

# Theoretical Background E Banking Internet Banking

Thank you certainly much for downloading **Theoretical Background E Banking Internet Banking** .Maybe you have knowledge that, people have look numerous time for their favorite books once this Theoretical Background E Banking Internet Banking , but end taking place in harmful downloads.

Rather than enjoying a fine PDF once a mug of coffee in the afternoon, on the other hand they juggled like some harmful virus inside their computer. **Theoretical Background E Banking Internet Banking** is available in our digital library an online permission to it is set as public as a result you can download it instantly. Our digital library saves in fused countries, allowing you to acquire the most less latency epoch to download any of our books past this one. Merely said, the Theoretical Background E Banking Internet Banking is universally compatible later any devices to read.

**Recent Developments in Individual and Organizational Adoption of ICTs** - Yildiz,

Orkun 2020-08-28

In recent years, information and communication

technologies (ICTs) have gained significant importance and become vital to the operations of both organizations and individuals. However, there are numerous factors that have affected the adoption of ICTs including access and accessibility barriers, political participation, and social empowerment. This has attracted the attention of researchers who are interested in understanding the socioeconomic influences of ICT adoption and how these technologies impact the infrastructure of modern organizational activities. *Recent Developments in Individual and Organizational Adoption of ICTs* is a collection of innovative research on the methods of organizational and infrastructural advancement through the application of information and communication technologies. While highlighting topics including internet banking, supply chain management, and e-government services, this book is ideally designed for managers, researchers, policymakers, politicians, business practitioners,

educators, decision scientists, strategists, and students seeking current research on the socioeconomic impact of ICT adoption.

*Inclusive Businesses in Developing Economies* - Rajagopal 2022-11-15

This book analyzes the emerging concepts and theories of inclusiveness in business by explaining corporate social responsibility, social learning, and value co-creation, as critical elements to the success of firms. The authors explore the causes and effects and challenges associated with the management of inclusive businesses. Divided in to six sections, this edited work includes twenty one chapters that examine the inclusive business philosophy, the social dynamics of managing inclusive business, the role of trade, and inclusive practices at work before concluding with a discussion of how to

drive hybrid growth in these types of organizations. Focusing on developing economies, this book portrays the varied corporate experiences in inclusive business designs and customer value propositions across the industries. It surveys the problems, possible solutions, and policy frameworks for integrating business as a resource to alleviate poverty and social and economic inequality.

E-Banking Management: Issues, Solutions, and Strategies - Shah, Mahmood 2009-05-31

"This book focuses on human, operational, managerial, and strategic organizational issues in e-banking"--Provided by publisher.

Adoption of Electronic Banking in Ghana Banking System - Dr. David Ackah 2014-11-28

Research Paper (postgraduate) from the year 2014 in the subject Business economics - Banking, Stock Exchanges, Insurance, Accounting, grade: A, Atlantic International University (School of Business and Economics), course: Ph.D. Economics, language: English,

abstract: Electronic banking (e-banking) has brought about a revolution in the functioning of banks as it offers major opportunities to banks and their customers. This has made the transition to electronic banking a necessity for banks in order to be viable. Despite its benefits, developing countries still lag behind in the adoption of electronic banking. This study therefore seeks to examine the adoption of e-banking in the Ghanaian banking industry with Guaranty Trust Bank Ghana Limited (GTBank) as the case study to identify the benefits, challenges and critical success factors for the adoption of e-banking in the Ghanaian banking industry. The research made use of questionnaires and interviews to collect data from staff and customers of GTBank. The results of the study indicated that e-banking adoption was a business strategy taken by the bank in response to customer needs and the changing marketing trends in the banking industry. The benefits, challenges and critical success factors

of e-banking are also identified and discussed. From the study it is obvious that tremendous benefits such as revenue generation, improvement in productivity and efficiency in service delivery and cost savings were derived from e-banking. The lack of a solid technology infrastructure was identified as a major challenge of e-banking adoption in the country. The study however revealed that there is a promising future for e-banking in Ghana. Some recommendations to enhance the adoption of e-banking in country are made based on this study.

