Broken Silence - Sandra Buckley 1997-02-27

Broken Silence brings together for the first time many of Japan's leading feminists, women who have been bucking the social mores of a patriarchal society for years but who remain virtually unknown outside Japan. While Japan is often thought to be without a significant feminist presence, these interviews and essays reveal a vital community of women fighting for social change. Sandra Buckley's dialogues with poets, journalists, teachers, activists, and businesswomen exemplify the diversity of Japanese feminism: we meet Kanazumi Fumiko,

a lawyer who assists women in a legal system that has long discriminated against them; Kora Rumiko, a poet who reclaims and redefines language to convey her experiences as a woman; Nakanishi Toyoko, founder of the Japanese Women's Bookstore; and Ueno Chizuko, a professor who has tackled such issues as pornography and abortion reform both in and out of the academy. These women speak to a host of issues—the politics of language, the treatment of women in medicine and law, the deeply entrenched role of women as mothers and caregivers, the future of feminism in Japan, and

the relationship between Japanese feminists and "western" feminisms. *Broken Silence* will do much to dispel Western stereotypes about Japanese women and challenge North American attitudes about feminism abroad. With a timeline, glossary, and comprehensive list of feminist organizations, this is a long overdue collection sure to inform and excite all those interested in feminism and Japan.

**Rocks, Minerals, and Soil** - Pilar Alvarez

2016-12-15

Rocks, minerals, and soil are the building blocks of Earth's massive landforms. Readers will learn

all about them in this science-rich title, which makes earth science concepts accessible and fun. Readers learn about the rock cycle and the properties of igneous, sedimentary, and metamorphic rocks. The text also explores minerals and their properties, as well as soil composition. Bright photographs accompany the age-appropriate content. Bourgeoning earth scientists will walk away with a great understanding of rocks, minerals, and soil.

[I Didn'T Plan To Be A Witch](#) - Linda Eyre

1996-05-09

Linda Eyre, who co-authored the New York Times

bestseller *Teaching Your Children Values*, has nine children. She knows that although no mother plans to be a witch, there are times when every mother does a terrific job of playing the part. In her reassuring and hilarious report on being a mother in today's hectic world, Linda honestly describes not only the vital importance and magnificent moments of motherhood, but also those days when mothers feel they are living in a Roadrunner cartoon that never ends. She shares her own experiences with managing unmanageable schedules, coping with mealtime chaos, trying to find time for herself, and the

sometimes desperate measures and compromises that are necessary to get it all done (and even then, not always). Whether offering advice on streamlining your life, coping with the martyr syndrome, or ignoring the outrageous demands of toddlers and teens with serenity and grace (or not), Linda Eyre speaks with the voice of experience.

*Study Guide for the NCE Exam DSM-5* - DR.  
Linton Hutchinson 2016

**Twinsight** - Dara Lovitz 2018-03-01

It's a fact: twins experience life differently than

singleton children. They're compared to each other in everything from athletics to academics. They encounter unique social issues (what happens when one child is invited to a social outing while her twin is not?). They can even have difficulty forming deep relationships outside of the twinship. Yet no book effectively helps parents navigate these unique emotional challenges—until now. In the first book written on the emotional needs of twins, *Twinsight: How to Raise Emotionally Healthy Twins* bypasses the usual discussions on how to pay for two tuitions (a conundrum, to be sure!) and instead tackles

deeper questions: How do you help twins feel like individuals? Should they be expected to be each other's caretaker? How can a parent avoid comparing? How can you encourage relationships outside the twinship? and more! Drawing on over eighty interviews with adult twins and their non-twin siblings, as well as expert insights from educators and psychologists and exhaustive research, author Dara Lovitz offers parents a definitive roadmap to raising emotionally healthy twins now and into the future.

**Child of Wonder** - Ginger Carlson 2008

Offers a collection of ideas and techniques to

help parents and educators guide children in creative development.

