, both mothers and fathers, teach their children largely through example, but there is also the opportunity to inspire them to search out, not only knowledge, but also understanding and eventually wisdom. There is the opportunity to motivate children during the time they are growing in stature to develop mentally and to become self-directed lifelong learners. The world today is changing in ways that were never imagined a few

decades ago. We live in the information age and the pace of information availability is increasing at an expanding rate and will only continue to do so.

The Engineer - 1972

U.S. Marines In Vietnam: Fighting The North Vietnamese, 1967 - Maj. Gary L. Telfer 2016-08-09

This is the fourth volume in an operational and chronological series covering the U.S. Marine Corps' participation in the Vietnam War. This volume details the change in focus of the III Marine Amphibious Force (III MAF), which fought in South Vietnam's northernmost corps area, I Corps. This volume, like its predecessors, concentrates on the ground war in I Corps and III MAF's perspective of the Vietnam War as an entity. It also covers the Marine Corps participation in the advisory effort, the operations of the two Special Landing Forces of the U.S. Navy's Seventh Fleet, and the services of Marines with the staff of the U.S. Military Assistance Command, Vietnam. There are additional chapters on supporting arms and logistics, and a discussion of the Marine role in Vietnam in relation to the overall American effort.

From One Leader to Another - Combat Studies Institute Press 2013-05

This work is a collection of observations, insights, and advice from over 50 serving and retired Senior Non-Commissioned Officers. These experienced Army leaders have provided for the reader, outstanding mentorship on leadership skills, tasks, and responsibilities relevant to our Army today. There is much wisdom and advice "from one leader to another" in the following pages.

Black Soldier, White Army - William T. Bowers 1997-05

The history of the 24th Infantry regiment in Korea is a difficult one, both for the veterans of the unit & for the Army. This book tells both what happened to the 24th Infantry, & why it happened. The Army must be aware of the corrosive effects of segregation & the racial prejudices that accompanied it. The consequences of the system crippled the trust & mutual confidence so necessary among the soldiers & leaders of combat units & weakened the bonds that held the 24th together, producing profound effects on the battlefield. Tables, maps & illustrations.

The Story of the Noncommissioned Officer Corps (Paperbound) - David W. Hogan 2009

Why are tigers, the biggest felines, in danger of extinction? They are active at night and sleep in the day. See how a tigress brings up her cubs. Meet the tigers' many cousins in the cat family.

Major General Richard S. Kem, U.S.A. Retired - Richard S. Kem 2002

The Russian Way of War - Department of Department of the Army 2019-07-17

PRINTED IN COLOR - The Russian Way of War - Force Structure, Tactics, and Modernization of the Russian Ground Forces Published by the U.S. Army Training and Doctrine Command G2's Foreign Military Studies Office in 2016, this book picks up where the FM 100-2 series left off and discusses Russian military structure, capabilities, and future development. Includes July 2019 BONUS materials on the following: *1K17 Szhatie (1K17 Сжатие) Russian "Stiletto" Laser Tank *Combat Laser System (Peresvet) Russian Laser Cannon *T-14 Armata Main Battle Tank *T-15 Heavy Infantry Combat Vehicle *Kurganets-25 Light Tracked Armored Vehicle *2S35 Koalitsiya-SV 152-mm Self-Propelled Howitzer *VPK-7829 Bumerang Modular Infantry Wheeled Fighting Vehicle Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB. <https://usgovpub.com> *Duty. Honor. for My Country* - Mark A. Alaimo 2011-11-22 SFC Mark A. Alaimo shares a glimpse of his grueling experiences in the war on terrorism, how it shook his life and his eventual quest for healing. SFC Alaimos account is not a glamorized story of victory nor is it about

the glory associated with war. Rather, it is the poignant and true recollection of a man who has been to the war, seen and experienced its horrors and, finally, returned with a changed view of the world, his country and life. The pages give voice to the fears, doubts and pain that thousands of soldiers go through in the battlefield and even after combat. The author shares fragments of his childhood, his disappointments and even his struggle with post traumatic stress. What results is a book that effectively captures a realistic and humanized perspective of war and how it affects the lives that became intertwined in it. Ultimately, DUTY. HONOR. FOR MY COUNTRY is a story of one mans love for his country and the sacrifices he had to make for his devotion. It radiates hope and inspiration most especially to the soldiers who share the same story crystallized in the book.

The Lorraine Campaign - Hugh M. Cole 1993

[The Long Journey of the Nez Perce](#) - Kevin Carson 2021-11-26

Chiefs Joseph, Looking Glass, White Bird, and Their People Against the United States In 1877, the U.S. Government opened the Nez Perce lands in Oregon to settlers and ordered the tribe to move to a reservation in Idaho Territory. Although reluctant to leave their homeland, the Nez Perce began the long trek eastward. A small band of young warriors vented their frustration, however, in two days of deadly attacks on settlements along the Salmon River. Realizing that the U.S. response would be overwhelming--particularly in light of Custer's defeat the year before--the Nez Perce leaders, including Chiefs Joseph, Looking Glass, and White Bird, prepared their people for war. A U.S. Army battalion led by Civil War general Oliver O. Howard along with several other coordinated army units began pursuit in an effort to subdue the Nez

Perce and forceably move them to the reservation. The Nez Perce resolved to escape to freedom in Canada. Using their intimate knowledge of the land and their native Appaloosa horses skillfully, the Nez Perce were able to successfully check and elude the much larger American force for more than three months as they wound their way across the Rocky Mountains, through the newly established Yellowstone National Park, and into Montana. The war finally ended when the exhausted Indians--men, women, and children--were surrounded in the Bear Paw Mountains. Looking Glass was shot dead, and at this point, Chief Joseph relinquished and gave his famous address of surrender to General Howard. While most of the Nez Perce ended up on a reservation, the band led by White Bird was able to make their way to Canada and freedom. The Nez Perce War is one of the most important and emotional campaigns of the Indian Wars. It essentially closed an era in American history, and the amount of time, money, and troops required to subdue the Nez Perce brought the plight of American Indians and the reservation system to the front pages of newspapers around the world. In *The Long Journey of the Nez Perce: A Battle History from Cottonwood to Bear Paw*, former U.S. Army engineering officer Kevin Carson brings his intimate knowledge of the territory crossed by the Nez Perce along with his skill as a cartographer to reconstruct in detail the battles and skirmishes along the entire route of the conflict.
