Another white Man's Burden - Tommy J. Curry
2018-11-27

Demonstrates the extent to which Josiah Royce's ideas about race were motivated explicitly in terms of imperial conquest. Winner

of the 2020 Josiah Royce Prize in American Idealist Thought, presented by the Josiah Royce Society
Another white Man's Burden performs a case study of Josiah Royce's philosophy of racial difference. In an effort to lay bare the ethnological racial heritage of American philosophy, Tommy J. Curry challenges the common

notion that the cultural racism of the twentieth century was more progressive and less racist than the biological determinism of the 1800s. Like many white thinkers of his time, Royce believed in the superiority of the white races. Unlike today however, whiteness did not represent only one racial designation but many. Contrary to the view of the British-born Germanophile philosopher Houston S. Chamberlain, for example, who insisted upon the superiority of the Teutonic races, Royce believed it was the Anglo-Saxon lineage that possessed the key to Western civilization. It was the birthright of white America, he believed, to join the imperial ventures of Britain—to take up the white man's burden. To this end he advocated the domestic colonization of Blacks in the American South, suggested that America's xenophobia was natural and necessary to

protecting the culture of white America, and demanded the assimilation and elimination of cultural difference for the stability of America's communities. Another white Man's Burden reminds philosophers that racism has been part of the building blocks of American thought for centuries, and that this must be recognized and addressed in order for its proclamations of democracy, community, and social problems to have real meaning. Tommy J. Curry is Professor of Philosophy at Texas A&M University and the author of *The Man-Not: Race, Class, Genre, and the Dilemmas of Black Manhood*.

The Black Man's Burden - in Black and White -

Kobina Amissah-Fynn
2020-10-29

The Black Man's Burden - in Black and White As the title suggests this book is about the black man, those in sub-Saharan Africa or else in the African diaspora. By extension, however, it is also all about the marginalized, disadvantaged, oppressed, traumatized, downtrodden, dehumanized and aggrieved segments of the world's population. Not only does this include the dark-skinned inhabitants in different continents of the globe, it also counts with the diverse remote aboriginal and indigenous groups, many nomadic tribes, low-caste

untouchables, the displaced and dispossessed, and even women (who have traditionally been victims of harassment, sexual misconduct and gender-based violence in almost all cultures). The plight of all these disparaged categories of hapless people is exemplified in the book, to one extent or the other, by the burden and experiences of the black man (not just in tropical Africa but Afro-descendants in the Americas, the Caribbean or elsewhere in the world). In that sense, the book is not really about race, but the painful experiences of diverse peoples, epitomized in this book by the people of African descent. Theirs is a story that, sad as it is, has remained untold to the full, a story that continues to unfold in daily news items highlighting their sufferings and victimization from unlawful killings, police brutalities, mass incarcerations, unfair judicial systems,

institutional racism, racial profiling, discrimination, and all forms of inequities and mistreatments, a story for which the "Black Lives Matter" mantra has lately become a rallying cry of all the abused ones of the earth. While the historical, legal, social and political perspectives of the black man's misfortune are generally well understood, even if at a superficial level, the religious dimensions do not seem so obvious to most. Yet the deeper causes of the black man's travail are religious - the reader might be a surprise to learn. To religion then this book turns, not only to explore the causes and circumstances of the black man's travail but also in search of the ultimate solution. In summary, the book is both about the travail of this branch of the human family, the black man, but also about the triumph of the human spirit and of the human race as a whole. So in that sense it is

a book about the entire human family and its forward march towards an inclusive world community, a community characterized by love, mutual understanding, reconciliation and wellbeing for all. ABOUT THE AUTHOR: The author does not write about black and African people as an "outsider". He is a full-blooded black African himself and hails from Cape Coast in the south-central coastal region of Ghana in West Africa. Cape Coast is where one of most prominent slave castles of Africa is situated. Known as the Cape Coast Castle, it is even on UNESCO's list of World Heritage Sites. Thus Cape Coast played a crucial role in the trans-Atlantic slave trade. He is familiar with issues blacks are generally confronted with, having travelled widely across Africa, met blacks in Brazil and Colombia, and experienced what blackness means while visiting or

sojourning in other continents.
Black in White Space -
Elijah Anderson 2022-01-05
From the vital voice of Elijah Anderson, 'Black in White Space' sheds fresh light on the dire persistence of racial discrimination in our country. A birder strolling in Central Park. A college student lounging on a university quad. Two men sitting in a coffee shop. Perfectly ordinary actions in ordinary settings - and yet, they sparked jarring and inflammatory responses that involved the police and attracted national media coverage. Why? In essence, Elijah Anderson would argue, because these were Black people existing in white spaces. Anderson brings his immense knowledge and ethnography to bear in this timely study of the racial barriers that are still firmly entrenched in our society at every class level.

