Commentary on the Holy Scriptures of the New Testament - Averky Taushev 2021-01-04

Archbishop Averky approaches the New Testament first and foremost not as a literary work of antiquity, but as the revelation of Jesus Christ as God in the flesh. Writing in the tradition of biblical exegetes, he provides a commentary that is firmly grounded in the teaching of the Church, manifested in its liturgical hymnography and the works of the Holy Fathers. Analyzing all four Gospels chronologically and simultaneously, he allows readers to see the life of Christ as an unfolding narrative in accessible, direct language. His commentary on the Book of Acts deals with questions of authorship and time of composition. He elucidates the moral and pastoral aspects of the Pauline and Universal Epistles and the Book of Revelation. The final commentary on the Apocalypse, in which Archbishop Averky relies heavily on the ancient commentary of St Andrew of Caesaria, is provided in the popular translation by Hieromonk Seraphim (Rose), together with the Scriptural text itself. Archbishop Averky's commentaries on the New Testament have become standard textbooks in Holy Trinity Orthodox Seminary and have been published in Russia to widespread acclaim. This present collection makes the complete commentary available in one collection for the first time. It is an indispensable addition to the library of every student of Holy Scripture.

First Corinthians - Raymond F. Collins 1999

"One of the most exciting of Paul's letters, First Corinthians offers a vantage point from which modern readers can reflect on the diversity in Christian churches today. In First Corinthians, Raymond Collins explores that vantage point as well as the challenge Paul posed to the people of his time - and continues to pose in ours - to allow the gospel message to engage them in their daily lives."--P. [4] of cover.

Interpreting the New Testament - Hans Conzelmann 1994-05-01

"This is not an ordinary 'Introduction' but a manual for exegetical work written for the serious student of the New Testament. Rather than suggesting some easily accessible generalities, the book challenges

readers to apply themselves to the texts, and it will guide such efforts step by step as it leads readers through the methodological rigors of scholarship. In scholarly method it represents the very best that has been developed primarily in the work of German biblical interpretation over the last hundred years. But it is not theory of exegesis that is taught; it is applied exegesis, exegetical praxis. Those who follow the advice this book gives will be richly rewarded as they become more conversant with the living voice of the gospel that is enshrined in the words, phrases, and sentences of Scripture."--Helmut Koester, Harvard Divinity School "This unique and comprehensive handbook will be a boon to any serious student of the New Testament. The authors are expert guides to the current state of research as well as to the tasks and methods of exegesis."--Victor Paul Furnish, Southern Methodist University

The Church of God in Jesus Christ - Roch A. Kereszty 2019
Investigating Vatican II is a collection of Fr. Jared Wicks' recent articles on Vatican II, and presents the Second Vatican Council as an event to which theologians contributed in major ways and from which Catholic theology can gain enormous insights. Taken as a whole, the articles take the reader into the theological dynamics of Vatican II at key moments in the Council's historical unfolding. Wicks promotes a contemporary re-reception of Vatican II's theologically profound documents, especially as they featured God's incarnate and saving Word, laid down principles of Catholic ecumenical engagement, and articulated the church's turn to the modern world with a new "face" of respect and dedication to service.

From the original motivations of Pope John XXIII in convoking the Council, *Investigating Vatican II* goes on to highlight the profound insights offered by theologians who served behind the scenes as Council experts. In its chapters, the book moves through the Council's working periods, drawing on the published and non-published records, with attention to the Council's dramas, crises, and breakthroughs. It brings to light the bases of Pope Francis's call for synodality in a listening church, while highlighting Vatican II's mandate to all of prayerful biblical reading, for fostering a vibrant "joy in the Gospel."

Anatomy of the Fourth Gospel - R. Alan Culpepper 1987

This book is an attempt to make some initial tracing of what the gospel looks like through the lens of secular literary criticism. As an interdisciplinary study, the work is an effort to contribute to that dialogue by studying the narrative elements of the Fourth Gospel while interacting occasionally with current Johannine research. It is intended not as a challenge to historical criticism or the results of previous research but as an alternative by means of which new data may be collected and readers may be helped to read the gospel more perceptively by looking at certain features of the gospel. This process is to be distinguished from reading the gospel looking for particular kinds of historical evidence. Our aim is to contribute to understanding the gospel as a narrative text, what it is, and how it works. The emphasis will be upon the construction of hypotheses or critique of methods. The gospel as it stands rather than its sources, historical background, or themes is the subject of this study.
