Isak Dinesen - Judith Thurman 1995-10-15

Judith Thurman 's classic work explores Dinesen's life - her privileged but unhappy childhood in Denmark, her marriage to Baron Blixen, their immigration to Africa on the eve of World War I, and her passionate affair with Denys Finch Hatton. Until the appearance of this book, the life and art of Isak Dinesen have been - as Dinesen herself wrote of two lovers in a tale - "a pair of locked caskets, each containing the key to the other."

Working - Robert A. Caro 2019-04-09

"One of the great reporters of our time and probably the greatest biographer." —The Sunday Times (London) From the two-time Pulitzer Prize-winning author of *The Power Broker* and *The Years of Lyndon Johnson*: an unprecedented gathering of vivid, candid, deeply moving recollections about his experiences researching and writing his acclaimed books. Now in paperback, Robert Caro gives us a glimpse into his own life and work in these evocatively written, personal pieces. He describes what it was like to interview the mighty Robert Moses and to begin discovering the extent of the political power Moses wielded; the combination of discouragement and exhilaration he felt confronting the vast holdings of the Lyndon B. Johnson Library in Austin, Texas; his encounters with witnesses, including longtime residents wrenchingly displaced by the construction of Moses' Cross-Bronx Expressway and Lady Bird Johnson acknowledging the beauty and influence of one of LBJ's mistresses. He gratefully remembers how, after years of working in solitude, he found a writers' community at the New York Public Library, and details the ways he goes about planning and composing his books. Caro recalls the moments at which he came to understand that he wanted to write not just about the men who wielded power but about the people and the politics that were shaped by that power. And he talks about the importance to him of the writing itself, of how he tries to infuse it with a sense of place and mood to bring characters and situations to life on the page. Taken together, these reminiscences—some previously published, some written expressly for this book—bring into focus the passion, the wry self-deprecation, and the integrity with which this brilliant historian has always approached his work.

The political biography of our time, now available in a four-volume hardcover set. Robert A. Caro's life of Lyndon Johnson is one of the richest, most intensive and most revealing examinations ever undertaken of

an American president. It is the magnum opus of a writer perfectly suited to his task: the Pulitzer Prize-winning biographer-historian, chronicler also of Robert Moses in *The Power Broker*, whose inspired research and profound understanding of the nature of ambition and the dynamics of power have made him a peerless explicator of political lives. "Taken together the installments of Mr. Caro's monumental life of Johnson . . . form a revealing prism by which to view the better part of a century in American life and politics during which the country experienced tumultuous and divisive social change. . . Gripping." --Michiko Kakutani, *The New York Times* "By writing the best presidential biography the country has ever seen, Caro has forever changed the way we think, and read, American history . . . It's his immense talent as a writer that has made his biography of Johnson one of America's most amazing literary achievements . . . As absorbing as a political thriller . . . A masterpiece, unlike any other work of American history published in the past. It's true that there will never be another Lyndon B. Johnson, but there will never be another Robert A. Caro, either." -NPR "One of the truly great political biographies of the modern age. A masterpiece" --The Times (London) *The Path to Power* reveals the genesis of the almost superhuman drive, energy, and urge to power that set LBJ apart. Chronicling the startling early emergence of Johnson's political genius, it follows him from his Texas boyhood through the years of the Depression in the Texas Hill Country to the triumph of his congressional debut in New Deal Washington, to his heartbreaking defeat in his first race for the Senate, and his attainment, nonetheless of the national power for which he hungered. National Book Critics Circle Award in Nonfiction Means of Ascent follows Johnson through his service in World War II to the foundation of his long-concealed fortune and the facts behind the myth he created about it. The explosive heart of the book is Caro's revelation of the true story of the fiercely contested 1948 senatorial election, which Johnson had to win or face certain political death, and which he did win--by "87 votes that changed history." Caro makes us witness to a momentous turning point in American politics; the tragic last stand of the old politics versus the new—the politics of issue versus the politics of image, mass manipulation, money and electronic dazzle. National Book Critics Circle Award in Biography Master of the Senate carries Johnson's story through his twelve remarkable years in the Senate. It is an unprecedented revelation of how legislative power works in America, how the Senate works, and how Johnson, in his ascent to the presidency, mastered the Senate as no political leader before him had ever done. In a breathtaking tour de force, Caro details Johnson's amazing triumph in maneuvering to passage the first civil rights legislation since 1875. Pulitzer Prize in Biography Los Angeles Times Book Award in Biography National Book Award in Nonfiction *The Passage of Power* is an unparalleled account of the battle between Johnson and John Kennedy for the 1960 presidential nomination, of the machinations behind Kennedy's decision to offer Johnson the vice presidency, of Johnson's powerlessness and humiliation in that role, and of the savage animosity between Johnson and Robert Kennedy. In Caro's description of the Kennedy assassination, which *The New York Times* called "the most riveting ever," we see the events of November 22, 1963, for the first time through Lyndon Johnson's eyes. And we watch as his political genius enables him to grasp the reins of the presidency with total command and, within weeks, make it wholly his own, surmounting unprecedented obstacles in order to fulfill the highest purpose of the office. National Book Critics Circle Award in Biography "Brilliant . . . Important . . . Remarkable ... In sparkling detail, Caro shows Johnson's genius for getting to people—friends, foes, and everyone in between—and how he used it