Children and their Urban Environment - Claire Freeman 2012-10-02

In our fast-changing urban world, the impacts of social and environmental change on children are often overlooked. Children and their Urban Environment examines these impacts in detail, looking at the key activities, spaces and experiences children have and how these can be managed to ensure that children benefit from change. The authors highlight the importance of planners, architects and housing professionals in

creating positive environments for children and involving them in the planning process. They argue that children's lives are becoming simultaneously both richer and more deprived, and that, despite apparently increasing wealth, disparities between children are increasing further. Each chapter includes international examples of good practice and policy innovations for redressing the balance in favour of child supportive environments. The book seeks to embrace childhood as a time of freedom, social engagement and environmental adventure and to encourage creation of environments that better

meet the needs of children. The authors argue that in doing so, we will build more sustainable neighbourhoods, cities and societies for the future.

*The Enneagram for Youth* - William J. Callahan  
1992

The Enneagram for Youth is the first Enneagram book directed toward the counseling of young adults. Each summary of the nine basic Enneagram personality types includes an overview of the personality, suggestions for personal growth, a description of and prescription for a successful spiritual life, and a sketch of

possible dangers to which each personality type can fall prey.

### **The Ludic Self in Seventeenth-Century English**

Literature - Anna K. Nardo 1991-01-01

This book argues that play offered Hamlet, John Donne, George Herbert, Andrew Marvell, Robert Burton, and Sir Thomas Browne a way to live within the contradictions and conflicts of late Renaissance life by providing a new stance for the self. Grounding its argument in recent theories of play and in a historical analysis that sees the seventeenth century as a point of crisis in the formation of the western self, the author

demonstrates how play helped mediate this crisis and how central texts of the period enact this mediation.

### **Unleashing Creativity and Innovation - Madan**

NurtureShock - Po Bronson 2009-09-03

In a world of modern, involved, caring parents,  
why are so many kids aggressive and cruel?  
Where is intelligence hidden in the brain, and why  
does that matter? Why do cross-racial friendships

decrease in schools that are more integrated? If  
98% of kids think lying is morally wrong, then why  
do 98% of kids lie? What's the single most  
important thing that helps infants learn language?  
NurtureShock is a groundbreaking collaboration  
between award-winning science journalists Po  
Bronson and Ashley Merryman. They argue that  
when it comes to children, we've mistaken good  
intentions for good ideas. With impeccable  
storytelling and razor-sharp analysis, they  
demonstrate that many of modern society's  
strategies for nurturing children are in fact  
backfiring--because key twists in the science have

been overlooked. Nothing like a parenting manual, the authors' work is an insightful exploration of themes and issues that transcend children's (and adults') lives.

*Three Steps to a Strong Family* - Linda Eyre  
1995-09

Offers a comprehensive guide to building a supportive and cohesive family unit to provide a rich, rewarding, stable, and structured life

**The Game of Love/Life** - Ronald Raymond Rocha  
2018-01-24

The Game of Love/Life, a time travelers sojourn through heaven and hell, is a compilation of

unique essays and poems received through meditation momentarily entertaining data (inspired thoughts) and activating transcendental insight one needs and nurtures. Here, within this treatise, the inquisitive soul will explore the depths of the mind, manifesting illusions, nurturing deities, divine entities (minds) intuitively traversing illusion, experienced sympathetically (through their heart). To understand today's game of love/life, you need to be technically savvy to the language, logically arranging notions, generating understanding among gifted entities. Everyone is gifted, given inspired feelings that enlighten

deities to truth and transcendental revelation unveiled to human time-traveling souls utilizing biological vehicles to explore the game of love/life. Within this lexicon of old words, new perspectives of truth and wisdom will raise your consciousness to experience your own epiphanies of truth that are held within your heart and that nurture your curious mind.

**Schools That Heal** - Claire Latane 2021-06-03

What would a school look like if it was designed  
with mental health in mind? Too many public  
schools look and feel like prisons, designed out of  
fear of vandalism and truancy. But we know that  
nurturing environments are better for learning.  
Access to nature, big classroom windows, and  
open campuses consistently reduce stress,  
anxiety, disorderly conduct, and crime, and  
improve academic performance. Backed by  
decades of research, Schools That Heal

showcases clear and compelling ways--from furniture to classroom improvements to whole campus renovations--to make supportive learning environments for our children and teenagers. With invaluable advice for school administrators, public health experts, teachers, and parents *Schools That Heal* is a call to action and a practical resource to create nurturing and inspiring schools for all children.

