From Unification to Nazism - Eley Geoff 2019-07-16

Originally published in 1986, and bringing together essays written over a 10 year period, this volume offers a coherent and challenging interpretation of the German past. The book argues that the German Empire between 1914 and 1918 may have enjoyed greater stability and cohesion than is often assumed. It suggests that Imperial Germany's political institutions showed considerable flexibility and capacity for growth and puts forward the idea that without WWI, or in the event of a German victory, the Empire might well have demonstrated its viability as a modern state. In that case, the origins of fascism should be sought mainly in the subsequent experiences of war, revolution and economic crisis and not so much in the Empire's so-called structural

backwardness.

Love is Served - Seizan Dreux Ellis 2020-04-07

Bright, clean, and hip recipes to enchant vegans, vegetarians, and omnivores alike, from plant-based haven Café Gratitude. Before it was a fixture on the L.A. dining scene and a magnet for celebrity diners, Café Gratitude was founded in the Bay Area with the simple ethos that joy derives from loving and being grateful for food, health, and good company. The dishes are named to double as affirmations of self. "I Am Fearless," "I Am Humble," and "I Am Open-Hearted" nod to the restaurant's core belief that food is just as much about spirit as it is about appetite. Since then, the café has evolved quite a bit. It's changed locations, expanded, and been the backdrop for more paparazzi shots than one can count. But the founding principles have remained the same, and the food continues to celebrate the flavors of plants with organic, from-scratch, and healthful ingredients free of animal products, processed soy, and, in almost all cases, refined sweeteners. Now, with

Love is Served, Seizan Dreux Ellis, executive chef at Café Gratitude, brings Gratitude-quality meals to your table and the soul and mission of the restaurant to your home. Indulge in café favorites "I Am Awakening" (Raw Key Lime Pie) and "I Am Passionate" (Black Lava Cake) while cooking up hearty, nourishing dishes like Grilled Polenta with Mushroom Ragout ("I Am Warm-Hearted") and Radicchio, Roasted Butternut Squash, and Sundried Tomato Pesto Grain Salad ("I Am Gracious"). With unfussy methods and easy-to-access ingredients, this cookbook makes the wholesome satisfaction of the restaurant as accessible as ever for the home cook as it charms and inspires readers to change the way they look at food.

[Not Fit for a Dog!](#) - Dr. Michael W. Fox 2012-09-26

Highlighting the dangers of modern pet food—how it is unbalanced, creates addiction, and often contains ingredients that can literally poison your pet, this book destroys the myths propounded by pet food companies that human food is bad for pets, and that natural food diets are unsafe. Three veterinarians share their expertise and scientific evidence, providing an in-depth appraisal of the pet food industry and what people are feeding to their cats and dogs. This revolutionary book teaches how to read pet food labels and what ingredients to avoid, how to save on pet bills by preventing diet-related disease in pets, why veterinarians are often ignorant of the health effects of manufactured pet food, how a change in diet can cure many diet-related illnesses, and why organic farming practices and suppliers can be the best choice for pets. Armed with this information, people will be able to provide a better and healthier life for their animals.

Putin's People - Catherine Belton 2020-06-23

A New York Times and Sunday Times bestseller | A New York Times Book Review Editors' Choice Named a best book of the year by The Economist | Financial Times | New Statesman | The Telegraph "[Putin's People] will surely now become the definitive account of the rise of Putin and Putinism." —Anne Applebaum, The Atlantic "This riveting, immaculately researched book is arguably the best single volume written about Putin, the people around him and perhaps even about contemporary Russia itself in the past three decades." —Peter Frankopan, Financial Times Interference in American elections. The sponsorship of extremist politics in Europe. War in Ukraine. In recent years, Vladimir Putin's Russia has waged a concerted campaign to expand its influence and undermine Western institutions. But how and why did all this come about, and who has orchestrated it? In *Putin's People*, the investigative journalist and former Moscow correspondent Catherine Belton reveals the untold story of how Vladimir Putin and the small group of KGB men surrounding him rose to power and looted their country. Delving deep into the workings of Putin's Kremlin, Belton accesses key inside players to reveal how Putin replaced the freewheeling tycoons of the Yeltsin era with a new generation of loyal oligarchs, who in turn subverted Russia's economy and legal system and extended the Kremlin's reach into the United States and Europe. The result is a chilling and revelatory exposé of the KGB's revanche—a story that begins in the murk of the Soviet collapse, when networks of operatives were able to siphon billions of dollars out of state enterprises

and move their spoils into the West. Putin and his allies subsequently completed the agenda, reasserting Russian power while taking control of the economy for themselves, suppressing independent voices, and launching covert influence operations abroad. Ranging from Moscow and London to Switzerland and Brooklyn's Brighton Beach—and assembling a colorful cast of characters to match—Putin's People is the definitive account of how hopes for the new Russia went astray, with stark consequences for its inhabitants and, increasingly, the world.

God's Future for Animals - Raymond R. Hausoul 2021-08-16

God loves animals and gives them a special place in creation. So, do animals also have a place in God's work of redemption? Will there be animals on the new Earth? Will we see our beloved pets in the afterlife? This book takes up the challenge to think in a responsible way through these questions. The author focuses in particular on the physical restoration, the prophetic proclamation of the coming animal peace, the attitude of God and humanity towards animals, and the question of the relationship between biblical life, the future of animals, and vegetarianism. What can the Bible and Christian doctrine reveal to us about God's way with animals?