The Path to Power - Robert A. Caro 1982-11-12

The Years of Lyndon Johnson is the political biography of our time. No president—no era of American politics—has been so intensively and sharply examined at a time when so many prime witnesses to hitherto untold or misinterpreted facets of a life, a career, and a period of history could still be persuaded to speak. The Path to Power, Book One, reveals in extraordinary detail the genesis of the almost superhuman drive, energy, and urge to power that set LBJ apart. Chronicling the startling early emergence of Johnson’s political genius, it follows him from his Texas boyhood through the years of the Depression in the Texas hill Country to the triumph of his congressional debut in New Deal Washington, to his heartbreaking defeat in his first race for the Senate, and his attainment, nonetheless, of the national power for which he hungered. We see in him, from earliest childhood, a fierce, unquenchable necessity to be first, to win, to dominate—coupled with a limitless capacity for hard, unceasing labor in the service of his own ambition. Caro shows us the big, gangling, awkward young Lyndon—raised in one of the country’s most desperately poor and isolated areas, his education mediocre at best, his pride stung by his father’s slide into failure and financial ruin—lunging for success, moving inexorably toward that ultimate “impossible” goal that he sets for himself years before any friend or enemy suspects what it may be. We watch him, while still at college, instinctively (and ruthlessly) creating the beginnings of the political machine that was to serve him for three decades. We see him employing his extraordinary ability to mesmerize and manipulate powerful older men, to mesmerize (and sometimes almost enslave) useful subordinates. We see him carrying out, before his thirtieth year, his first great political inspiration: tapping-and becoming the political conduit for-the money and influence of the new oil men and contractors who were to grow with him to immense power. We follow, close up, the radical fluctuations of his relationships with the formidable “Mr. Sam” Rayburn (who loved him like a son and whom he betrayed) and with FDR himself. And we follow the dramas of his emotional life—the intensities and complications of his relationships with his family, his contemporaries, his girls; his wooing and winning of the shy Lady Bird; his secret love affair, over many years, with the mistress of one of his most ardent and generous supporters . . . Johnson driving his people to the point of exhausted tears, equally merciless with himself . . . Johnson bullying, cajoling, lying, yet inspiring an amazing loyalty . . . Johnson maneuvering to dethrone the unassailable old Jack Garner (then Vice President of the United States) as the New Deal’s “connection” in Texas, and seize the power himself . . . Johnson raging . . . Johnson hugging . . . Johnson bringing light and, indeed, life to the worn Hill Country farmers and their old-at-thirty wives via the district’s first electric lines. We see him at once unscrupulous, admirable, treacherous, devoted. And we see the country that bred him: the harshness and “nauseating loneliness” of the rural life; the tragic panorama of the Depression; the sudden glow of hope at the dawn of the Age of Roosevelt. And always, in the foreground, on the move, LBJ. Here is Lyndon Johnson—his Texas, his Washington, his America—in a book that brings us as close as we have ever been to a true perception of political genius and the American political process.

The Road to Power - Karl Kautsky 1909

The 48 Laws of Power - Robert Greene 2000-09-01

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of The Laws of Human Nature. In the book that People magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need

for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, The 48 Laws of Power is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Walter Lippmann and the American Century - Ronald Steel 2017-09-29

Walter Lippmann began his career as a brilliant young man at Harvard studying under George Santayana, taking tea with William James, a radical outsider arguing socialism with anyone who would listen and he ended it in his eighties, writing passionately about the agony of rioting in the streets, war in Asia, and the collapse of a presidency. In between he lived through two world wars, and a depression that shook the foundations of American capitalism. Walter Lippmann (1889-1974) has been hailed as the greatest journalist of his age. For more than sixty years he exerted unprecedented influence on American public opinion through his writing, especially his famous newspaper column "Today and Tomorrow." Beginning with The New Republic in the halcyon days prior to Woodrow Wilson and the First World War, millions of Americans gradually came to rely on Lippmann to comprehend the vital issues of the day. In this absorbing biography, Ronald Steel meticulously documents the philosophers and politics, the friendships and quarrels, the trials and triumphs of this man who for six decades stood at the center of American political life. Lippmann's experience spanned a period when the American empire was born, matured, and began to wane, a time some have called "the American Century." No one better captured its possibilities and wrote about them so wisely and so well, no one was more the mind, the voice, and the conscience of that era than Walter Lippmann: journalist, moralist, public philosopher.