### **Capital Formation, Governance and Banking**

- Edith Klein 2005

This new volume presents leading international analyses of some of the most dynamic issues in the financial sector. Venture capital in the Singapore as well as the evolution of family firms are examined. The potential conflict of banks as shareholders is scrutinised as well. Other topics here include: interest rates and

their predictability and smoothing, e-banking services, ownership of financial institutions and its potential impact on profitability. In addition, the predominance or lack thereof of foreign banks and the effect of them is viewed from an economic perspective.

### **Electronic Finance** - Stijn Claessens

2002-01-01

Technological developments in electronic finance have changed the nature and delivery of financial services in recent years, especially through the use of online banking, online trading and brokerage services. This report reviews the developments in e-finance and analyses the implications for consumers, financial service providers and governments. Issues discussed include: the impact on competition within the financial services industry; how financial sector policies in emerging markets are affected; public policy and regulatory requirements.

### **Advances in Banking Technology and Management: Impacts of ICT and CRM** -

Ravi, Vadlamani 2007-10-31

Banking across the world has undergone extensive changes thanks to the profound influence of developments and trends in information communication technologies, business intelligence, and risk management strategies. While banking has become easier and more convenient for the consumer, the advances and intricacies of emerging technologies have made banking operations all the more cumbersome. *Advances in Banking Technology and Management: Impacts of ICT and CRM* examines the various myriads of technical and organizational elements that impact services management, business management, risk management, and customer relationship management, and offers research to aid the successful implementation of associated supportive technologies.

[Encyclopedia of Cyber Behavior](#) - Yan, Zheng  
2012-03-31

"This book offers a complete look into the field of

cyber behavior, surveying case studies, research, frameworks, techniques, technologies, and future developments relating to the way people interact and behave online"--Provided by publisher.

[Information Systems Foundations](#) - Dennis N. Hart  
2010-10-01

"This volume contains the papers presented at the Information Systems Foundations Workshop, 30 September - 1 October 2010. This workshop was the fifth in The Australian National University (ANU) series of biennial workshops that was originally inspired by one held in 1999 by Kit Dampney at Macquarie University, and that focuses on the theoretical foundations of the discipline of information systems (IS). The theme of the 2010 workshop was 'Theory Building in Information Systems' and it once again allowed researchers and practitioners in the field of information systems to come together to discuss some of the fundamental issues relating to our discipline."--Preface.

*Design, User Experience, and Usability: Theory and Practice* - Aaron Marcus 2018-07-10

The three-volume set LNCS 10918, 10919, and 10290 constitutes the proceedings of the 7th International Conference on Design, User Experience, and Usability, DUXU 2018, held as part of the 20th International Conference on Human-Computer Interaction, HCII 2018, in Las Vegas, NV, USA in July 2018. The total of 1171 papers presented at the HCII 2018 conferences were carefully reviewed and selected from 4346 submissions. The papers cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of applications areas. The total of 165 contributions included in the DUXU proceedings were carefully reviewed and selected for inclusion in this three-volume set. The 55 papers included in this volume are organized in topical sections on design thinking, methods and practice, usability and user experience evaluation methods and tools, and

DUXU in software development.