**Nurture the Nature** - Michael Gurian 2009-01-26  
From Michael Gurian, the best-selling author of *The Minds of Boys* and *The Wonder of Girls*, comes the next-step book that shows how any

parent can tune into a child's unique core personality, hard wiring, temperament, and genetic predisposition in order to help that child flourish and thrive. Based on the most recent brain research, *Nurture the Nature* features the *Ten Tips for Nurturing the Nature of Your Baby*, self-tests, checklists, and many other tools for you to help your kids get exactly the kind of support they need, from infants to adolescents. While offering positive ideas for nurturing your child, Gurian also shows how to avoid the stress, pressures, and excessive competition of what he identifies as social trends parenting. Most parents

know instinctively that their child is unique and has special potential, weaknesses, and strengths. No child is a blank slate. Gurian calls on parents to turn away from one-size-fits-all approaches and instead support the individual core nature of a child with effective and customized loving care.

The Nurturing Parenting Programs - Stephen J. Bavolek 2000

*The Nature of Nurturing* -

"Communicating with your children is at the very heart of parenting. Linda and Richard Eyre continue to reach out to parents with sage advice

on nurturing the family's value system. Make a conscious decision to plug into your kid's world. You may not be the only influence in your child's life, but you have to be the biggest."--Dr. Phil McGraw, #1 New York Times best-selling author and host of the TV show Dr. Phil "The Eyres have created a beautiful new language of natural, nurturing symbols that allow parents and children to communicate in a new and effective way. A truly remarkable book which 'strikes at the root.'"-- Stephen R. Covey, Author of The 7 Habits of Highly Effective People and The 7 Habits of Highly Effective Families "Nurturing is not just for

parents. Aunts, uncles, grandparents, or anyone who loves a child needs to read this book."--Jane Clayson, ABC News Correspondent "Mothers have traditionally been the key nurturers in their children's lives. The Eyres' 'natural' approach to principle-centered parenting opens exciting new ways for all of us to nurture family relationships."--  
-Marcia Ford, President, American Mothers Association The #1 bestselling authors of Teaching Your Children Values show parents how to develop a nurturing environment for their children All parents want to teach their children good values. But beneath that desire lies a

greater need--for a bond of love and trust that keeps children safe, and lets parents participate more fully in their children's lives. Linda and Richard Eyre, hosts of a monthly segment on the "CBS Early Show," help parents accomplish this in The Book of Nurturing, presenting tools for developing family relationships and turning a house into a home. They have crafted nine powerful lessons based on stories and parables that can preserve family values and give children a sense of worth and self-esteem, based on: Commitment Praise, support, and positive affirmation Responsibility Awareness

Communication Discipline (tough love)

Consistency Security and identity Freedom and empowerment Parents will recognize the wisdom of the nine natural laws and will appreciate the workability of the ideas and application methods. Children will love the images of animals and nature and will feel included and responsive to their parents' initiatives. In a sense, this is a whole new genre of parenting book--written both for parents and for children, giving them a common language of symbols that they can share and use together to build their relationships and strengthen their family.

Democracy and Education - John Dewey 1916

In this book, Dewey tries to criticize and expand on the educational philosophies of Rousseau and Plato. Dewey's ideas were seldom adopted in America's public schools, although a number of his prescriptions have been continually advocated by those who have had to teach in them.

Chinese Aesthetics in a Global Context - Zhirong Zhu 2022

This book examines aesthetic issues based on humanities principles and creates a theory of Chinese aesthetics from a global perspective by applying China's traditional and cultural history to a Western theoretical framework. In particular, this book emphasizes the shared features of Confucianism, Daoism, and Buddhism, namely the unity of heaven and men, unity of nature and society, and the materialization of human feelings

and humanization of material things. It also highlights the dominant role of humans in the aesthetic relationship between human and object, while placing imagery in a focal position. .

*Nature's Thumbprint* - Peter B. Neubauer 1996

Examining the interactive roles of nature and nurture in psychological and physical development, Neubauer and Neubauer show how each person is greater than the sum of his or her parts. They discuss how temperament, tastes and skills unfold throughout life and the need for this to remain unimpeded.

