Good Omens - Neil Gaiman 2011-06-28

The classic collaboration from the internationally bestselling authors Neil Gaiman and Terry Pratchett, soon to be an original series starring Michael Sheen and David Tennant. ?Season 2 of Good Omens coming soon! "Good Omens . . . is something like what would have happened if Thomas Pynchon, Tom Robbins and Don DeLillo had collaborated. Lots of literary inventiveness in the plotting and chunks of very good writing and characterization. It's a wow. It would make one hell of a movie. Or a heavenly one. Take your pick." —Washington Post According to The Nice and Accurate Prophecies of Agnes Nutter, Witch (the world's only completely accurate book of prophecies, written in 1655, before she exploded), the world will end on a Saturday. Next Saturday, in fact. Just before dinner. So the armies of Good and Evil are amassing, Atlantis is rising, frogs are falling, tempers are flaring. Everything appears to be going according to

Divine Plan. Except a somewhat fussy angel and a fast-living demon—both of whom have lived amongst Earth's mortals since The Beginning and have grown rather fond of the lifestyle—are not actually looking forward to the coming Rapture. And someone seems to have misplaced the Antichrist . . .

Happiest Baby - Heather Cramp 2019-12-16
You Are 1-Click Away From Learning A New And Revolutionary Way Of Helping Your Little Bundle Of Joy To Sleep Longer, Through The Night And Calm Excessive Crying Without Losing Your Mind! Whoever said children are a bundle of joy perhaps never had a colicky and ever crying new born that never goes for more than a few minutes without crying. Perhaps they didn't have a child who just never seems to spend more than 30 minutes to 1 hour sleeping. Having such a child can suck out any joy of parenting from even the most motivated of parents. And considering that children are just so demanding, it can feel like a helpless situation to be in, as the demands

just never stop. Sometimes you just want to take a break from it all and disappear, even if for a few minutes or hours, to re-energize, to reflect on your life, to just be alone and enjoy the moment. How do you even find the space and time to do that when you have the kind of children that no one ever wants to have - those that cry all the time, never sleep, are too clingy, seem always tired and irritated? How do you get your little one to calm down when he/she is highly irritable and be able to sleep longer without a fuss and without doing something that you feel guilty about? If you have these and other related questions, let me let you in on a secret: there is another way of getting your new born to sleep longer, to be less irritable and to stop crying excessively. And this book will show you exactly how to go about it. A report in *Questia* demonstrated that young babies cry approximately 1 1/2 to 2 hours a day, and that improving their sleep can help reduce their crying. And another study published in 2017 in

"Brain & Language" showed that infants were better at remembering new words if they slept right after hearing them, which suggests that sleep improves language encoding and retention. You see, raising a happy baby doesn't have to be difficult. In fact, it's easier than you think. Here is just a tiny fraction of what you'll discover: How to ensure that your new born baby gets enough sleep How to enforce good sleeping habits into your child What experts say about sleep and a baby's happiness The relationship between sleep and your baby's happiness How to soothe your baby when it is feeling restless Why taking care of your child's hygiene is important, including practical tips Whether breastfeeding or bottle-feeding is better for a healthier, happier child How nutrition affects your baby, and which foods you ought to feed it before going to sleep Why children cry when going to school and what you can do about it Powerful tips to help your baby overcome external factors that could be affecting their sleep And much, much more! Take a second

to imagine how you'll feel once your baby grows into a healthy, happy child, and how your family and friends will react when they see the bubbly little person they've come into. So even if you're frustrated with your baby's constant crying without any apparent cause, you can achieve happiness with Happiest Baby. Indeed, your seemingly complicated problem may have a very simple solution! And everything is laid out in easy to follow, beginner friendly style to help you start applying the information contained in the book without needing any external assistance! Don't wait any further! Cribsheet - Emily Oster 2020-04-21

