BHOUTAN - Robert DOMPNIER 2015-03-06

Ce récit constitue une introduction passionnante au Bhoutan, ce petit royaume qui a osé placer le bonheur dans ses valeurs cardinales. Les rares touristes qui s'y rendent sont immanquablement charmés par la découverte d'un pays coloré ayant su préserver un environnement culturel et naturel de toute beauté. Robert Dompnier rapporte ici le témoignage de ses nombreux voyages jusque dans les coins les plus reculés du Bhoutan. Au-delà des paysages somptueux ou de l'architecture typique des dzong, l'auteur se lie aux habitants eux-mêmes, bergers, paysans, ministres ou membres de la famille royale, et fait partager au lecteur la richesse de ces rencontres. D'histoires en anecdotes, ce récit nous entraîne sur les chemins escarpés du Bhoutan où, à l'ombre des monastères-forteresse, le 21^e siècle a une saveur bien différente qu'en Occident.

Guide Bhoutan - Françoise POMMARET 2018-02-08

Situé dans l'Himalaya oriental, entouré de voisins puissants (l'Inde et la Chine), le Bhoutan est pour beaucoup le Shangri-la, ce pays mythique caché dans les montagnes. Faiblement peuplé (à peine un million d'habitants), grand comme la Suisse, le Bhoutan possède un charme indéniable, magique diront les amoureux de ce pays. Les sommets y sont impressionnants (plus de 7000 m), les forêts impénétrables, l'architecture exceptionnelle. Ce guide, écrit par une tibétologue française résidant dans le royaume du Bhoutan, est toujours le seul guide en français à décrire ce pays si méconnu. Loin de l'agitation touristique (le gouvernement pratique une politique très restrictive en matière de tourisme afin de protéger les valeurs traditionnelles locales), les Bhoutanais sont à juste titre fiers de ne jamais avoir été colonisés. Agriculteurs pour la plupart, ils pratiquent le bouddhisme tibétain, religion d'Etat qui joue un rôle très important dans leur vie quotidienne.

Bird Girl and the Man Who Followed the Sun
- Velma Wallis 1997-09-12

With the publication of *Two Old Women*, Velma Wallis firmly established herself as one of the most important voices in Native American writing. A national bestseller, her empowering fable won the Western State Book Award in 1993 and the Pacific Northwest Booksellers Association Book Award in 1994. Translated into 16 languages, it went on to international success, quickly reaching bestseller status in Germany. To date, more than 350,000 copies have been sold worldwide. *Bird Girl and the Man Who Followed the Sun* follows in this bestselling tradition. Rooted in the ancient legends of Alaska's Athabaskan Indians, it tells the stories of two adventurers who decide to leave the safety of their respective tribes. *Bird Girl* is a headstrong young woman who learned early on the skills of a hunter. When told that she must end her forays and take up the traditional role of wife and mother, she defies her family's expectations and confidently takes off to brave life on her own. *Daagoo* is a dreamer, curious about the world beyond. Longing to know what happens to the sun in winter, he sets out on a quest to find the legendary "Land of the Sun." Their stories interweave and intersect as they each face the many dangers and challenges of life alone in the wilderness. In the end, both learn that the search

for individualism often comes at a high price, but that it is a price well worth paying, for through this quest comes the beginning of true wisdom.

Bhutanese Tales of the Yeti - Kunzang Choden 2013

Bhutanese Tales of the Yeti is a collection of twenty-two stories set in four different regions of Bhutan. The presence of the yeti is ubiquitous to the kingdoms of the Himalayas, where beliefs and attitudes related to it go beyond scientific judgment and analysis. The Bhutanese consider the yeti, or the migoi, to be an essential part of the backdrop of their existence. Believed to possess supernatural powers enabling it to become invisible at will, the yeti often manifests itself in a tangible form and then suddenly vanishes, leaving behind nothing but an unexpected void. Folklore about the abominable snowman has existed for centuries; however, with the far-reaching impact of the media, the perpetuation of this oral tradition is threatened. This collection of stories is an attempt to document a vital tradition before it is wiped out entirely. The book is well illustrated and includes maps of the four regions.