*Human Resource Management* - Robert N. Lussier 2017-11-30

Whether your students are HRM majors or general business majors, *Human Resource Management: Functions, Applications, and Skill Development, Third Edition*, will help them build the skills they need to recruit, select, train, and develop talent. Bestselling authors Robert N. Lussier and John R. Hendon explore the important strategic function HR plays in today's organizations. A wide variety of applications, self-assessments, and experiential exercises keep students engaged and help them see the relevancy of HR as they learn skills they can use in their personal and professional lives. A Complete Teaching & Learning Package SAGE Premium Video Included in the interactive eBook! SAGE Premium Video tools and resources boost comprehension and bolster analysis and illustrate HRM in action. Watch this video on Culture Shock for a preview. Learn

more. Interactive eBook Includes access to SAGE Premium Video, multimedia tools, and much more! Save when you bundle the interactive eBook with the new edition. *Customer Adoption and Use of the Electronic Statement Service in Online Banking* - Agnes Nyaradzai Fumhe 2019

This study investigated the adoption and use of emailed statements (e-statement) in the South African electronic banking context. This study examined the factors that influence e-statement adoption and use in an electronic banking context. The main theories used as the basis for the model were: Diffusion of Innovation, Technology Acceptance Model, Technology Resistance Theory and the Service Quality Theory. Other theories explored were the Theory of Reasoned Action, Theory of Planned Behaviour, Task Technology Fit and the Media Richness Theory. Green banking and Green IT were used to understand the role of environmental concern in the adoption of electronic statements. A positivist deductive case study approach was used in which 25 customers of Blue Sky Bank were interviewed during June and July 2016 through purposive

sampling. In order to gain a better understanding of Blue Sky Bank's e-statement initiative, key strategic project management documents were also analysed. Results indicate that while there has been a shift from printed to e-statements, participants preferred to view their online statements, accessed from the mobile app and internet banking platform. Further analysis revealed that the security of the e-statement service was supported while relative advantage, facilitating conditions, environmental concern, and resistance were rejected as antecedents to the adoption and use of e-statements. Trust was only partially supported. Two interesting findings were gathered from this study. Firstly, the motivation behind converting from posted to e-statements was not based on the negative environmental impact of paper, but rather from the convenience that comes with making use of electronic statements. Surprisingly, users are not actively engaged in being environmentally conscious despite the

media attention and emphasis that has been placed by organisations. Although users understood the importance of being environmentally conscious, this did not motivate them to change to their adoption practices. Secondly, the study did not support the proposition that women trust technology less than men. Findings also revealed that the main reason as to why participants preferred online statements accessed from the mobile application and internet banking platforms was because of the retrospective nature of the e-statements that are sent. For example, the historical nature of the transactions that appear on the e-statements makes it difficult to use for budgeting purposes. Also, e-statements are static, and one cannot search, filter and sort financial information as compared to online statements. Real-time updates are also not available on e-statements and therefore participants are unable to use the e-statement for querying purposes as the financial information. This study makes several

contributions to the body of knowledge on electronic banking services. Firstly, this study adds to the depth of the research that has been conducted on the e-statement service. Secondly, this study contributes to IS research by providing a conceptual model and a revised model that tested the factors that influence the adoption and use of e-statements. In addition, the revised model also provides a list of the factors researchers should focus on should they wish to gain more insight into the adoption and use of e-statements. Thirdly, this study provides a practical contribution for banking managers by recommending that they should focus on improving the utility of the e-statement service. Emphasis should be placed on the usability of the e-statement service such as making sure that it is interactive and that it supports search and filter functionality. Future research can focus on longitudinal, in-depth comparative adoption and use studies of e-statements across multiple financial institutions. Alternative research

methods such as usability testing and experiments can also be conducted to assess the journey of an end-user as they transition from posted to e-statements. Practitioners can improve the overall adoption and use of the e-statement system by involving end-users early in the design phase.

**The Routledge Companion to Financial Services Marketing** - Tina Harrison 2014-12-05

Interest in Financial Services Marketing has grown hugely over the last few decades, particularly since the financial crisis, which scarred the industry and its relationship with customers. It reflects the importance of the financial services industry to the economies of every nation and the realisation that the consumption and marketing of financial services differs from that of tangible goods and indeed many other intangible services. This book is therefore a timely and much needed comprehensive compendium that reflects the development and maturation of the research

domain, and pulls together, in a single volume, the current state of thinking and debate. The events associated with the financial crisis have highlighted that there is a need for banks and other financial institutions to understand how to rebuild trust and confidence, improve relationships and derive value from the marketing process. Edited by an international team of experts, this book will provide the latest thinking on how to manage such challenges and will be vital reading for students and lecturers in financial services marketing, policy makers and practitioners.

