

The Complete Encyclopedia Of Signs Symbols Identification And Analysis Of The Visual Vocabulary That Formulates Our Thoughts And Dictates Our Reactions To The World Around Us

As recognized, adventure as skillfully as experience nearly lesson, amusement, as without difficulty as conformity can be gotten by just checking out a book **The Complete Encyclopedia Of Signs Symbols Identification And Analysis Of The Visual Vocabulary That Formulates Our Thoughts And Dictates Our Reactions To The World Around Us** in addition to it is not directly done, you could take even more in relation to this life, roughly the world.

We have enough money you this proper as well as simple showing off to get those all. We provide **The Complete Encyclopedia Of Signs Symbols Identification And Analysis Of The Visual Vocabulary That Formulates Our Thoughts And Dictates Our Reactions To The World Around Us** and numerous ebook collections from fictions to scientific research in any way. in the middle of them is this **The Complete Encyclopedia Of Signs Symbols Identification And Analysis Of The Visual Vocabulary That Formulates Our Thoughts And Dictates Our Reactions To The World Around Us** that can be your partner.

Shape Understanding System – Knowledge Implementation and Learning - Zbigniew Les
2012-07-27
This book presents the selected results of research on the further development of the shape understanding system (SUS) described in our previous book titled “Shape Understanding System: the First Steps Toward the Visual Thinking Machines”. This is the second book that presents the results of research in the area of

thinking and understanding carried out by authors in the newly founded the Queen Jadwiga Research Institute of Understanding. In this book, the new term knowledge implementation is introduced to denote the new method of the meaningful learning in the context of machine understanding. SUS ability to understand is related to the different categories of objects such as the category of visual objects, the category of sensory objects and the category of text objects.

In this book, new terms and concepts are introduced in order to describe and explain some issues connected with SUS development. These terms are explained by referring to the content of our books and other our works rather than to existing literature in related areas of research. This book raises many questions that are discussed in the area of cognitive science or philosophy of mind.

Encyclopedia of Police Science - Jack Raymond Greene 2006-10-23

In 1996, Garland published the second edition of the Encyclopedia of Police Science, edited by the late William G. Bailey. The work covered all the major sectors of policing in the US. Since then much research has been done on policing issues, and there have been significant changes in techniques and in the American police system. Technological advances have refined and generated methods of investigation. Political events, such as the terrorist attacks of September 11, 2001 in the United States, have created new policing needs while affecting public opinion about law enforcement. These developments appear in the third, expanded edition of the Encyclopedia of Police Science. 380 entries examine the theoretical and practical aspects of law enforcement, discussing past and present practices. The added coverage makes the Encyclopedia more comprehensive with a greater focus on today's policing issues. Also added are

themes such as accountability, the culture of police, and the legal framework that affects police decision. New topics discuss recent issues, such as Internet and crime, international terrorism, airport safety, or racial profiling. Entries are contributed by scholars as well as experts working in police departments, crime labs, and various fields of policing.

Spiritual Concepts for a New Age - Connie Johnson 2012-04-13

We are spiritual beings living in a human experience. Our souls are energy, but each time we incarnate we take on a human body. We have relationships with other embodied beings; we must concern ourselves with the issues, situations, and circumstances of life here on Earth. *Spiritual Concepts for a New Age* is an easy-to-read, comprehensive guide to living a spiritually significant life. With the assistance of our spiritual guardians, we can learn to live lives that are in balance with our souls desire for harmony and peace. We can unlock our personal truths and begin to experience psychic serenity. How do the laws of abundance and attraction interact with the laws of reincarnation and karma? What role do spiritual guardians play? Learn how universal law operates in our daily lives and in our relationships with others. Explore soul ages and stages. Discover the Akashic Record and learn how our past lives influence our current existence. Learn the difference between

meditation and channeling. Determine how messages, signs, and information can be obtained. Use the easy reference guides for sign interpretation. Determine your own metaphysical blueprint and those of friends and family. Connie Johnson has had a lifetime career as a social worker. She earned her social welfare degree at the University of Minnesota during a time when community activism and personal empowerment were emphasized. She has had extensive experience working with those who are mentally, emotionally, and behaviorally challenged. Connie has a co-history in metaphysics. When she was in Washington DC to attend a gender equality conference, she was introduced to spiritual concepts that embraced philosophies outside of the conventional Judeo-Christian expressions. Within the Judeo-Christian tradition, less customary or accepted perceptions of God and the Universe were examined, as well. Connie has had a lifetime interest in human behavior, in the metaphysical world, and in the interaction between spirituality, and feelings, thoughts, and actions. She has a special interest in reincarnation, soul ages, karma, and past life issues. She is a numerologist, a reader of the tarot, and a practicing psychic. Connie lives in St Paul, Minnesota, where she is happily surrounded by family and friends.