The Black Man's Burden -
Edward Dene Morel

2016-07-26

The Black Man's Burden:
The White Man in Africa
from the Fifteenth Century
to World War I (1920)
Chapter I. The White Man's
Burden The bard of a
modern Imperialism has
sung of the White Man's
burden. The notes strike the
granite surface of racial
pride and fling back echoes
which reverberate through
the corridors of history,
exultant, stirring the blood
with memories of heroic
adventure, deeds of
desperate daring, ploughing
of unknown seas, vistas of
mysterious continents,
perils affronted and
overcome, obstacles
triumphantly surmounted.
But mingled with these
anthems to national elation
another sound is borne to
usinsistence. What of that
other burden, not our own
self-imposed one which
national and racial vanity
may well over-stress; but
the burden we have laid on
others in the process of
assuming ours, the burden

which others are bearing now because of us? Where are they whose shoulders have bent beneath its weight in the dim valleys of the centuries? Vanished into nothingness, pressed and stamped into that earth on which we set our conquering seal. How is it with those who but yesterday lived free lives beneath the sun and stars, and to-day totter to oblivion? How shall it be tomorrow with those who must slide even more swiftly to their doom, if our consciences be not smitten, our perception be not responsive to the long-drawn sigh which comes to us from the shadows of the bygone?..... Chapter II. The Black Man's Burden It is with the peoples of Africa, then, that our inquiry is concerned. It is they who carry the "Black man's" burden. They have not withered away before the white man's occupation. Indeed, if the scope of this volume permitted, there

would be no difficulty in showing that Africa has ultimately absorbed within itself every Caucasian and, for that matter, every Semitic invader too. In hewing out for himself a fixed abode in Africa, the white man has massacred the African in heaps. The African has survived, and it is well for the white settlers that he has. In the process of imposing his political dominion over the African, the white man has carved broad and bloody avenues from one end of Africa to the other. The African has resisted, and persisted. For three centuries the white man seized and enslaved millions of Africans and transported them, with every circumstance of ferocious cruelty, across the seas. Still the African survived and, in his land of exile, multiplied exceedingly. But what the partial occupation of his soil by the white man has failed to do; what the mapping out of European political

"spheres of influence" has failed to do; what the maxim and the rifle, the slave gang, labour in the bowels of the earth and the lash, have failed to do; what imported measles, smallpox and syphilis have failed to do; what even the oversea slave trade failed to do, the power of modern capitalistic exploitation, assisted by modern engines of destruction, may yet succeed in accomplishing. For from the evils of the latter, scientifically applied and enforced, there is no escape for the African. Its destructive effects are not spasmodic: they are permanent. In its permanence resides its fatal consequences. It kills not the body merely, but the soul. It breaks the spirit. It attacks the African at every turn, from every point of vantage. It wrecks his polity, uproots him from the land, invades his family life, destroys his natural pursuits and occupations, claims his whole time,

enslaves him in his own home..... Edmund Dene Morel, originally Georges Eduard Pierre Achille Morel de Ville (10 July 1873 - 12 November 1924), was a British journalist, author, pacifist, and politician. In collaboration with Roger Casement, Morel led a campaign against slavery in the Congo Free State, founding the Congo Reform Association and running the West African Mail..... Take Up the Black Man's Burden - Charles Edward Coulter 2006