**Fundamental Approach to Banking Theory and Practices** - Justin P James

It will be a great pleasure for us to present this book to you. It is intended to serve as a textbook on banking theory and practice, and it has been written in accordance with the Kerala University B.com degree credit and semester program's syllabus. It has been our goal to include all relevant information in order to provide a

thorough review of the issues mentioned. The simplicity of the language and the orderly arrangement of all chapters are the book's key features. We've also included questions for recapitulation and a better understanding of the material. Friends and students who thrilled, supported, and assisted us in many ways to publish the work are heartily acknowledged. We are convinced that the book will be extremely useful and beneficial to both students and teachers. Suggestions for improving the book that are constructive and useful would be greatly appreciated and acknowledged.

**ICCWS 2020 15th International Conference on Cyber Warfare and Security** - Prof. Brian K. Payne 2020-03-12

**Contemporary Research in Brand Management (UUM Press)** - Hasnizam Shaari 2018-01-01

This book is about research in brand management and contemporary issues in

marketing. It is designed to bring today's professionals, managers, academicians and students the current research findings relating to issues in branding and marketing across the globe. Generally, branding has been accepted as an important strategy in managing business and marketing activities. This is because effective branding and marketing strategies can help improve business performance and bring up companies to a better position. Hence, this book is a good reference to those who wanted to understand factors influencing product and service brand performance, issues on brand loyalty, consumer purchase intention and Islamic retailing.

Technology Adoption and Social Issues: Concepts, Methodologies, Tools, and Applications - Management Association, Information Resources 2018-02-02

As society continues to experience increases in technological innovations, various industries must rapidly adapt and learn to incorporate

these advances. While there are benefits to implementing these technologies, the sociological aspects still need to be considered. Technology Adoption and Social Issues: Concepts, Methodologies, Tools, and Applications is an innovative reference source for the latest academic material on the various effects of technology adoption, implementation, and acceptance. Highlighting a range of topics, such as educational technology, globalization, and social structure, this multi-volume book is ideally designed for academicians, professionals, and researchers who are interested in the latest insights into technology adoption.

**Handbook of Research on Green, Circular, and Digital Economies as Tools for Recovery and Sustainability** - Ordóñez de Pablos, Patricia 2022-03-11

Global society has simultaneously faced several unprecedented health, social, and economic challenges. Countries need to recover economic growth quickly, boost productivity and job

creation, invest in smart healthcare systems and services, and work toward a climate-neutral and circular economy. The Handbook of Research on Green, Circular, and Digital Economies as Tools for Recovery and Sustainability explores new and emerging frameworks, tools, and strategies to support companies and economies toward a green and digital transformation. It analyzes the role of disruptive technologies, innovative green technologies, and emerging practices all over the world. Covering topics such as corporate sustainability, digital banking, and national innovation systems, this major reference work is an essential resource for educational administration, politicians, government officials, global business leaders, managing directors, libraries, researchers, academicians, educators, and students.

**Banking Theory and Practice, 21th Edition -**

K.C. Shekhar & Lekshmy Shekhar 1974

Banking Theory and Practice covers the entire gamut of topics in the field of banking—from its

evolution to the latest trends. The Indian banking system is undergoing unprecedented changes as a result of new legislations and reforms in response to the contemporary needs. The present edition has kept pace with these developments, including the changes in legislation, growing globalization of banking, as well as the expansion of the banking business to meet the needs of customers for a wider range of services. The book, which was initially aimed to serve the needs of undergraduate students, has over the years deepened and widened in both scope and contents. It is now an essential resource not only for undergraduate students, but also for professional bankers and those who pursue more advanced and practically oriented studies on the subject. KEY FEATURES • Subject matter thoroughly revised and statistical data updated • Covers the move towards universal banking, virtual banking, green banking • Includes flexi bank accounts and speed clearing • Covers Banking Laws