The Focal Encyclopedia of Photography - Michael R. Peres 2013-05-29

*Searchable CD ROM containing the entire book (including images) *Over 450 color images, plus never before published images provided by the George Eastman House collection, as well as images from Ansel Adams, Howard Schatz, and Jerry Uelsmann to name just a few The role and value of the picture cannot be matched for accuracy or impact. This comprehensive treatise, featuring the history and historical processes of photography, contemporary applications, and the new and evolving digital technologies, will provide the most accurate technical synopsis of the current, as well as early worlds of photography ever compiled. This Encyclopedia, produced by a team of world renown practicing experts, shares in highly detailed descriptions, the core concepts and facts relative to anything photographic. This Fourth edition of the Focal Encyclopedia serves as the definitive reference for students and practitioners of photography worldwide, expanding on the award winning 3rd edition. In addition to Michael Peres (Editor in Chief), the editors are: Franziska Frey (Digital Photography), J. Tomas Lopez (Contemporary Issues), David Malin (Photography in Science), Mark Osterman (Process Historian), Grant Romer (History and the Evolution of Photography), Nancy M. Stuart (Major Themes and Photographers of the 20th Century), and Scott Williams (Photographic Materials and Process Essentials)

Commodifying Cannabis - Bradley J. Borougerdi

2018-11-19

This study examines the cultural history of cannabis and its various uses in the Atlantic world over the past two centuries. The author analyzes the Orientalist mindset that colored Western reception of the plant in the nineteenth century and the cultural associations that informed public perception and policy in the twentieth century.

The Element Encyclopedia of Vampires - Theresa Cheung 2013-07-25

An A to Z of the Undead

The Illustrated Encyclopedia of Signs & Symbols - Mark O'Connell 2005

Contains definitions and interpretations of over 1,600 signs and symbols and discusses the cross-cultural, sociological, and psychological uses, meaning, and development of signs and symbols as a whole.

Exploring Our Dimensional Being - Frederick R. Kipp 2017-02-23

Throughout our lives, most of us have been conditioned to view the essence of our human being and the greater realm of creation itself as somehow mysterious and unknowable. In many ways, it seems as if we have relegated our lives to dense matter as the central focus of our identity. Exploring the possible inner or metaphysical realities can provide an orientation and detail necessary for greater understanding of ourselves and the dimensional spheres of life that connect us. My life's work has included studying

the underlying structures that support all physical manifestation as well as the beings that live within and work to sustain them. I believe that all inner and outer life forms and entities are dimensionally connected. We are continuously interacting with them unconsciously through various levels of our being, the collective consciousness of humanity, our planet, and the celestial bodies in the universe. My experience has been that the lack of awareness of our own greater being is what hinders our ability to comprehend the universe multidimensionally. In my view, before entering our present dense physical forms as humans, we have progressed through many developmental cycles, as did our Earth, solar system, and universe. This book documents what I have learned about the universal creative process and dimensional human evolution from our source beginnings to the present. I have tried to integrate the various accounts of the scientific, mythological, religious, and metaphysical versions of cosmology, cosmogenesis, and cosmogony. Exploring the inner realms of possible connections between humanity, Earth, and the cosmos has been a complex undertaking and journey into uncharted territory. My research, life experiences, and clairvoyant perspectives regarding the dimensionality of all life are the basis for the writing of this book.

[The Element Encyclopedia of Secret Signs and Symbols: The Ultimate A-Z Guide from Alchemy](#)

[to the Zodiac](#) - Adele Nozedar 2010-01-21

Unlock the lost and hidden meanings of the world's ancient and modern signs and symbols with the latest in the hugely popular series of 'Element Encyclopedias'. This is the biggest A-Z reference book on symbolic objects you'll ever find.

