We Are Not Born Submissive - Manon Garcia

2023-01-24

A philosophical exploration of female submission, using insights from feminist thinkers—especially Simone de Beauvoir—to reveal the complexities of women’s reality and lived experience. What role do women play in the perpetuation of patriarchy? On the one hand, popular media urges women to be independent, outspoken, and career-minded. Yet, this same media glorifies a specific, sometimes voluntary, female submissiveness as a source of satisfaction. In philosophy, even less has been said on why women submit to men and the discussion has been equally contradictory—submission has traditionally been considered a vice or pathology, but female submission has been valorized as innate to women’s nature. Is there a way to explore female submission in all of its complexity—not denying its appeal in certain instances, and not buying into an antifeminist, sexist, or misogynistic perspective? *We Are Not Born Submissive* offers the first in-depth philosophical exploration of female submission, focusing on the thinking of Simone de Beauvoir, and more recent work in feminist philosophy, epistemology, and political theory. Manon Garcia argues that to comprehend female submission, we must invert how we examine power and see it from the woman’s point of view. Historically, philosophers,

psychoanalysts, and even some radical feminists have conflated femininity and submission. Garcia demonstrates that only through the lens of women’s lived experiences—their economic, social, and political situations—and how women adapt their preferences to maintain their own well-being, can we understand the ways in which gender hierarchies in society shape women’s experiences. Ultimately, she asserts that women do not actively choose submission. Rather, they consent to—and sometimes take pleasure in—what is prescribed to them through social norms within a patriarchy. Moving beyond the simplistic binary of natural destiny or moral vice, *We Are Not Born Submissive* takes a sophisticated look at how female submissiveness can be explained.

The V-Word - Amber J. Keyser 2016-02-02

Losing it. Popping your cherry. Handing in your V-card. First time sex is a big unknown. Will it be candlelight and rose petals or quick and uncomfortable? Is it about love or about lust? Deciding to have sex for the first time is a choice that's often fraught with anxiety and joy. But do you have anyone telling you what sex is really like? In *The V-Word* seventeen writers (including Christa Desir, Justina Ireland, Sara Ryan, Carrie Mesrobian, Erica Lorraine Scheidt, and Jamia Wilson) pull back the sheets and tell all, covering everything from straight sex to queer sex, diving-in versus waiting, and even the exhilaration and disappointment that blankets it all. Some of their experiences happened too soon, some at just the right time, but all paint a broad picture of what first-time sex is really like.

Hierarchy and Value - Jason Hickel 2018-08-01
Globalization promised to bring about a golden age of liberal individualism, breaking down hierarchies of kinship, caste, and gender around the world and freeing people to express their true, authentic agency. But in some places globalization has spurred the emergence of new forms of hierarchy—or the reemergence of old forms—as people try to reconstitute an imagined past of stable moral order. This is evident from the Islamic revival in the Middle East to visions of the 1950s family among conservatives in the United States. Why does this happen and how do we make sense of this phenomenon? Why do some communities see hierarchy as desirable? In this book, leading anthropologists draw on insightful ethnographic case studies from around the world to address these trends. Together, they develop a theory of hierarchy that treats it both as a relational form and a framework for organizing ideas about the social good.

Florence's Embassy to the Sultan of Egypt -
Mahnaz Yousefzadeh 2018-11-30

This book is the first English translation of Felice di Michele Brancacci's diary of his 1422 mission to the court of Sultan Al-Ashraf Seyf-ad-Din Barsbay of Egypt. Following the purchase of Port of Pisa in 1421, and the building of a galley system, Florence went on to assume a more active role in Levant trade, and this rich text recounts the maiden voyage of the Florentine galleys to Egypt. The text portrays the transnational experiences of Brancacci including those between the East and West, Christians and Muslims, and the ancient and modern worlds. The accompanying critical introduction discusses the unexpected motifs in Brancacci's voyage, as well as tracing the aftershocks of what was a traumatic Egyptian experience for him. It shows that this aftershock was then measured, captured, and memorialized in the iconic image of Tribute Money, the fresco he commissioned from Masaccio, on his return to his own world in Florence.

Submission - Michel Houellebecq 2015-10-20

A controversial, intelligent, and mordantly funny new novel from France's most famous literary figure Paris, 2022. François is bored. He's a middle-aged lecturer at the Sorbonne and an expert on J. K. Huysmans, the famous nineteenth-century "decadent" author. But François's own decadence is considerably smaller in scale. He sleeps with his students, eats microwave dinners, reads the classics, queues up YouPorn. Meanwhile, it's election season. And although François feels "about as politicized as a hand towel," things are getting pretty interesting. In an alliance with the socialists, France's new Islamic party sweeps to power. Islamic law comes into force. Women are veiled, polygamy is encouraged, and François is offered an irresistible academic advancement--on condition that he convert to Islam. Adam Gopnik in *The New Yorker* has said of this novel that "Houellebecq is not merely a satirist but--more unusually--a sincere satirist, genuinely saddened by the absurdities of history and the madneses of

mankind." Michel Houellebecq's Submission may be satirical and melancholic, but it is also hilarious; a comic masterpiece by one of France's great novelists.

The Fighting 69th - Sean Michael Flynn
2007-12-27

One of the most celebrated units in the military for more than a century, by 1990, New York City's Fighting 69th Infantry Regiment of the Army National Guard was scarcely fit for duty. Its

equipment was derelict, its discipline nonexistent, many of its leaders inept, and its ranks filled with kids barely out of high school who had little intention of serving their country for any longer than it took to get their paycheck, college credit, or job training. Then came the attacks of September 11 and the invasion of Iraq. In *The Fighting 69th*, Sean Michael Flynn, himself a member of the unit, chronicles the extraordinary transformation of this band of amateur soldiers into a battle-hardened troop at one of the most lethal sites of war. Reimagining Globalization and Education - Fazal Rizvi 2022-05-26

This book brings together leading scholars in Global Studies in Education to reflect on how various developments of historic significance have unsettled the neoliberal imaginary of globalization. The developments include greater recognition of inequalities and the changing nature of work and communication; the emergence of new technologies of governance; a greater awareness of geopolitical shifts; the revival of nationalism, populism and anti-globalization sentiments; and the recognition of risks surrounding pandemics and climate change. Drawing from a range of disciplinary perspectives, the chapters in this collection examine how these developments demand new ways of thinking about globalization and its implications for education policy and practice – beyond the neoliberal imaginary. Over the past decade, several major developments have unsettled the neoliberal imaginary of globalization. These developments include: the

greater recognition of inequalities within and across nations; innovations in mobile technologies and shifts in communicative cultures; growing awareness of environmental issues and climate change; the rise of Asia and the changing geopolitics of the world; recognition of the risks surrounding pandemics; ‘datafication’ and the consolidation of audit cultures and new modes of governance, developments in artificial intelligence and biotechnology; and the revival of nationalism, populism and anti-globalization sentiments. The aim of this book is to bring together a collection of original essays written by some of the leading scholars in Global Studies in Education to reflect on the ways in which these developments have challenged the cultural and political authority of the neoliberal imaginary of globalization, creating conditions in which globalization needs to be reimagined, as well as its implications for thinking about educational policy and practice. The significance of this book lies in the robust conversations it is expected to stimulate about the ways in which globalization and education might now be reimagined in the light of the growing recognition of the contradictions of neoliberalism, as well as a range of historical transformations that have taken place over the past decade.