From the author of Expecting Better and The Family Firm, an economist's guide to the early years of parenting. "Both refreshing and useful. With so many parenting theories driving us all a bit batty, this is the type of book that we need to help calm things down." —LA Times "The book is jampacked with information, but it's also a delightful read because Oster is such a good writer." —NPR With Expecting Better, award-winning economist Emily Oster spotted a need in the pregnancy market for advice that gave women the information they needed to make the

best decision for their own pregnancies. By digging into the data, Oster found that much of the conventional pregnancy wisdom was wrong. In *Cribsheet*, she now tackles an even greater challenge: decision-making in the early years of parenting. As any new parent knows, there is an abundance of often-conflicting advice hurled at you from doctors, family, friends, and strangers on the internet. From the earliest days, parents get the message that they must make certain choices around feeding, sleep, and schedule or all will be lost. There's a rule—or three—for everything. But the benefits of these choices can be overstated, and the trade-offs can be profound. How do you make your own best decision? Armed with the data, Oster finds that the conventional wisdom doesn't always hold up. She debunks myths around breastfeeding (not a panacea), sleep training (not so bad!), potty training (wait until they're ready or possibly bribe with M&Ms), language acquisition (early talkers aren't necessarily geniuses), and many other

topics. She also shows parents how to think through freighted questions like if and how to go back to work, how to think about toddler discipline, and how to have a relationship and parent at the same time. Economics is the science of decision-making, and *Cribsheet* is a thinking parent's guide to the chaos and frequent misinformation of the early years. Emily Oster is a trained expert—and mom of two—who can empower us to make better, less fraught decisions—and stay sane in the years before preschool.

How Babies Sleep - Sofia Axelrod 2020-08-11
Discover the best baby sleep method—gentle, science-backed, and inspired by the latest Nobel Prize-winning research—that shows you how to get your baby to sleep through the night naturally. Sleep—or the lack of it—is one of the most crucial issues for new parents. Newborn babies typically wake every two to three hours, and there's nothing bleary-eyed, exhausted parents want more than a night of uninterrupted

sleep. But while there's plenty of advice out there, there is nothing that's based on the latest cutting-edge research about sleep—until now. In *How Babies Sleep*, Sofia Axelrod, PhD—neuroscientist, sleep consultant, and mother of two—introduces the first baby sleep method that is truly rooted in the science of sleep. After having her first child, Axelrod realized that the typical baby sleep advice conflicted with the actual science of sleep, including the findings from her mentor's Nobel Prize-winning sleep lab. She developed her transformative method based on the latest discoveries about our body's circadian clock and how it is disturbed by light and other external stimuli. After seeing incredible results with her own babies, she has since counseled countless families in her groundbreaking method—which works with babies' needs and helps little ones learn to self-soothe, fall asleep more easily, and stay asleep through the night. You'll discover helpful tips that work, and learn: why using a red

lightbulb (instead of a regular one) in the nursery at night can minimize wakings; why the age-old advice "don't wake a sleeping baby" isn't true; how to create a healthy routine; how to sleep train gently with minimal crying (under two minutes); and so much more in this revolutionary and effective book that will help both you and your baby enjoy a peaceful night's sleep.

The No-Cry Sleep Solution Enhanced Ebook - Elizabeth Pantley 2013-08-02

Elizabeth Pantley's breakthrough approach for a good night's sleep with no tears, enhanced with videos of the author answering parents' most asked questions! This enhanced eBook includes 14 exclusive videos by the author "At long last, I've found a book that I can hand to weary parents with the confidence that they can learn to help their baby sleep through the night--without the baby crying it out." --William Sears, M.D., Author of *The Baby Book* "When I followed the steps in this book, it only took a few nights to see a HUGE improvement. Now every night I'm

getting more sleep than I've gotten in years! The best part is, there has been NO crying!" --Becky, mother of 13-month-old Melissa There are two schools of thought for encouraging babies to sleep through the night: the hotly debated Ferber technique of letting the baby "cry it out," or the grin-and-bear-it solution of getting up from dusk to dawn as often as necessary. If you don't believe in letting your baby cry it out, but desperately want to sleep, there is now a third option, presented in Elizabeth Pantley's sanity-saving book *The No-Cry Sleep Solution*. Elizabeth's successful solution has been tested and proven effective by scores of mothers and their babies from across the United States, Canada, and Europe. And now in response to weary parents asking for a little more guidance, Elizabeth has created fourteen brand-new videos exclusive to this enhanced ebook. Each of these three- to four-minute videos appears at the end of their specific chapter, summarizing what you have learned for quick recall or for those