Encyclopedia of Library and Information Sciences
- John D. McDonald 2017-03-15

The Encyclopedia of Library and Information Sciences, comprising of seven volumes, now in its fourth edition, compiles the contributions of major researchers and practitioners and explores the cultural institutions of more than 30 countries. This major reference presents over 550 entries extensively reviewed for accuracy in seven print volumes or online. The new fourth edition, which includes 55 new entries and 60 revised entries, continues to reflect the growing convergence among the disciplines that influence information and the cultural record, with coverage of the latest topics as well as classic articles of historical and theoretical importance.

[Signs & Symbols of the World](#) - D.R. McElroy
2020-04-21

This informative and engaging illustrated reference provides the stories behind 1,001 signs and symbols, from ancient hieroglyphs to modern-day political and subculture symbols. What in the world does ☐ mean? And what about its meaning might have led my coffee date to tattoo it on his

entire forearm? Where did the symbol ☐ originate, and what was its first meaning? How did the ampersand symbol & come about and how was it applied daily in book publishing? And what is the full story behind that staring eye on top of the pyramid on our American dollar bill? This comprehensive guide to signs and symbols explains. Find within: More than 1,000 illustrations An extensive collection of written and cultural symbols, including animals, instruments, stones, shapes, numbers, colors, plants, food, parts of the body, religious and astrological symbols, emojis, and gestures Historical facts culled from a wide variety of sources Learn all about the signs and symbols that surround us and their part in our rich world history.

The Illustrated Signs and Symbols Sourcebook - Adele Nozedar 2016-01-14

Unlock the lost and hidden meanings of the world's ancient and modern signs and symbols. This is the most comprehensive reference book on symbolic objects that you'll ever find.

Encyclopedia of Identity - Ronald L. Jackson II
2010-06-29

Alphabetically arranged entries offer a comprehensive overview of the definitions, politics, manifestations, concepts, and ideas related to identity.

The Complete Illustrated Encyclopedia of Symbols, Signs and Dream Interpretation - Mark O'Connell 2007

Mind, body, spirit.

The Complete Illustrated Encyclopedia of Symbols, Signs & Dream Interpretation - Mark O'Connell 2007

Every symbol carries an elemental power that transcends boundaries and holds significance for many cultures. This beautiful, comprehensive book describes, discusses and illustrates thousands of these fascinating visual elements and assesses their relevance in language, art, literature, mythology, magic, religion and psychology. It also makes us more aware of the way signs and symbols are a subconscious language that we are at times unaware of when used by advertising and art, or even in our own doodlings or body language. The same fluidity that can be found in the interpretation of signs and symbols can also be seen in the interpretation of dreams. Each dream has a particular significance for the dreamer, and similar content will have a totally different meaning depending on who is dreaming the dream. In the second part of this book, how we dream and how we interpret dreams is analyzed as a way of accessing our subconscious fears, desires and preoccupations. This unparalleled volume gives a wealth of information and cultural background to the primal metaphors that are part of humanity's universal, but ultimately personal, language, and begins a voyage of discovery into the importance of symbolism and dreams. Lavishly illustrated with

over 2000 specially commissioned illustrations, fine art paintings and evocative photography, this book contains a vast visual resource of inspirational imagery as well as erudite and informative text. Book jacket.

Symbols, Signs and Signets - Ernst Lehner 2012-09-26

1,355 signs, seals, symbols: Babylonia, Egypt, Greece, Rome, Germanic, Byzantine, Renaissance, Aztec, Hindu, Islamic, Chinese, Japanese, others. Astrological, alchemical, magical, early Christian, masonic, heraldic, crests, goldsmiths' marks, watermarks.

Encyclopedia of Applied Psychology - 2004-09-21

The Encyclopedia of Applied Psychology encompasses applications of psychological knowledge and procedures in all areas of psychology. This compendium is a major source of information for professional practitioners, researchers in psychology, and for anyone interested in applied psychology. The topics included are, but are not limited to, aging (geropsychology), assessment, clinical, cognitive, community, counseling, educational, environmental, family, industrial/organizational, health, school, sports, and transportation psychology. The entries drawn from the above-referenced areas provide a clear definition of topic, a brief review of theoretical basis relevant to the topic, and emphasize major areas of application. Also available online via

ScienceDirect – featuring extensive browsing, searching, and internal cross-referencing between articles in the work, plus dynamic linking to journal articles and abstract databases, making navigation flexible and easy. For more information, pricing options and availability visit www.info.sciencedirect.com.