(Amendment) Act, 2011 • A new chapter on Financial Stability, especially in the Indian context • Covers changes in the operating procedure of monetary policy • Payments and settlement system and its development in India, including introduction of NEFT, CTS, National ECS, MICR cheques and RTGS • Learning objectives at the beginning of each chapter • Summary and review questions at the end of each chapter

**ICIW2012-Proceedings of the 7th International Conference on Information Warfare and Security** - Volodymyr Lysenko 2012

**Factors Influencing the Adoption of Internet Banking in Pakistan** - Saadia Khaleel 2012-03

Development in electronic banking technology has produced latest techniques of managing financial transactions, especially through the internet banking channel. In Pakistan, online

banking is still a new technology and in its early stages as compared to developed countries. The key objective of the study is to investigate and analyze the factors that influence the customers to use online banking services. A total of 203 survey sample was tested in this research. Theoretical framework includes security, awareness about services and benefits, quality of internet connection, trust, perceived usefulness, perceived ease of use, intention to use internet banking and attitude towards using. Regression analysis was used to check the inter dependency among the relevant constituent and to test the hypothesis empirically. Results show that security, awareness about services and benefits, quality of internet connection, trust, perceived usefulness, perceived ease of use, attitude towards using have a significant impact on customer perception to use internet banking services.

IT Security Governance Innovations: Theory and Research - Mellado, Daniel 2012-09-30

Information technology in the workplace is vital to the management of workflow in the company; therefore, IT security is no longer considered a technical issue but a necessity of an entire corporation. The practice of IT security has rapidly expanded to an aspect of Corporate Governance so that the understanding of the risks and prospects of IT security are being properly managed at an executive level. IT Security Governance Innovations: Theory and Research provides extraordinary research which highlights the main contributions and characteristics of existing approaches, standards, best practices, and new trends in IT Security Governance. With theoretical and practical perspectives, the book aims to address IT Security Governance implementation in corporate organizations. This collection of works serves as a reference for CEOs and CIOs, security managers, systems specialists, computer science students, and much more. *Corporate customers acceptance of Internet*

*banking: A case study of East African Trade Finance customers* - Silvanse Onyango Abeka  
2013-06-01

It is increasingly more interesting to the bank managers to understand what is important to customers when it comes to Internet banking, and especially banking conducted by the customers themselves. Corporate customers and Internet banking have been studied very modestly in the past, especially the decision-making factors that drive customers to go online. The purpose of this research is to identify the factors that influence corporate customer's adoption of Internet banking services in Kenya, Uganda, Tanzania and Rwanda. The hypotheses are empirically evaluated by the use of Trade Finance customers of an East African bank that serves as a target sample. The Technology Acceptance Model (TAM) is the primary basis for the study. The information gathered from former studies that are mainly concentrating on private customers, acts as a foundation for the

development of an extension of TAM that is suitable for corporate customers. The study involves 137 respondents from Kenya, Uganda, Tanzania and Rwanda. Due to the quantitative nature of the study, the results are analysed with statistical measures which include the use of SPSS in order to carry out regression analysis.

**Global Strategies in Banking and Finance -**

Dinçer, Hasan 2013-10-31

"This book explores the concept of a global industry through case studies, emerging research, and interdisciplinary perspectives applicable to a variety of fields in banking and finance"--Provided by publisher.