Unlike many cities farther north, Kansas City, Missouri-along with its sister city in Kansas-had a significant African American population by the midnineteenth century and also served as a way station for those migrating north or west. "Take Up the Black Man's Burden" focuses on the people and institutions

that shaped the city's black communities from the end of the Civil War until the outbreak of World War II, blending rich historical research with first-person accounts that allow participants in this historical drama to tell their own stories of struggle and accomplishment. Charles E. Coulter opens up the world of the African American community in its formative years, making creative use of such sources as census data, black newspapers, and Urban League records. His account covers social interaction, employment, cultural institutions, housing, and everyday lives within the context of Kansas City's overall development, placing a special emphasis on the years 1919 to 1939 to probe the harsh reality of the Depression for Kansas City blacks—a time when many of the community's major players also rose to prominence. "Take Up the Black Man's Burden" is a rich testament not only of

high-profile individuals such as publisher Chester A. Franklin, activists Ida M. Becks and Josephine Silone Yates, and state legislator L. Amasa Knox but also of ordinary laborers in the stockyards, domestics in white homes, and railroad porters. It tells how various elements of the population worked together to build schools, churches, social clubs, hospitals, the Paseo YMCA/YWCA, and other institutions that made African American life richer. It also documents the place of jazz and baseball, for which the community was so well known, as well as movie houses, amusement parks, and other forms of leisure. While recognizing that segregation and discrimination shaped their reality, Coulter moves beyond race relations to emphasize the enabling aspects of African Americans' lives and show how people defined and created their world. As the first extensive treatment of

black history in Kansas City, "Take Up the Black Man's Burden" is an exceptional account of minority achievement in America's crossroads. By showing how African Americans saw themselves in their own world, it gives readers a genuine feel for the richness of black life during the interwar years of the twentieth century.

Taming Cannibals - Patrick Brantlinger 2011-09-16

In *Taming Cannibals*, Patrick Brantlinger unravels contradictions embedded in the racist and imperialist ideology of the British Empire. For many Victorians, the idea of taming cannibals or

civilizing savages was oxymoronic: civilization was a goal that the nonwhite peoples of the world could not attain or, at best, could only approximate, yet the "civilizing mission" was viewed as the ultimate justification for imperialism. Similarly, the supposedly unshakeable certainty of Anglo-Saxon racial superiority was routinely undercut by widespread fears about racial degeneration through contact with "lesser" races or concerns that Anglo-Saxons might be superseded by something superior—an even "fitter" or "higher" race or species. Brantlinger traces the development of those fears through close readings of a wide range of texts—including *Robinson Crusoe* by Daniel Defoe, *Fiji and the Fijians* by Thomas Williams, *Daily Life and Origin of the Tasmanians* by James Bonwick, *The Descent of Man* by Charles Darwin, *Heart of Darkness*

by Joseph Conrad, Culture and Anarchy by Matthew Arnold, She by H. Rider Haggard, and The War of the Worlds by H. G. Wells. Throughout the wide-ranging, capacious, and rich Taming Cannibals, Brantlinger combines the study of literature with sociopolitical history and postcolonial theory in novel ways.

Too Heavy a Yoke - Chaneyqua Walker-Barnes 2014-06-19

Black women are strong. At least that's what everyone says and how they are constantly depicted. But what, exactly, does this strength entail? And what price do Black women pay for it? In this book, the author, a psychologist and pastoral theologian, examines the burdensome yoke that the ideology of the Strong Black Woman places upon African American women. She demonstrates how the three core features of the ideology--emotional strength, caregiving, and independence--constrain the lives of African American women and predispose them to physical and emotional health problems,

including obesity, diabetes, hypertension, and anxiety. She traces the historical, social, and theological influences that resulted in the evolution and maintenance of the Strong Black Woman, including the Christian church, R & B and hip-hop artists, and popular television and film. Drawing upon womanist pastoral theology and twelve-step philosophy, she calls upon pastoral caregivers to aid in the healing of African American women's identities and crafts a twelve-step program for Strong Black Women in recovery.

In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? Between

the World and Me is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

Thirteen Ways of Looking at a Black Man - Henry Louis Gates, Jr. 2011-06-08

"This is a book of stories," writes Henry Louis Gates, "and all might be described as 'narratives of ascent.'" As some remarkable men talk about their lives, many perspectives on race and gender emerge. For the notion of the unitary black man, Gates argues, is as imaginary as the creature that the poet Wallace Stevens conjured in his poem "Thirteen Ways of Looking at a Blackbird." James Baldwin, Colin Powell, Harry Belafonte, Bill T. Jones, Louis Farrakhan, Anatole Broyard, Albert Murray -- all these men