The Encyclopedia of Signs and Symbols - John Laing 1993

"From cave paintings in Africa, Asia and Oceania, to the emergence of sophisticated graphic styles in Europe at the turn of the century, these images stimulate curiosity and wonder at the enormous breadth of human creativity."--BOOK JACKET.

Gangland: An Encyclopedia of Gang Life from Cradle to Grave [2 volumes] - Laura L. Finley 2018-10-31

This two-volume set integrates informative encyclopedia entries and essential primary documents to provide an illuminating overview of trends in gang membership and activity in America in the 21st century. • Comprises approximately 200 encyclopedia entries on gangs in the United States • Illustrates entries through 16 primary documents • Provides a chronology to help readers to contextualize developments related to gang activity • Includes a Guide to Related Topics to facilitate tangential discovery • Defines terms essential to understanding the subject matter of the text in a glossary

The Ultimate Illustrated Guide to Dreams, Signs

and Symbols - Mark O'Connell 2013-08-12

Identification and analysis of the visual vocabulary and secret language that shapes our thoughts and dreams and dictates our reactions to the world.

Thought Signs - Carl G. Liungman 1995

The book is the first comprehensive encyclopedia of Western ideograms ever published, unique in its search systems, that allows the reader to locate a symbol by defining just four of its visual characteristics. It is about our graphic cultural heritage as expressed in subway graffiti, fighter jets' signs and emergency exit symbols. It contains 2,300 symbols, 1,600 articles and streamlined reference functions. Ideogram scarved in mammoth teeth by Cro-Magnon men 25,000 years ago, put on modern household appliances by their manufacturers or sprayed on walls by political activists, are all presented in dictionary form for easy reference. Symbols cover current designs used in advertising, logotyping, architecture, design, decoration, religion, politics and astrology.

Symbols - Carl G. Liungman 2004

Contains more than 2,500 Western signs, arranged into 54 groups according to their graphic characteristics. In 1,600 articles their histories, uses, and meanings are thoroughly discussed. The signs range from ideograms carved in mammoth teeth by Cro-Magnon men, to hobo signs and subway graffiti.

International Encyclopedia of Information and Library Science - John Feather 2003-09-02

The International Encyclopedia of Information and Library Science was published to widespread acclaim in 1996, and has become the major reference work in the field. This eagerly awaited new edition has been fully revised and updated to take full account of the many and radical changes which have taken place since the Encyclopedia was originally conceived. With nearly 600 entries, written by a global team of over 150 contributors, the subject matter ranges from mobile library services provided by camel and donkey transport to search engines, portals and the World Wide Web. The new edition retains the successful structure of the first with an alphabetical organization providing the basic framework of a coherent collection of connected entries. Conceptual entries explore and explicate all the major issues, theories and activities in information and library science, such as the economics of information and information management. A wholly new entry on information systems, and enhanced entries on the information professions and the information society, are key features of this new edition. Topical entries deal with more specific subjects, such as collections management and information services for ethnic minorities. New or completely revised entries include a group of entries on information law, and a collection of entries on the Internet and the

World Wide Web.

Signs & Symbols - Clare Gibson 2001

This wide-ranging compendium traces symbolism to its ancient roots, examining a vast variety of symbolic images.

Signs and Symbols - Adrian Frutiger 1998

Discusses the elements of a sign, and looks at pictograms, alphabets, calligraphy, monograms, text type, numerical signs, symbols, and trademarks.

The Shekhinah Is Coming - Valjean Tchakirides 2011-02-02

The Shekhinah is Coming offers a comprehensive, detailed, and mind-expanding study of ancient wisdom that includes sacred text to illuminate these teachings and breaks down some of the religious boundaries that continue to separate mankind. It offers an opportunity to expand the thought process by blending the enshrouded mysteries of ancient wisdom with history, science, sacred geometry, myths, and legends. Author Valjean Tchakirides demonstrates that the three major religions are more alike than different, illustrating their shared beginnings. We are all connected to God, as is revealed in the ancient texts of the Bible and the Quran. The life of Jesus is described as set in the constellations to be forever constant and seen without any religious oversight. It makes clear that the old laws no longer exist and only two laws remain to be followed. Those two laws are about

one thing and only one thing LOVE. The Shekhinah is Coming presents a circular study of the Divine plan that ends where it begins "in light". It also offers an explanation of the recent NASA discoveries and how they relate to 2012 and Jerusalem. Visually appealing, this text includes pictures that provide a visual aid to an understanding that will lead the seeker to empowerment and enlightenment.