Adoption of Virtual Technologies for Business, Educational, and Governmental Advancements -

Sharma, Sushil K. 2012-09-30

"This book provides a wide range of coverage on the adoption of technology, providing a better understanding of the topics, research and discoveries in this significant field"--

Actor-Network Theory and Technology

Innovation: Advancements and New Concepts -  
Tatnall, Arthur 2010-11-30

Actor-Network Theory and Technology Innovation: Advancements and New Concepts provides a comprehensive look at the development of actor-network theory itself, as well as case studies of its use to assist in the explanation of various socio-technical phenomena. This book includes topics relating to technological innovation; both those using actor-network theory as an explanatory framework and those using other approaches. It is an excellent source of information regarding ANT as an approach to technological innovation and its link to ICT (Information Communication Technology).

**Proceedings of International Conference on Human Machine Interaction 2013 (HMI 2013)** - Kokula Krishna Hari K, Ramaraj N, Mohamed Salim BOUHLEL

*Disruptive Technology and Digital*

*Transformation for Business and Government* - Sandhu, Kamaljeet 2021-05-07

With the far-reaching global impact of the COVID-19 pandemic, the demand and the necessity for digital enterprise transformation have accelerated exponentially. Management and strategies for the adoption and wider usage of newer digital technologies for the transformation of an enterprise through digital tools such as real-time video communications have shown that people no longer need to be required to be physically present in the same place; rather, they can be geographically dispersed. Technologies such as artificial intelligence, cloud computing, digital banking, and cloud data have taken over tasks that were initially done by human hands and have increased both the automation and efficiency of tasks and the accessibility of information and services. Inclusion of all these newer technologies has shown the fast pace at which the digital enterprise transformation is rapidly

evolving and how new ecosystems are reshaping the digital enterprise model. *Disruptive Technology and Digital Transformation for Business and Government* presents interesting research on digital enterprise transformation at different stages and across different settings within government and industry, along with key issues and deeper insights on the core problems and developing solutions and recommendations for digital enterprise transformation. The chapters examine the three core leaders of transformation: the people such as managers, employees, and customers; the digital technology such as artificial intelligence and robotics; and the digital enterprise, including the products and services being transformed. They unravel the underlying process for management and strategies to fully incorporate new digital tools and technologies across all aspects of an enterprise undergoing transformation. This book is ideally intended for managers, executives, IT consultants, business professionals, government

officials, researchers, students, practitioners, stakeholders, academicians, and anyone else looking to learn about new developments in digital enterprise transformation of business systems from a global perspective.

*International Conference on Economics and Management Engineering (ICEME2014) - 2014-10-22*

The 2014 International Conference on Economics and Management Engineering (ICEME2014) is held in Hangzhou, China from October 18-19, 2014. The conference aims to provide an excellent international academic forum for all the researchers, practitioner, students and teachers in related fields to share their knowledge and results in theory, methodology and application on economics, management science and management engineering. ICEME2014 features unique mixed topics of Economics, Management Science, Management Engineering and other related ones. ICEME2014 proceeding tends to collect

the most up-to-date, comprehensive, and worldwide state-of-art knowledge on economics, management science and management engineering. All the accepted papers have been submitted to strict peer-review by 2-4 expert referees, and selected based on originality, significance and clarity for the purpose of the conference. The conference program is extremely rich, profound and featuring high-impact presentations of selected papers and additional late-breaking contributions. We sincerely hope that the conference would not only show the participants a broad overview of the latest research results on related fields, but also provide them with a significant platform for academic connection and exchange.

Apps Management and E-Commerce Transactions in Real-Time - Rezaei, Sajad  
2017-03-16

Technology is continuously advancing and changing the way aspects of business are performed. The implementation of mobile

business transactions to acquire various types of goods has changed the landscape of consumerism. Apps Management and E-Commerce Transactions in Real-Time is a timely research publication that features the latest scholarly trends, issues, and implications of the use of a new technological forum in electronic buying and selling. Including extensive coverage on a number of topics and perspectives such as social networks, customer satisfaction, and cloud computing, this book is ideally designed for researchers, academicians, and students seeking current research on mobile solutions in business deals.