desperate moments when you've run out of ideas and need advice ASAP! Elizabeth gives you words of wisdom, tricks and tips, and soothing mantras, all that will help you get your baby sleeping. Tips from *The No-Cry Sleep Solution: Uncover the stumbling blocks that prevent baby from sleeping through the night* Determine--and work with--baby's biological sleep rhythms Create a customized, step-by-step plan to get baby to sleep through the night Use the Persistent Gentle Removal System to teach baby to fall asleep without breast-feeding, bottlefeeding, or using a pacifier *The No-Cry Sleep Solution* offers clearly explained, step-by-step ideas that steer your little ones toward a good night's sleep--all with no crying.

The Baby Sleep Solution - Suzy Giordano
2006-12-05

Suzy Giordano, affectionately known as "The Baby Coach," shares her highly effective sleep-training method in this step-by-step guide to let both baby and parent enjoy long, peaceful nights.

Full of common sense and specific tips, the Baby Coach's plan offers time- and family-tested techniques to help any baby up to the age of 18 months who has trouble sleeping through the night. Originally developed for newborn multiples, this sleep-training method worked so well with twins and triplets that families with singletons and older babies began asking Suzy to share her recipe for success, resulting in: regular feeding times; 12 hours' sleep at night; three hours' sleep during the day; peace of mind for parent and baby; and less strain on parents - and their marriage. This edition includes a new chapter on implementing the program with babies up to 18 months.

Twelve Hours' Sleep by Twelve Weeks Old -

Suzy Giordano 2006-01-19

There is no bigger issue for healthy infants than sleeping through the night. In this simple, straightforward book, Suzy Giordano presents her amazingly effective "Limited- Crying Solution" that will get any baby to sleep for twelve hours at

night—and three hours in the day—by the age of twelve weeks old. Giordano is the mother of five children and one of the most sought-after baby sleep specialists in the country. The Washington Post calls her a baby sleep "guru" and "an underground legend in the Washington area for her ability to teach newborns how to achieve that parenting nirvana: sleeping through the night." Her sleep plan has been tested with singletons, twins, triplets, babies with special needs, and colicky babies—and it has never failed. Whether you are pregnant, first-time parents, or parents who seek a different path with your second or third child, anyone can benefit from the Baby Coach's popular system of regular feeding times, twelve hours of sleep at night and three hours of sleep during the day, and the peace of mind that comes with taking the parent and child out of a sleep-deprived world.

***The Happiest Baby on the Block; Fully Revised and Updated Second Edition* -**

Harvey Karp, M.D. 2015-10-06

Never again will you have to stand by helplessly while your little baby cries and cries. There is a way to calm most crying babies . . . usually in minutes! Thousands of parents, from regular moms and dads to Hollywood superstars, have come to baby expert Dr. Harvey Karp to learn his remarkable techniques for soothing babies and increasing sleep. Now his landmark book—fully revised and updated with the latest insights into infant sleep, bedsharing, breastfeeding,

swaddling, and SIDS risk—can teach you too! Dr. Karp’s highly successful method is based on four revolutionary concepts: 1. The Fourth Trimester: Why babies still yearn for a womblike atmosphere . . . even after birth 2. The Calming Reflex: An “off switch” all babies are born with 3. The 5 S’s: Five easy steps to turn on your baby’s amazing calming reflex 4. The Cuddle Cure: How to combine the 5 S’s to calm even colicky babies With Dr. Karp’s sensible advice, parents and grandparents, nurses and nannies, will be able to transform even the fussiest infant into the happiest baby on the block! Praise for *The Happiest Baby on the Block* “Dr. Karp’s book is fascinating and will guide new parents for years to come.”—Julius Richmond, M.D., Harvard Medical School, former Surgeon General of the United States “*The Happiest Baby on the Block* is fun and convincing. I highly recommend it.”—Elisabeth Bing, co-founder of Lamaze International “Will fascinate anyone who wants to know how babies experience the world, and

wants to answer their cries lovingly and effectively.”—The San Diego Union-Tribune
The Fifth Trimester - Lauren Smith Brody