The Illustrated Encyclopedia of Signs & Symbols - Mark O'Connell 2006

The Ancient Magick of Trees - Gregory Michael Brewer 2019-10-08

A Comprehensive Field Guide to Over 100 Trees and Their Magickal and Medicinal Uses This unique illustrated resource helps you identify more than one hundred common trees across North America and Europe and discover their medicinal and magickal properties. Gregory Michael Brewer provides detailed information about the mythology and symbolism of trees from around the world along with an abundance of exercises and meditations suitable for Pagans of all skill levels and traditions. Featuring over two hundred illustrations, this book is the only one you'll need while studying trees. Whether you're seeking the scientific characteristics of a particular species or the folk traditions and remedies associated with it, this is a must-have guide for those who want to enhance their

magickal practice and their understanding of our relationship with trees.

The Complete Encyclopedia of Signs & Symbols - Mark O'Connell 2018-01-02

A guide to hundreds of symbols, signs and ideographs and their meanings, with 1200 images.

The Encyclopedia of Police Science - Jack R. Greene 2007

First published in 1996, this work covers all the major sectors of policing in the United States. Political events such as the terrorist attacks of September 11, 2001, have created new policing needs while affecting public opinion about law enforcement. This third edition of the "Encyclopedia" examines the theoretical and practical aspects of law enforcement, discussing past and present practices.

Encyclopedia of Educational Psychology - Neil J. Salkind 2008-01-17

The field of educational psychology draws from a variety of diverse disciplines including human development across the life span, measurement and statistics, learning and motivation, and teaching. And within these different disciplines, many other fields are featured including psychology, anthropology, education, sociology, public health, school psychology, counseling, history, and philosophy. In fact, when taught at the college or university level, educational psychology is an ambitious course that

undertakes the presentation of many different topics all tied together by the theme of how the individual can best function in an "educational" setting, loosely defined as anything from pre-school through adult education. Educational psychology can be defined as the application of what we know about learning and motivation, development, and measurement and statistics to educational settings (both school- and community-based).

Signs for Peace - Ruedi Baur 2013

Can one visualize peace? Are there signs, symbols, and images that present a positive image of peace as opposed to receiving their meanings in opposition to war? Over several years of research, the Design2context Institute has intensively examined the representation and representability of peace and has compiled a comprehensive collection of images. In order to include a number of historical, cultural, and political perspectives, the archival aspect is supplemented by workshops in crisis regions. The encyclopedia--which, as new sociopolitical situations continue to arise and call for new pictures, must inevitably remain incomplete--provides a broad overview of the iconography of peace, and is also intended to assist in gaining an understanding of the concept. This book represents a significant contribution to future discussions on the need and desire for peace in political and social life.

Encyclopedia of Engineering Signs and Symbols - David D. Polon 1965

Complete Encyclopedia of Signs and Symbols - Mark O'Connell 2006

An interpretation of the unconscious codes and secret languages that shape our most ancient emotions are illustrated in over 1600 visual symbols, including photographs, fine art paintings and line illustrations, with authoritative in-depth commentary definitions and explanations.

The Illustrated Encyclopedia of Signs, Symbols and Dream Interpretation - Mark O'Connell
2022-02-07

The visual vocabulary and secret language that shape our thoughts and dreams and dictate our reactions to the world, with more than 2200 vivid images Many symbols carry an elemental power that transcends boundaries and holds significance for other cultures. This comprehensive and beautiful book discusses and illustrates thousands of these symbols and assesses their position in language, art, literature, mythology, magic, religion and psychology. In the second half of the book, how we dream and how we interpret dreams is analysed as a way of accessing our subconscious fears, desires and preoccupations. The erudite text provides a wealth of cultural background to primal metaphors that are part of mankind's universal language. The book is both a journey of discovery into the importance of

symbolism and dreaming and a vast visual resource of signs and symbols.