The Years of Lyndon Johnson Volume 1 The path to power - Robert A. Caro 1981

Means of Ascent - Robert A. Caro 2011-11-23

In Means of Ascent, Book Two of The Years of Lyndon Johnson, Robert A. Caro brings alive Lyndon Johnson in his wilderness years. Here, Johnson’s almost mythic personality—part genius, part behemoth, at once hotly emotional and icily calculating—is seen at its most nakedly ambitious. This multifaceted book carries the President-to-be from the aftermath of his devastating defeat in his 1941 campaign for the Senate—the despair it engendered in him, and the grueling test of his spirit that followed as political doors slammed shut—through his service in World War II (and his artful embellishment of his record) to the foundation of his fortune (and the actual facts behind the myth he created about it). The culminating drama—the explosive heart of the book—is Caro’s illumination, based on extraordinarily detailed investigation, of one of the great political mysteries of the century. Having immersed himself in Johnson’s life and world, Caro is able to reveal the true story of the fiercely contested 1948 senatorial election, for years shrouded in rumor, which Johnson was not believed capable of winning, which he “had to” win or face certain political death, and which he did win—by 87 votes, the “87 votes that changed history.” Telling that epic story “in riveting and eye-opening detail,” Caro returns to the American consciousness a magnificent lost hero. He focuses closely not only on Johnson, whom we see harnessing every last particle of his strategic brilliance and energy, but on Johnson’s “unbeatable” opponent, the beloved former Texas Governor Coke Stevenson, who embodied in his own life the myth of the cowboy knight and was himself a legend for his unfaltering integrity. And ultimately, as the political duel between the two men quickens—carrying with it all the confrontational and moral drama of the perfect Western—Caro makes us witness to a momentous turning point in American politics: the tragic last stand of the old politics versus the new—the politics of issue versus the politics of image, mass manipulation, money and electronic dazzle.

Dallas, November 22, 1963 - Robert A. Caro 2013-10-01

This account of the Kennedy assassination ("the most riveting ever," says The New York Times) is taken from Robert A. Caro's brilliant and bestselling *The Passage of Power*. Here is that tragic day in Dallas alive with startling details reported for the first time by the two-time Pulitzer Prize-winning author. Just as scandals that might end his career are about to break over Lyndon Johnson's head, the motorcade containing the presidential party is making its slow and triumphant way along the streets of Dallas. In Caro's breathtakingly vivid narrative, we witness the shots, the procession speeding to Parkland Memorial Hospital, the moment when Kennedy aide Lawrence O'Donnell tells Johnson "He's gone," and Johnson's iconic swearing in on Air Force One. Compelling. An eBook short.

The Influence Effect - Kathryn Heath 2017-11-06

Women hold over half of all professional jobs today, yet they represent just four percent of CEOs in the S&P 500. Even worse, that percentage has barely budged in a decade. That's where *The Influence Effect* comes in. Based on recent research by the authors of the *New York Times* bestseller *Break Your Own Rules*, this book begins with the premise that when it comes to political savvy, what works for men at work won't work for women. Packed with the authors' coaching insights and their "Big Five" strategies designed specifically for female executives, this book guides women to break past political barriers and get right to what they really want--influence. Authors Kathryn Heath, Jill Flynn, Mary Davis Holt, and Diana Faison make success far less complex, helping women overcome entrenched resistance to their ideas, create their own access points to power, and attract followers in a way that works for them. They present tools such as *Influence Loops* (to organically increase influence), *Personal Scaffolding* (to grow a groundswell of support), and *Scenario Thinking* (a savvy twist on strategic planning). These and other smart strategies finally allow women to succeed on their own terms. Illustrated with dozens of engaging, real stories culled from the authors' many years of coaching experience, *The Influence Effect* moves women past the politics problem and offers a new path to power. Actually, it's more than a path--it's a runway--it frees women to take off in their careers on their own terms. *The Influence Effect* will work for women, not because gender barriers will no longer exist, but because they will no longer hold women back.