Digital Enterprise Transformation - Tansif Ur Rehman 2020-12-14

Nations worldwide have recognized the developmental opportunities and challenges of the emerging information age characterized by Information and Communication Technologies. These technologies are now driving national development worldwide. Digital Enterprise

Transformation facilitates financial organizations by enabling them to be more secure, compliant, and digital. It modifies the experience of employees, partners, customers, and stakeholders. The respective work focuses on exploring the issues related to Digital Enterprise Transformation in the contemporary era, and also highlights, as well as critically analyze the significant role of Digital Enterprise Transformation. This work will facilitate in filling gaps of other studies as it focuses on exploring multifaceted aspects of the respective phenomenon.

**Senior Citizens' Perceptions on E-banking Services** - Dr. Lakshman K.

Senior Citizens' Perceptions On E-Banking Services presents the evolution of banking, the influence of information and communication technologies on banking and its products, and the quintessential role played by computer science in fulfilling banks' marketing objective of servicing senior customers at a lower cost,

reaping more profits. It also highlights the use of advanced statistics and computer science to measure, mitigate and manage various risks associated with banks' business with its customers and other banks. In addition, the book reveals the growing influence of customer relationship management and data mining in tackling various marketing-related problems and fraud detection problems in the banking industry. Over recent years there has been a lack of a comprehensive and accessible textbook that deals with the broad spectrum of banking issues. This book will be insightful for students, academicians, and banking professionals.

**The Economies of the Balkan and Eastern Europe Countries in the Changed World -**

Anastasios G. Karasavoglou 2011-01-18

The rapid changes in the economic and political climate of the Balkan and the Black Sea countries demand continuous adjustments in the mixture of the implemented economic policy in the area. Under this framework, there is a

special interest to investigate the impact of the global economic reality in these economies, the importance of their integration in the European Union, as well as the foundation of various regional organizations that host many countries of the specific area. Taking into consideration the current developments within the European Union, the economic crisis that strikes the peripheral EU countries and the dispute over the credibility of the euro currency, economists need to enhance the effectiveness of regional development, to underline the value of FDI and entrepreneurship of the countries of the Balkan and the Black Sea, to assist the bank sector in order to support the level of productivity, to control the financial flows with the help of auditing structures and to exploit human recourses in order to achieve economical reforms in these countries. The current volume approaches, among others, the above matters and aspires to contribute to the further investigation of the possibilities and the

perspectives of the economies of the region.

Fostering Innovation and Competitiveness With FinTech, RegTech, and SupTech - Boitan, Iustina Alina 2020-09-11

Due to the emergence of innovative technologies, various professional fields are transforming their traditional business practices. Specifically, the financial and legal markets are experiencing this digital transformation as professionals and researchers are finding ways to improve efficiency, personalization, and security in these economic sectors. Significant research is needed to keep pace with the continuous advancements that are taking place in finance. Fostering Innovation and Competitiveness with FinTech, RegTech, and SupTech provides emerging research exploring the theoretical and practical aspects of technologically innovative mechanisms and applications within the financial, economic, and legal markets. Featuring coverage on a broad range of topics such as crowdfunding platforms,

crypto-assets, and blockchain technology, this book is ideally designed for researchers, economists, practitioners, policymakers, analysts, managers, executives, educators, and students seeking current research on the strategic role of technology in the future development of financial and economic activity.

E-Banking and Emerging Multidisciplinary Processes: Social, Economical and Organizational Models - Sarlak, Mohammad Ali 2010-08-31

E-Banking and Emerging Multidisciplinary Processes: Social, Economical and Organizational Models advances the knowledge and practice of all facets of electronic banking. This cutting edge publication emphasizes emerging e-banking theories, technologies, strategies, and challenges to stimulate and disseminate information to research, business, and banking communities. It develops a comprehensive framework for e-banking through a multidisciplinary approach, while taking into

account the implications it has on traditional banks, businesses, and economies.