Recommendations for Cultural Policy - Tshewang Dorji 2017-05-15

Essay from the year 2010 in the subject Cultural Studies - Miscellaneous, language: English, abstract: Culture and development is not only integral but also inevitable for sustainable development. Cultural values and moral implications of individuals and communities are the foundation of the socio-economic development of any nation. The culture and traditional values valed by the religion, cultural values and beliefs. Thus the preservation and promotion of culture is one of the four pillars in realizing the country's development philosophy of Gross National Happiness (GNH). GNH is the middle path of development that embraces a balance between spiritual and material development towards the attainment of happiness by the Bhutanese. The concept of GNH as a unique and primary development philosophy was initiated and coined by His Majesty, the Fourth King of Bhutan, Jigme Singye Wangchuck. His Majesty believes that "Gross National Happiness is more important than Gross National Product" and therefore a people centered development with happiness with value as the end goal is what it should be for Bhutan. And thus beside economic factors, one should take account of social factors, environmental, cultural, and good governance. The ultimate goal of development must be happiness and human well-being, but should not

be economic development or to be a winner in the global competitions (Karma Ura, 2009). Every individual no matter what race, creed, colour, origin, nationality the ultimate aspiration of life is happiness. Therefore, the Royal Government of Bhutan (RGOB) established the GNH Commission to guide the planning process in the country. In 2008, Bhutan triumphantly took the stage as the world's youngest democracy. But despite its growing prominence—and rising scholarly interest in the country—Bhutan remains one of the least studied, and least well-known places on the planet. Karma Phuntsho's *The History of Bhutan* is the first book to offer a comprehensive history of Bhutan in English. Along with a detailed social and political analysis, it offers substantive discussions of Bhutan's geography and culture; the result is the clearest, richest account of this nation and its history ever published for general readers. There is a misty-eyed vision of Bhutan which has popularized it as 'the last Shangri-la', the hidden Himalayan jewel, the travel destination of celebrities and unique-experience-hunters. We are not entirely comfortable with this image. Bhutan has undoubtedly become the focus of considerable media attention in the last few years. Articles appear regularly on its substitution of happiness for money as the indicator of the country's wealth. Television programs, books, visits by personalities - all have served to bring Bhutan to global awareness. This attention only serves to increase pressure on the culture to become like any other. How has Bhutan resisted the impact of globalisation which has had such a homogenizing affect on most other countries in the world? A practice, until recently, of self-imposed isolation from the rest of the world, the Buddhist tradition, and the lack of any successful foreign invader have combined to produce a living culture that is as unique as it is fragile. This fragility suggested the need to document a context that seemed on the verge of change. Our second visit in 2008 confirmed our sense of immanent change, as we could see for ourselves the ways in which 'international culture' was beginning to appear: the first escalator in the country, widening the main road from single track to dual carriageway, the first democratic election, the availability of satellite television, and internet expansion... Nevertheless, we continue to feel that in Bhutan there is a different 'way of knowing.' We have worked with staff at the University to try to capture something of this in three different forms: • chapters written by Bhutanese individuals about the culture, landscape, education and folklore • extracts from interviews with university staff and associates to draw out particular characteristics of Bhutan which would be of interest to Western readers • photographs of Bhutan which provide a different 'view' of the country to complement the text. The subject matter has been chosen by Bhutanese staff at the Royal University of Bhutan as an expression of their understanding of their own land. There are conventional travel books about

Bhutan available and we have not attempted to contribute to this literature. *Bhutan: Ways of Knowing* is a book which reflects Bhutanese understanding of their country. We hope that you

will find these contributions as interesting and thought-provoking as we do, and that you, too, will find a different way of knowing about Bhutan.