The Passage of Power - Robert A. Caro 2012-05-01

WINNER OF THE NATIONAL BOOK CRITICS CIRCLE AWARD, THE LOS ANGELES TIMES BOOK PRIZE, THE MARK LYNTON HISTORY PRIZE, THE AMERICAN HISTORY BOOK PRIZE Book Four of Robert A. Caro's monumental *The Years of Lyndon Johnson* displays all the narrative energy and illuminating insight that led the *Times* of London to acclaim it as "one of the truly great political biographies of the modern age. A masterpiece." *The Passage of Power* follows Lyndon Johnson through both the most frustrating and the most triumphant periods of his career--1958 to 1964. It is a time that would see him trade the extraordinary power he had created for himself as Senate Majority Leader for what became the wretched powerlessness of a Vice President in an administration that disdained and distrusted him. Yet it was, as well, the time in which the presidency, the goal he had always pursued, would be thrust upon him in the moment it took an assassin's bullet to reach its mark. By 1958, as Johnson began to maneuver for the presidency, he was known as one of the most brilliant politicians of his time, the greatest Senate Leader in our history. But the 1960 nomination would go to the young senator from Massachusetts, John F. Kennedy. Caro gives us an unparalleled account of the machinations behind both the nomination and Kennedy's decision to offer Johnson the vice presidency, revealing the extent of Robert Kennedy's efforts to force Johnson off the ticket. With the consummate skill of a master storyteller, he exposes the savage animosity between Johnson and

Kennedy's younger brother, portraying one of America's great political feuds. Yet Robert Kennedy's overt contempt for Johnson was only part of the burden of humiliation and isolation he bore as Vice President. With a singular understanding of Johnson's heart and mind, Caro describes what it was like for this mighty politician to find himself altogether powerless in a world in which power is the crucial commodity. For the first time, in Caro's breathtakingly vivid narrative, we see the Kennedy assassination through Lyndon Johnson's eyes. We watch Johnson step into the presidency, inheriting a staff fiercely loyal to his slain predecessor; a Congress determined to retain its power over the executive branch; and a nation in shock and mourning. We see how within weeks—grasping the reins of the presidency with supreme mastery—he propels through Congress essential legislation that at the time of Kennedy's death seemed hopelessly logjammed and seizes on a dormant Kennedy program to create the revolutionary War on Poverty. Caro makes clear how the political genius with which Johnson had ruled the Senate now enabled him to make the presidency wholly his own. This was without doubt Johnson's finest hour, before his aspirations and accomplishments were overshadowed and eroded by the trap of Vietnam. In its exploration of this pivotal period in Johnson's life—and in the life of the nation—*The Passage of Power* is not only the story of how he surmounted unprecedented obstacles in order to fulfill the highest purpose of the presidency but is, as well, a revelation of both the pragmatic potential in the presidency and what can be accomplished when the chief executive has the vision and determination to move beyond the pragmatic and initiate programs designed to transform a nation. It is an epic story told with a depth of detail possible only through the peerless research that forms the foundation of Robert Caro's work, confirming Nicholas von Hoffman's verdict that "Caro has changed the art of political biography."

Paths to Power - A. W. Tozer 1980-01-01

The church that lacks power first lacks obedience. Speaking of apathy toward obedience, A. W. Tozer says, "Until this is corrected, we can hope for very little power in our churches..." Obedience is what no revival, no reformation, and no Spirit-filled person has ever been without. It separates true faith from dead faith. It bears fruit and is followed by power. It is costly, but we cannot afford to withhold it. *Paths to Power* points Christians and churches to the age-old way of obedience, the only road to revival. Delivering a charge to weak churches, A. W. Tozer calls us to rise up, gather the wood, and ascend the mountain. Abraham believed God, and it was credited to him as righteousness. But His belief cost him something. Does ours?

[Master of the Senate](#) - Robert A. Caro 2009-07-22

Master of the Senate, Book Three of *The Years of Lyndon Johnson*, carries Johnson's story through one of its most remarkable periods: his twelve years, from 1949 to 1960, in the United States Senate. At the heart of the book is its unprecedented revelation of how legislative power works in America, how the Senate works, and how Johnson, in his ascent to the presidency, mastered the Senate as no political leader before him had ever done. It was during these years that all Johnson's experience—from his Texas Hill Country boyhood to his passionate representation in Congress of his hardscrabble constituents to his tireless construction of a political machine—came to fruition. Caro introduces the story with a dramatic account of the Senate itself: how Daniel Webster, Henry Clay, and John C. Calhoun had made it the center of governmental energy, the forum in which the great issues of the country were thrashed out. And how, by the time Johnson arrived, it had dwindled into a body that merely responded to executive initiatives, all but