[Brain Rules for Baby \(Updated and Expanded\)](#) - John Medina 2014-04-22

What's the single most important thing you can do during pregnancy? What does watching TV do to a child's brain? What's the best way to handle temper tantrums? Scientists know. In his New York Times bestseller *Brain Rules*, Dr. John Medina showed us how our brains really

work—and why we ought to redesign our workplaces and schools. Now, in *Brain Rules for Baby*, he shares what the latest science says about how to raise smart and happy children from zero to five. This book is destined to revolutionize parenting. Just one of the surprises: The best way to get your children into the college of their choice? Teach them impulse control. *Brain Rules for Baby* bridges the gap between what scientists know and what parents practice. Through fascinating and funny stories, Medina, a developmental molecular biologist and dad, unravels how a child's brain develops – and what you can do to optimize it. You will view your children—and how to raise them—in a whole new light. You'll learn: Where nature ends and nurture begins Why men should do more household chores What you do when emotions run hot affects how your baby turns out, because babies need to feel safe above all TV is harmful for children under 2 Your child's ability to relate to others predicts her future math performance

Smart and happy are inseparable. Pursuing your child's intellectual success at the expense of his happiness achieves neither. Praising effort is better than praising intelligence. The best predictor of academic performance is not IQ. It's self-control. What you do right now—before pregnancy, during pregnancy, and through the first five years—will affect your children for the rest of their lives. *Brain Rules for Baby* is an indispensable guide.

The Newborn Sleep Book - Lewis Jassey

2014-08-05

Developed and refined by two successful pediatricians, the "Jassey Way" boasts more than a 90% success rate of getting children to sleep through the night in their first 4 weeks of life. A safe and proven technique, the Jassey Way uses a feeding schedule that allows newborns (and their parents) a full night's sleep at a younger age than other sleep training techniques.

The Happiest Toddler on the Block - Harvey Karp, M.D. 2008-08-26

Perfect for expecting parents who want to prepare themselves for the challenging toddler years (which starts around eight months of age), this essential guide, a national bestseller by respected pediatrician and child development expert Dr. Harvey Karp, not only helps reduce tantrums but makes happy kids even happier by boosting patience, cooperation, and self-confidence. Toddlers can drive you bonkers...so adorable and fun one minute...so stubborn and demanding the next! Yet, as unbelievable as it sounds, there is a way to turn the daily stream of "nos" and "don'ts" into "yeses" and hugs...if you know how to speak your toddler's language. In one of the most useful advances in parenting techniques of the past twenty-five years, Dr. Karp reveals that toddlers, with their immature brains and stormy outbursts, should be thought of not as pint-size people but as pintsize...cavemen. Having noticed that the usual techniques often failed to calm crying toddlers, Dr. Karp discovered that the key to effective

communication was to speak to them in their own primitive language. When he did, suddenly he was able to soothe their outbursts almost every time! This amazing success led him to the realization that children between the ages of one and four go through four stages of “evolutionary” growth, each linked to the development of the brain, and each echoing a step in prehistoric humankind’s journey to civilization:

