Sir Bob Russell - Great Britain: Parliament: House of Commons: Committee on Standards and Privileges 2012-09-10
This report is into the investigation by the Palriamentary Commissioner for Administration of a complaint that Sir Bob Russell, the Member

for Colchester, made claims against parliamentary allowances for the rental of his constituency office from 2002-03 to 2009-2010 when that accommodation was owned by company in which he and a family member held shares. The Commissioner did find that Sir Bob Russell was in breach of the rules, that there was a misreading and misunderstanding of the rules. However the seriousness of the breach was strongly mitigated by findings in relation to disclosure. The Committee agrees with those conclusions and has recorded the breach. No further action is recommended.

Sustainable Development Reporting by Government Departments - Great Britain:

Parliament: House of Commons: Environmental Audit Committee 2006-06-28

The regular annual report, the Sustainable Development in Government report, covering the whole of central government on environmental and sustainable development issues, is seen as a success in the "greening government" initiative since 1997, along with the Framework for Sustainable Development on the Government Estate. Reporting by individual departments is less satisfactory. The Framework contains targets for departments on public reporting of their sustainable development impacts, but they are neither demanding nor specific. Some significant areas of departmental activity fall outside the parameters for sustainable development reporting, for example involvement in PFI contracts, and the Committee

wants departments to be able to report on these matters. The UK Sustainable Development Strategy required all departments and executive agencies to produce an annual Sustainable Development Action Plan (SDAP) by December 2005. The Committee is disappointed that 14 departments and agencies did not meet this deadline. The Committee would like SDAPs to be published alongside the departmental annual reports in the spring. This report also includes, as an annex (p. 11-41), the National Audit Office briefing, detailing the findings of its review of annual sustainable development reporting by UK government departments in 2004.

BBC licence fee settlement and annual report - Great Britain: Parliament: House of

Commons: Culture, Media and Sport Committee
2011-05-19

The Culture Media and Sport Committee says that the main outcomes of the BBC Trust's strategic review do not move the BBC on to the extent required by current circumstances, and that the incoming Chairman will have much to get grips with. The new licence fee agreement was reached "unexpectedly" in October 2010 between the Department for Culture Media and Sport and the BBC, but without any time for wider consultation with viewers or Parliament. The Committee believes the agreement reached is a reasonable one, but the process undermined confidence in both the Government's and the BBC's commitment to transparency and accountability. On the partnership between BBC and S4C, it is unclear how S4C can retain its independence under the new arrangements. It is extraordinary that the Government and the BBC should agree such wide-ranging changes without consultation or giving S4C any notice or say at

all. The Committee is particularly concerned that National Audit Office still does not have the promised access to conduct independent assessments of the BBC's value for money. The Committee is also disappointed that banded information on talent salaries is still not in the public domain. The BBC opened itself to predictable ridicule with the decision to hire a "migration manager" who had to commute from the United States to manage the transition to the new Salford site. The report concludes that big questions remain over how radically the BBC needs to reconfigure both content and delivery in the years ahead.

Rough Justice - A True Story - Robert Steele
2013-06-06

This is a true story about a shop steward who had 83 grievances with his employer over a 14 month period. By doing his best as a shop steward, he ended up with 57 personal grievances and was threatened with the sack 8 times and was actually sacked twice. The Trade Unions District Audit were informed of these problems though they seemed to decide to protect the employer rather than their union

member. Solicitors and barristers were subsequently involved however time passed and this led to time running out for a potential claim. The issues were put into court which, in the opinion of the author, led to rough justice.

2004-05-18

This 2003 Article IV Consultation highlights that economic performance of The Gambia deteriorated substantially in 2002-03. A collapse of the groundnut harvest in 2002 led to a contraction of real GDP by 3 percent while also affecting export revenues in 2003. At the same time, poor execution of monetary and fiscal policy, reflecting serious deficiencies in governance, caused the exchange rate to depreciate and inflation to surge. In 2003, the fiscal deficit is estimated to have declined to 6.0 percent of GDP, compared with a budget target of 4.5 percent.

HM Revenue & Customs accounts 2010-11 - Great Britain: Parliament: House of Commons: Committee of Public Accounts 2011-12-20
The Commons Public Accounts Committee publishes its 61st Report of the Session which, on the basis of evidence from the Cabinet Office and HM Revenue and Customs (HMRC), examined tax disputes. At 31 March 2011 HM Revenue & Customs was seeking to resolve tax issues valued at over £25 billion with large companies, some of which included disputes over outstanding tax. In this report, the Committee expresses concern about how the

Department handled some cases involving large settlements and that there needs to be proper separation between the negotiation of tax settlements and the authorization of such settlements. The Committee also states that HMRC made matters worse by trying to avoid scrutiny of these settlements, keeping confidential the details of specific settlements with large companies. This effects Parliament's ability to establish value for money, compounded further by imprecise, inconsistent and potentially misleading answers given by senior departmental officials, including the Permanent Secretary for Tax in particular over his evidence on his relationship with Goldman Sachs, in facilitating a settlement with the company over their tax dispute. HMRC governance processes in these matters were inconsistent and it has now appointed two new Commissioners with tax expertise, and plans to introduce a new assessor role to permit independent review of large settlements before they are finalised. The

Committee further states that it saw little evidence of personal accountability within the Department, and that a perception has developed that large companies are treated more favourably, receiving preferential treatment compared to small businesses and individuals.