impervious to the forces of change. Caro anatomizes the genius for political strategy and tactics by which, in an institution that had made the seniority system all-powerful for a century and more, Johnson became Majority Leader after only a single term—the youngest and greatest Senate Leader in our history; how he manipulated the Senate's hallowed rules and customs and the weaknesses and strengths of his colleagues to change the "unchangeable" Senate from a loose confederation of sovereign senators to a whirring legislative machine under his own iron-fisted control. Caro demonstrates how Johnson's political genius enabled him to reconcile the unreconcilable: to retain the support of the southerners who controlled the Senate while earning the trust—or at least the cooperation—of the liberals, led by Paul Douglas and Hubert Humphrey, without whom he could not achieve his goal of winning the presidency. He shows the dark side of Johnson's ambition: how he proved his loyalty to the great oil barons who had financed his rise to power by ruthlessly destroying the career of the New Dealer who was in charge of regulating them, Federal Power Commission Chairman Leland Olds. And we watch him achieve the impossible: convincing southerners that although he was firmly in their camp as the anointed successor to their leader, Richard Russell, it was essential that they allow him to make some progress toward civil rights. In a breathtaking tour de force, Caro details Johnson's amazing triumph in maneuvering to passage the first civil rights legislation since 1875. *Master of the Senate*, told with an abundance of rich detail that could only have come from Caro's peerless research, is both a galvanizing portrait of the man himself—the titan of Capital Hill, volcanic, mesmerizing—and a definitive and revelatory study of the workings and personal and legislative power.

And how, by the time Johnson arrived, it had dwindled into a body that merely responded to executive initiatives, all but impervious to the forces of change. Caro anatomizes the genius for political strategy and tactics by which, in an institution that had made the seniority system all-powerful for a century and more, Johnson became Majority Leader after only a single term—the youngest and greatest Senate Leader in our history; how he manipulated the Senate's hallowed rules and customs and the weaknesses and strengths of his colleagues to change the "unchangeable" Senate from a loose confederation of sovereign senators to a whirring legislative machine under his own iron-fisted control. Caro demonstrates how Johnson's political genius enabled him to reconcile the unreconcilable: to retain the support of the southerners who controlled the Senate while earning the trust—or at least the cooperation—of the liberals, led by Paul Douglas and Hubert Humphrey, without whom he could not achieve his goal of winning the presidency. He shows the dark side of Johnson's ambition: how he proved his loyalty to the great oil barons who had financed his rise to power

by ruthlessly destroying the career of the New Dealer who was in charge of regulating them, Federal Power Commission Chairman Leland Olds. And we watch him achieve the impossible: convincing southerners that although he was firmly in their camp as the anointed successor to their leader, Richard Russell, it was essential that they allow him to make some progress toward civil rights. In a breathtaking tour de force, Caro details Johnson's amazing triumph in maneuvering to passage the first civil rights legislation since 1875. Master of the Senate, told with an abundance of rich detail that could only have come from Caro's peerless research, is both a galvanizing portrait of the man himself—the titan of Capital Hill, volcanic, mesmerizing—and a definitive and revelatory study of the workings and personal and legislative power.

John Adams - John Ferling 2010-02-09

John Ferling has nearly forty years of experience as a historian of early America. The author of acclaimed histories such as *A Leap into the Dark* and *Almost a Miracle*, he has appeared on many TV and film documentaries on this pivotal period of our history. In *John Adams: A Life*, Ferling offers a compelling portrait of one of the giants of the Revolutionary era. Drawing on extensive research, Ferling depicts a reluctant revolutionary, a leader who was deeply troubled by the warfare that he helped to make, and a fiercely independent statesman. The book brings to life an exciting time, an age in which Adams played an important political and intellectual role. Indeed, few were more instrumental in making American independence a reality. He performed yeoman's service in the Continental Congress during the revolution and was a key figure in negotiating the treaty that brought peace following the long War of Independence. He held the highest office in the land and as president he courageously chose to pursue a course that he thought best for the nation, though it was fraught with personal political dangers. Adams emerges here a man full of contradictions. He could be petty and jealous, but also meditative, insightful, and provocative. In private and with friends he could be engagingly witty. He was terribly self-centered, but in his relationship with his wife and children his shortcomings were tempered by a deep, abiding love. John Ferling's masterful *John Adams: A Life* is a singular biography of the man who succeeded George Washington in the presidency and shepherded the fragile new nation through the most dangerous of times.