- The “Charming Chimp-Child” (12 to 18 months): Wobbles around on two legs, grabs everything in reach, plays a nonstop game of “monkey see monkey do.”
- The “Knee-High Neanderthal” (18 to 24 months): Strong-willed, fun-loving, messy, with a vocabulary of about thirty words, the favorites being “no” and “mine.”
- The “Clever Caveman” (24 to 36 months): Just beginning to learn how to share, make friends, take turns, and use the potty.
- The “Versatile Villager” (36 to 48 months): Loves to tell stories, sing songs and dance, while trying hard to behave. To speak to these children, Dr. Karp has developed two

extraordinarily effective techniques: 1) The “fast food” rule—restating what your child has said to make sure you got it right; 2) The four-step rule—using gesture, repetition, simplicity, and tone to help your irate Stone-Ager be happy again. Once you’ve mastered “toddler-ese,” you will be ready to apply behavioral techniques specific to each stage of your child’s development, such as teaching patience and calm, doing time-outs (and time-ins), praise through “gossiping,” and many other strategies. Then all the major challenges of the toddler years—including separation anxiety, sibling rivalry, toilet training, night fears, sleep problems, picky eating, biting and hitting, medicine taking — can be handled in a way that will make your toddler feel understood. The result: fewer tantrums, less yelling, and, best of all, more happy, loving time for you and your child.

The Good Sleeper - Janet Krone Kennedy
2015-01-20

A clinical psychologist who developed a Sleep Disorders Treatment Program at the Manhattan Veterans Affairs Medical Center uses her years of experience to help new parents train their infants to become great sleepers through proven methods and practices. Original.

The Black Cat - Edgar Allan Poe 2020-08-01

"The Black Cat" is a short story by Edgar Allan Poe. It was first published in the August 19, 1843, edition of The Saturday Evening Post. It is a study of the psychology of guilt, often paired in analysis with Poe's "The Tell-Tale Heart". In both, a murderer carefully conceals his crime and believes himself unassailable, but eventually breaks down and reveals himself, impelled by a nagging reminder of his guilt.

Kristin Neff, Ph.D., says that it’s time to “stop beating yourself up and leave insecurity behind.” *Self-Compassion: Stop Beating Yourself Up and Leave Insecurity Behind* offers expert advice on

how to limit self-criticism and offset its negative effects, enabling you to achieve your highest potential and a more contented, fulfilled life. More and more, psychologists are turning away from an emphasis on self-esteem and moving toward self-compassion in the treatment of their patients—and Dr. Neff’s extraordinary book offers exercises and action plans for dealing with every emotionally debilitating struggle, be it parenting, weight loss, or any of the numerous trials of everyday living.

The Happiest Kids in the World - Rina Mae Acosta 2017-04-04

Discover how Dutch parents raise The Happiest Kids in the World! Calling all stressed-out parents: Relax! Imagine a place where young children play unsupervised, don’t do homework, have few scheduled “activities” . . . and rank #1 worldwide in happiness and education. It’s not a fantasy—it’s the Netherlands! Rina Mae Acosta and Michele Hutchison—an American and a Brit, both married to Dutchmen and raising their kids

in the Netherlands—report back on what makes Dutch kids so happy and well adjusted. Is it that dads take workdays off to help out? Chocolate sprinkles for breakfast? Bicycling everywhere? Whatever the secret, entire Dutch families reap the benefits, from babies (who sleep 15 hours a day) to parents (who enjoy a work-life balance most Americans only dream of). As Acosta and Hutchison borrow ever-more wisdom from their Dutch neighbors, this much becomes clear: Sometimes the best thing we can do as parents is . . . less!

Guilt-free Bottle Feeding - Madeleine Morris 2014-09-15

You are not a bad mother if you can’t breastfeed. For decades mums have been told that ‘breast is best’, that breastfeeding is the single-most important thing we can do for our children. Despite this huge pressure on modern mums, the vast majority of us end up using formula. And we feel guilty. In Guilt-Free Bottle Feeding award-winning journalist Madeleine Morris and

paediatrician Dr Sasha Howard challenge the simplistic message of 'breast is best', revealing what everybody knows, but nobody says out loud - that bottle fed babies can grow up to be perfectly happy, healthy and smart. With a thorough yet accessible analysis of health science, parenting sociology and the modern media, the authors provide a balanced, much-needed and long-overdue voice, showing mothers who don't exclusively breastfeed why they are not failures. A mix of political and practical, *Guilt-Free Bottle-Feeding* also offers comprehensive advice on feeding, including: Choosing a formula, and choosing a bottle Sterilising and preparing a feed How to promote bonding while bottle-feeding Moving from breast to bottle, and mixed feeding In an era where the pressure on mums is greater than ever before, *Guilt-Free Bottle Feeding* resets the conversation around infant feeding, supporting all families regardless of how they feed their babies. This is not an anti-breastfeeding book. This is an anti-

