Thinking Differently - David Flink 2014-08-26

An innovative, comprehensive guide—the first of its kind—to help parents understand and accept learning disabilities in their children, offering tips and strategies for successfully advocating on their behalf and helping them become their own best advocates. In *Thinking Differently*, David Flink, the leader of Eye to Eye—a national mentoring program for students with learning and attention issues—enlarges our understanding of the learning process and offers powerful, innovative strategies for parenting, teaching, and supporting the 20 percent of students with learning disabilities. An outstanding fighter who has helped thousands of children adapt to their specific learning issues, Flink understands the needs and experiences of these children first hand. He, too, has dyslexia and ADHD. Focusing on how to arm students who think and learn differently with essential skills, including meta-cognition and self-advocacy, Flink offers real, hard advice, providing the tools to address specific problems they face—from building self-esteem and reconstructing the learning environment, to getting proper diagnoses and discovering their inner gifts. With his easy, hands-on “Step-by-Step Launchpad to Empowerment,” parents can take immediate steps to improve their children’s lives. *Thinking Differently* is a brilliant, compassionate work, packed with essential insights and real-world applications indispensable for parents, educators, and other professional involved with children with learning disabilities.

Handbook of Research on Reading Disabilities - Anne McGill-Franzen 2010-09-17

Bringing together a wide range of research on reading disabilities, this comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric perspective. Emphasizing that learning to read proficiently is a long-term developmental process involving many interventions of various kinds, all keyed to individual developmental needs, it addresses traditional questions (What is the nature or causes of reading disabilities? How are reading disabilities assessed? How should reading disabilities be remediated? To what extent is remediation possible?) but from multiple or alternative perspectives. Taking incursions into the broader research literature represented by linguistic and anthropological paradigms, as well as psychological and educational research, the volume is on the front line in exploring the relation of reading disability to learning and language, to poverty and prejudice, and to instruction and schooling. The editors and authors are distinguished scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities. Throughout, their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers.

Revealing Minds - Craig Pohlman 2007-08-24

Revealing Minds is a practical, hands-on guide to assessing learning problems, based on the approach of *All Kinds of Minds*, the groundbreaking nonprofit institute co-founded by Mel Levine. Whereas most assessments of struggling learners focus on what is "broken" within a student and needs to be fixed, *All Kinds of Minds* has adopted a more positive and comprehensive approach to the process. Rather than labeling children or categorizing them into certain pre-defined groups, their optimistic and helpful path creates a complete picture (or "profile") of each student, outlining the child's assets along with any weaknesses, and identifying specific breakdown points that lead to problems at school. The process of assessment should be able to answer a question such as, "Why is my son struggling with reading?" with a better answer than, "Because he has a reading disability." *Revealing Minds* shows how to discover hidden factors—such as language functioning, memory ability, or attention control—that are impeding a student's learning. It goes beyond labels and categories to help readers understand what's really going on with their students and create useful learning plans. Providing scores of real-life examples, definitions of key terms, helpful diagrams, tables, and sample assessments, Pohlman offers a useful roadmap for educators, psychologists, and other professionals to implement the *All Kinds of Minds* approach in their own assessments.

The Wiley International Handbook of Service-Learning for Social Justice - Darren E. Lund 2018-10-30

A comprehensive guide to service-learning for social justice written by an international panel of experts *The Wiley International Handbook of Service-Learning for Social Justice* offers a review of recent trends in social justice that have been, until recently, marginalized in the field of service-learning. The authors offer a guide for establishing and nurturing social justice in a variety of service-learning programs, and show that incorporating the principles of social justice in service-learning can empower communities to resist and disrupt oppressive power structures, and work for solidarity with host and partner communities. With contributions from an international panel of experts, the *Handbook* contains a critique of the field's roots in charity; a review of the problematization of Whitenormativity, paired with the bolstering of diverse voices and perspectives; and information on the embrace of emotional elements including tension, ambiguity, and discomfort. This important resource: Considers the role of the community in service-learning and other community-engaged models of education and practice Explores the necessity of disruption and dissonance in service-learning contexts Offers a practical guide to establishing and nurturing social justice at the heart of an international service-learning program Written for advanced undergraduate students, graduate students, scholars, and educators, *The Wiley International Handbook of Service-Learning for Social Justice* highlights social justice as a conflict-ridden struggle against inequality, xenophobia, and oppression, and offers practical suggestions for incorporating service-learning programs in various arenas.

Inspiring Active Learning - Merrill Harmin 2006

How can we structure class time efficiently? How can we explain and lecture effectively? How can we help students master content? How can we make learning more real and lasting? In this revised and greatly expanded 2nd edition of *Inspiring Active Learning*, educators Merrill Harmin and Melanie Toth provide answers to our fundamental teaching questions and show us how to transform our classrooms into communities of active, responsible learners. The authors present an array of research-based, teacher-tested strategies for managing our everyday responsibilities--from beginning a class to grading homework, from instructing large groups to promoting diligent seatwork, from motivating slackers to handling disrupters. These strategies focus on mutual respect, not bossiness; collaboration, not isolation; commitment to learning, not fear of failure; and the dignity of all, not praise or rewards for a few. Regardless of our level of experience or the grade or subject we teach, the active-learning approach helps us* Perform routine teaching tasks more easily.* Discover a higher level of teaching success and personal satisfaction.* Establish a class climate of full participation and cooperation.* Prepare engaging lessons that keep students productively involved.* Encourage students to work energetically, willingly, and intelligently each day.* Inspire all students, even the most challenging, to strive for excellence. With its detailed classroom examples and more than 250 practical strategies, *Inspiring Active Learning* is a comprehensive reference for solving almost any teaching problem.