came from modest circumstances and all achieved preeminence. They are people, Gates writes, "who have shaped the world as much as they were shaped by it, who gave as good as they got." Three are writers -- James Baldwin, who was once regarded as the intellectual spokesman for the black community; Anatole Broyard, who chose to hide his black heritage so as to be seen as a writer on his own terms; and Albert Murray, who rose to the pinnacle of literary criticism. There is the general-turned-political-figure Colin Powell, who discusses his interactions with three United States presidents; there is Harry Belafonte, the entertainer whose career has been distinct from his fervent activism; there is Bill T. Jones, dancer and choreographer, whose fierce courage and creativity have continued in the shadow of AIDS; and there is Louis Farrakhan,

the controversial religious leader. These men and others speak of their lives with candor and intimacy, and what emerges from this portfolio of influential men is a strikingly varied and profound set of ideas about what it means to be a black man in America today.

Shadowing the White Man's

Burden - Gretchen Murphy
2010-05-01

During the height of 19th century imperialism, Rudyard Kipling published his famous poem "The White Man's Burden." While some of his American readers argued that the poem served as justification for imperialist practices, others saw Kipling's satirical talents at work and read it as condemnation. Gretchen Murphy explores this tension embedded in the notion of the white man's burden to create a new historical frame for understanding race and literature in America. *Shadowing the White Man's Burden* maintains that literature symptomized and channeled anxiety about the racial components of the U.S. world mission, while also providing a potentially powerful medium for multiethnic authors interested in redrawing global color lines. Through a range of archival materials from literary

reviews to diplomatic records to ethnological treatises, Murphy identifies a common theme in the writings of African-, Asian- and Native-American authors who exploited anxiety about race and national identity through narratives about a multiracial U.S. empire. *Shadowing the White Man's Burden* situates American literature in the context of broader race relations, and provides a compelling analysis of the way in which literature came to define and shape racial attitudes for the next century.

Who's Afraid of Post-Blackness? - Touré

2011-09-13

How do we make sense of what it means to be Black in a world with room for both Michelle Obama and Precious? Touré, an iconic commentator and journalist, defines and demystifies modern Blackness with wit, authority, and irreverent humor. In the age of Obama, racial attitudes

have become more complicated and nuanced than ever before. Americans are searching for new ways of understanding Blackness, partly inspired by a President who is unlike any Black man ever seen on our national stage. This book aims to destroy the notion that there is a correct or even definable way of being Black. It's a discussion mixing the personal and the intellectual. It gives us intimate and painful stories of how race and racial expectations have shaped Tour's life as well as a look at how the concept of Post-Blackness functions in politics, psychology, the Black visual arts world, Chappelle's Show, and more. For research Tour has turned to some of the most important luminaries of our time for frank and thought-provoking opinions, including Rev. Jesse Jackson, Henry Louis Gates Jr., Cornel West, Michael Eric Dyson, Melissa Harris-Lacewell, Malcolm

Gladwell, Harold Ford, Jr., Kara Walker, Kehinde Wiley, Chuck D, and many others. Their comments and disagreements with one another may come as a surprise to many readers. Of special interest is a personal racial memoir by the author in which he depicts defining moments in his life when he confronts the question of race head-on. In another chapter—sure to be controversial—he explains why he no longer uses the word “nigga.” *Who's Afraid of Post-Blackness?* is a complex conversation on modern America that aims to change how we perceive race in ways that are as nuanced and spirited as the nation itself.

African Soccerescapes -

Peter Alegi 2010-02-14

From Accra and Algiers to Zanzibar and Zululand, Africans have wrested control of soccer from the hands of Europeans, and through the rise of different playing styles, the rituals of spectatorship, and the presence of magicians and healers, have turned soccer into a distinctively African activity. African

Soccerescapes explores how Africans adopted soccer for their own reasons and on their own terms. Soccer was a rare form of “national culture” in postcolonial Africa, where stadiums and clubhouses became arenas in which Africans challenged colonial power and expressed a commitment to racial equality and self-determination. New nations staged matches as part of

their independence celebrations and joined the world body, FIFA. The Confédération africaine de football democratized the global game through antiapartheid sanctions and increased the number of African teams in the World Cup finals. In this compact, highly readable book Alegi shows that the result of this success has been the departure of huge numbers of players to overseas clubs and the growing influence of private commercial interests on the African game. But the growth of women’s soccer and South Africa’s hosting of the 2010 World Cup also challenge the one-dimensional notion of Africa as a backward, “tribal” continent populated by victims of war, corruption, famine, and disease.