guilt book. www.guiltfreebottlefeeding.com
The Baby Sleep Book - Martha Sears 2008-12-14
Everything you need to know about getting your baby or toddler to sleep -- from America's foremost baby and childcare experts. Babies don't automatically know how to sleep through the night; they need to be taught. The Sears family has learned from decades of pediatric practice, bolstered by their own parenting experiences, that different babies have different nighttime temperaments -- and, of course, different families have different lifestyles. Instead of espousing the kind of "one method fits all" approach advocated in other baby sleep guides, the Sears family explains how you can create a sleep plan that suits the needs of your entire family. With a sharp focus -- on the practical tools and techniques, *The Baby Sleep Book* covers such topics as: The facts of infant sleep vs. adult sleep Figuring out where, when, and how your child sleeps best Fail-safe methods for soothing a crying infant How to make night nursing easier,

and how to stop Nighttime fathering tips Whether co-sleeping makes sense for you Nap-time strategies that work Medical and physical causes of night waking Sleep habits in special situations such as traveling, teething, and illness

Secrets of the Baby Whisperer - Tracy Hogg

2001-06-01

“TRACY HOGG HAS GIVEN PARENTS A GREAT GIFT—the ability to develop early insight into their child’s temperament.” –Los Angeles Family When Tracy Hogg’s *Secrets of the Baby Whisperer* was first published, it soared onto bestseller lists across the country. Parents everywhere became “whisperers” to their newborns, amazed that they could actually communicate with their baby within weeks of their child’s birth. Tracy gave parents what for some amounted to a miracle: the ability to understand their baby’s every coo and cry so that they could tell immediately if the baby was hungry, tired, in real distress, or just in need of a little TLC. Tracy also dispelled the

insidious myth that parents must go sleepless for the first year of a baby’s life—because a happy baby sleeps through the night. Now you too can benefit from Tracy’s more than twenty years’ experience. In this groundbreaking book, she shares simple, accessible programs in which you will learn:

- E.A.S.Y.—how to get baby to eat, play, and sleep on a schedule that will make every member of the household’s life easier and happier.
- S.L.O.W.—how to interpret what your baby is trying to tell you (so you don’t try to feed him when he really wants a nap).
- How to identify which type of baby yours is—Angel, Textbook, Touchy, Spirited, or Grumpy—and then learn the best way to interact with that type.
- Tracy’s Three Day Magic—how to change any and all bad habits (yours and the baby’s) in just three days. At the heart of Tracy’s simple but profound message: treat the baby as you would like to be treated yourself. Reassuring, down-to-earth, and often flying in the face of conventional wisdom, *Secrets of the Baby Whisperer* promises parents

not only a healthier, happier baby but a more relaxed and happy household as well.

Baby-Led Weaning - Gill Rapley 2010-10-05

The Natural, No-Fuss, No-Purée Method for Starting Your Baby on Solid Foods “[Baby-Led Weaning] makes life so much easier.” —The Times, London Baby-Led Weaning explodes the myth that babies need to be spoon-fed and shows why self-feeding from the start of the weaning process is the healthiest way for your child to develop. With baby-led weaning (BLW, for short), you can skip purées and make the transition to solid food by following your baby’s cues. At about six months, most babies are ready to join the family at the kitchen table and discover food for themselves. *Baby-Led Weaning* is the definitive guide to this crucial period in your child’s development, and shows you how to help your baby: Participate in family meals right from the start Experiment with food at his or her own pace Develop new abilities, including hand-eye coordination and chewing Learn to love a

variety of foods and to enjoy mealtimes Baby-led weaning became a parenting phenomenon in the UK practically overnight, inspiring a fast-growing and now international online community of parents who practice baby-led weaning—with blogs and pictures to prove it! In *Baby-Led Weaning*, world-leading BLW authority Gill Rapley and early BLW practitioner and coauthor Tracey Murkett deliver everything you need to know about raising healthy, confident eaters.