**Fathering the Nations** - Paul L. Graves 2004-03

**Genes and Behaviour** - David J. Hosken

2019-04-15

Provides a broad snapshot of recent findings showing how the environment and genes influence behavior The great debate of nature versus nurture rages on – but our understanding of the genetic basis of many behaviors has expanded over the last decade, and there is now very good evidence showing that seemingly complex behaviours can have relatively simple genetic underpinnings, but also that most behaviours have very complicated genetic and environmental architecture. Studies have also

clearly shown that behaviors, and other traits, are influenced not just by genes and the environment, but also by the statistical interaction between the two. This book aims to end the nature versus nurture argument by showing that behaviors are nature and nurture and the interaction between the two, and by illustrating how single genes can explain some of the variation in behaviors even when they are seemingly complex. *Genes and Behaviour: Beyond Nature-Nurture* puts to rest the nature versus nurture dichotomy, providing an up-to-date synopsis of where we are, how far we've come and where we are headed. It

considers the effects of a dual-inheritance of genes and culture, and genes and social environment, and highlights how indirect genetic effects can affect the evolution of behavior. It also examines the effect of non-self genes on the behavior of hosts, shines a light on the nature and nurturing of animal minds and invites us to embrace all the complexity nature and nurture generates, and more. Explores exciting new findings about behavior and where we go from here Features contributions by top scholars of the subject Seeks to end the nature versus nurture debate forever *Genes and Behaviour: Beyond*

Nature-Nurture is a unique, and eye-opening read that will appeal to Ph.D. Students, post-doctoral fellows, and researchers in evolution and behavior. Additionally, the book will also be of interest to geneticists, sociologists and philosophers.

*Introduction to Gender* - Jennifer Marchbank

2014-06-30

Thoroughly updated in this second edition, *Introduction to Gender* offers an interdisciplinary approach to the main themes and debates in gender studies. This comprehensive and contemporary text explores the idea of gender

from the perspectives of history, sociology, social policy, anthropology, psychology, politics, pedagogy and geography and considers issues such as health and illness, work, family, crime and violence, and culture and media. Throughout the text, studies on masculinity are highlighted alongside essential feminist work, producing an integrated investigation of the field. Key features: A thematic structure provides a clear exploration of each debate without losing sight of the interconnections between disciplines. World in focus boxes and international case studies offer a broad global perspective on gender studies. In-

text features and student exercises, including Controversy, A critical look and Stop and think boxes, allow the reader to engage in the debates and revise the material covered. Hotlinks throughout the text make connections between chapters, allowing the reader to follow the path of particular issues and debates between topics and disciplines. New to the second edition: A new chapter explores gender through the discipline of philosophy. A new section on international relations brings this relevant topic into focus. Current discussion on the language of gender across Europe is brought in to Chapter 1. A focus

on Europe and Scandinavia as well as the UK gives the text a broader scope. Examples are updated throughout to ensure the text is cutting-edge and relevant. Introduction to Gender, second edition is highly relevant to today's students across the social sciences and is an essential introduction for students of sociology, women's studies and men's studies.

**Ecocritical Explorations in Literary and Cultural Studies** - Patrick D. Murphy 2009-07-15

In *Ecocritical Explorations*, Patrick D. Murphy explores environmental literature and

environmental cultural issues through both theoretical and applied criticism. He engages with the concepts of referentiality, simplicity, the nation state, and virtual reality in the first section of the book, and then goes on to interrogate these issues in contemporary environmental literature, both American and international. He concludes his argument with a discussion of the larger frames of family dynamics and un-natural disasters, such as hurricanes and global warming, ending with a chapter on the integration of scholarship and pedagogy in the classroom, with reference to his own teaching experiences.

Murphy's study provides a wide ranging discussion of contemporary literature and cultural phenomena through the lens of ecological literary criticism, giving attention to both theoretical issues and applied critiques. In particular, he looks at popular literary genres, such as mystery

and science fiction, as well as actual disasters and disaster scenarios. *Ecocritical Explorations in Literary and Cultural Studies* is a timely contribution to ecological literary criticism and an insightful look into how we represent our relationship with the environment.