The International Encyclopedia of Political Communication, 3 Volume Set - Gianpietro Mazzoleni 2015-12-14

The International Encyclopedia of Political Communication is the definitive single-source reference work on the subject, with state-of-the-art and in-depth scholarly reflection on the key issues within political communication from leading international experts. It is available both online and in print. Explores pertinent/salient topics within political science, sociology, psychology, communication and many other disciplines Theory, empirical research and academic as well as professional debate are widely covered in this truly international and comparative work Provides clear definitions and explanations which are both cross-national and cross-disciplinary by nature Offers an unprecedented level of authority, accuracy and balance, with contributions from leading international experts in their associated fields Part of The Wiley Blackwell-ICA International Encyclopedias of Communication series, published in conjunction with the International Communication Association. Online version available at Wiley Online Library Named Outstanding Academic Title of 2016 by Choice Magazine, a publication of the American Library Association

Symbols, Signs and Visual Codes - Mark

O'Connell 2014-01-07

Signs and symbols are integral to the world in which we live: from letters and words on a page to constellations in the night sky; from the figures in our dreams to the uniformed authority figures keeping order in the streets. This fascinating book examines the use of symbols across all the different ranges and aspects of human experience - from the mundane to the sacred, from the temporal to the eternal. Written by leading authorities in the fields of psychology and psychotherapy, and lavishly illustrated with beautiful fine art paintings that are rich in allegorical symbolism, and contemporary photographs showing the way signs are used today, the book contains a wealth of visual and textual information that will inform anyone interested in the timeless value of these iconic symbols.

Encyclopedia of Gangs - Louis Kontos 2008

Provides an overview of the gang phenomenon both historical and contemporary.

The Illustrated Encyclopedia of Symbols, Signs & Dream Interpretation - Mark O'Connell (Psychologist) 2009

HIEROGLYPHS OF THE PHAISTOS DISC: history and full text translation. - Vitaly Surnin 2013-12-28

This book is the preliminary part of a great work titled «THE BOOK OF THE EGYPTIAN: The

beginning of the basic Egyptology or a key to the understanding of history, philosophy and world religion». Usually, the introduction is made in the form of a brief preface or foreword, but I got a whole book as the first step in a multi-volume publication of the study. The purpose of this specific introduction as the beginning of serious research – is right at the level of the opening to inspire a reader, showing him in a clear visual and comprehensible form, the whole true mechanism of the hieroglyphic writing. To achieve this, I will completely dispel the myth created by the modern science that hieroglyphs do not convey any meaning (of words, the whole idea), but only individual sounds (letters), or their combination (syllables). This scientific myth will be finally deprived of the status of scientific knowledge, and the translation of the Phaistos disc, on the contrary, will be clearly shown, what is called «broken apart», and will be read in the ancient hieroglyphic language united by the principle of construction – in the language of the ancient Egyptians. I can say that it will not be two simultaneously existing systems of hieroglyphs translation, as well as two Egyptologies, one will be false, and the other – true! To prove the validity of the system of translation I wanted to give you immediately not only a complete translation of the text of the Phaistos disc, where the number of occurrences of each hieroglyph is not big (1 to 19 times), but the translation of the

whole ancient Egyptian writing, because the number of times it is used in there is thousands, if not even millions. And each such use of each hieroglyph is translating in the same way, so it creates the full reading of the hieroglyphic texts – writing, which will be easily read by everyone with the dictionary of hieroglyphs in the future. The main reason why I wanted to do it – is because, at first, I read the ancient Egyptian texts and only then, by chance, came across with the hieroglyphs of the Phaistos disc. But then, I decided to set a different aim – to teach the reader to think, and not just to read hieroglyphs. Since we have no ancient Egyptian temple, and you're not its novice, the method of achieving the aims will be different than in the antiquity. First of all, I would suggest not a translation of ancient Egyptian hieroglyphs, but a complete translation of the Phaistos disc, and at the same time to give them a sort of test of common sense to modern science in the face of particular academies and universities of the world. Let them answer me the question, not knowing the translations of ancient Egyptian texts, – whether they think this translation of the Phaistos disc is correct? So when I completely publish «The Book of Egyptian», it will become clear who they are and where do they lead all of you. As they always test the students, it's a time to test them as well. Will they pass the test, I do not know, but any way, you, my reader, will get to know about it, (in the

main manuscript) and will be able to draw your own conclusions about their intellectual level. Therefore, I recommend you to take this message of the book, at least with the attention, because not every day the science gets a ready revelation, designed in the form of scientific study. And here

the attention and common sense will help the reader to re-look the original, pure, uncomplicated meaning of the Hieroglyphs, which through the veil of delusion will finally begin to appear in their true, original and vibrant colors – and finally, get from the nether world – into the realm of the living!