The Happiest Baby on the Block - Harvey Karp, M.D. 2008-11-19

Perfect for expecting parents who want to provide a soothing home for the newest member of their family, *The Happiest Baby on the Block*, the national bestseller by respected pediatrician

and child development expert Dr. Harvey Karp, is a revolutionary method for calming a crying infant and promoting healthy sleep from day one. In perhaps the most important parenting book of the decade, Dr. Harvey Karp reveals an extraordinary treasure sought by parents for centuries --an automatic "off-switch" for their baby's crying. No wonder pediatricians across the country are praising him and thousands of Los Angeles parents, from working moms to superstars like Madonna and Pierce Brosnan, have turned to him to learn the secrets for making babies happy. Never again will parents have to stand by helpless and frazzled while their poor baby cries and cries. Dr. Karp has found there IS a remedy for colic. "I share with parents techniques known only to the most gifted baby soothers throughout history ...and I explain exactly how they work." In a innovative and thought-provoking reevaluation of early infancy, Dr. Karp blends modern science and ancient wisdom to prove that newborns are not fully

ready for the world when they are born. Through his research and experience, he has developed four basic principles that are crucial for understanding babies as well as improving their sleep and soothing their senses:

- The Missing Fourth Trimester: as odd as it may sound, one of the main reasons babies cry is because they are born three months too soon.
- The Calming Reflex: the automatic reset switch to stop crying of any baby in the first few months of life.
- The 5 “S’s”:

the simple steps (swaddling, side/stomach position, shushing, swinging and sucking) that trigger the calming reflex. For centuries, parents have tried these methods only to fail because, as with a knee reflex, the calming reflex only works when it is triggered in precisely the right way. Unlike other books that merely list these techniques Dr. Karp teaches parents exactly how to do them, to guide cranky infants to calm and easy babies to serenity in minutes...and help them sleep longer too.

- The Cuddle Cure: the perfect mix the 5 “S’s” that can soothe even the

most colicky of infants. In the book, Dr. Karp also explains: What is colic? Why do most babies get much more upset in the evening? How can a parent calm a baby--in mere minutes? Can babies be spoiled? When should a parent of a crying baby call the doctor? How can a parent get their baby to sleep a few hours longer? Even the most loving moms and dads sometimes feel pushed to the breaking point by their infant’s persistent cries. Coming to the rescue, however, Dr. Karp places in the hands of parents, grandparents, and all childcare givers the tools they need to be able to calm their babies almost as easily as...turning off a light. From the Hardcover edition.

No Regrets Parenting - Harley A. Rotbart M.D.
2012-02-21

No Regrets Parenting is a book for busy parents in our busy times. Juggling family and professional lives is not a course taught in high school or college--many parents find the challenges of being all things to all people

daunting. This theme is ubiquitous in today's culture--movies, theatre, books, magazine features, and human interest news stories all find the challenge of raising children to be prime fodder for audiences. How to do it all? How to stay sane while trying to do it all? No Regrets Parenting teaches parents how to experience the joy and depth of the parenting experience amidst the chaos and choreography of daily routines. Car pool, bath time, soccer practice, homework, dinner hour, and sleepovers all become more than just obligations and hurdles to overcome to get through the day. They are opportunities for intimate and meaningful time--quality time--with young kids. It's not how much time you have with your kids, but how you spend that time that matters in the life and legacy of a young family. No Regrets Parenting readjusts parents' perspectives and priorities, helping them find the time to do it all and feel good about your kids' childhood. There is a simple, single truth for every parent. Your kids need you to be there.

They need to see who you are and how you live your life. And, in return, they will help you to see who you are and how you should be living your life. For all of that to happen, parents need time with their kids. Memorable and meaningful time. No Regrets Parenting is about time. Finding enough of it and making the most of it.
