Literary Theory - Terry Eagleton 2011-11-30

A quarter of a century on from its original publication, *Literary Theory: An Introduction* still conjures the subversion, excitement and exoticism that characterized theory through the 1960s and 70s, when it posed an unprecedented challenge to the literary establishment. Eagleton has added a new preface to this anniversary edition to address more recent developments in literary studies, including what he describes as “the growth of a kind of anti-theory”, and the idea that literary theory has been institutionalized. Insightful and enlightening, *Literary Theory: An Introduction* remains the essential guide to the field. 25th Anniversary Edition of Terry Eagleton’s classic introduction to literary theory First published in 1983, and revised in 1996 to include material on developments in feminist and cultural theory Has served as an inspiration to generations of students and teachers Continues to function as arguably the definitive undergraduate textbook on literary theory Reissue includes a new foreword by Eagleton himself, reflecting on the impact and enduring success of the book, and on developments in literary theory since it was first published

Japanese Portraits - Donald Richie 2006-05-15

The private collections of longtime Japan resident and expert on modern Japanese culture Donald Richie capture the personalities of certain Japanese people—some famous, some unknown—with insight and humor. This extraordinary collection of individual portraits is perhaps the first book about the Japanese to view them entirely unhindered by the various theories about them—people as complicated, as simple, as inscrutable, and as understandable as anyone else. In these fifty-four pieces there are both the famous—Mishima, Kawabata, Mifune, Kurosawa—and the unknown: the would-be geisha, the ex-boxer turned gangster, the scheming bar madame and the old man dying alone. Here is the notorious Sada Abe, who mutilated her dead lover and whose story was filmed in Oshima's *The Realm of the Senses* And here is Oshima himself, dead drunk and making perfect sense; here is the actress who played Abe, exiled in Rome. Here too is the delivery boy who kills himself for love, the girl who loved a Korean, and the actress, a public idol, who suddenly and permanently disappeared from view. And there are dozens of others, individuals who have in common, besides their Japanese nationality, the fact that they knew the author, and that—fortunately for us—he knew them. This highly personal reminiscence forms one of the most original and deeply felt books on Japan ever to appear.

Paulo Freire: Teaching for Freedom and Transformation - John Dale 2010-09-22

The primary mission of this text is clarifying many of the misconceptions about Paulo Freire's theories, concepts and his implications for education. It revisits his ideas and explains more fully the philosophical influences that shaped concepts such as problem posing, conscientization and praxis. The fundamental thesis, then, is that the present absence of in-depth philosophical analysis leaves an unacceptable void in the literature addressing Freire's work, while also promoting frequent misconceptions and superficial understandings about his relationship to contemporary education. Indeed, the philosophical assumptions contributing to Freire's critical pedagogy require identification, unravelling and ultimately evaluation on the basis of their epistemic and moral tenability. Most existing applications of Freire's pedagogy are unfortunately superficial because they simply sloganize terms such as banking education, conscientization,

praxis, and humanization. A slogan in education popularizes a concept or idea in a positive way, but offers very little in terms of critical reflection or analysis. In order to understand these terms and their origin and apply them as Freire intended, a far richer and more in depth examination of Freire is desperately needed. This text will provide precisely that type of examination.

**Rumi's Daughter** - Muriel Maufroy 2010-09-30

Rumi is now acknowledged as one of the great mystical poets of the Western world, with huge sales of the many collections of his poetry. Not much is known about his life except that he lived in thirteenth-century Anatolia (now Turkey), had a great spiritual friendship with a wild man called Shams, brought an adopted daughter into his family, and was distraught when Shams finally disappeared. Rumi's Daughter is the delightful novel about Kimya, the girl who was sent from her rural village to live in Rumi's home. She already had mystical tendencies, and learned a great deal under Rumi's tutelage. Eventually she married Shams, an unusual husband, almost totally absorbed by his longings for God. Their marriage was fiery and different and, in the end, dissolved by Kimya's death - after which Shams vanished. Rumi's Daughter tells Kimya's story with great charm and tenderness. Well written and thought-provoking, it is sure to draw comparison with Paulo Coelho's The Alchemist, and also to add something fresh and new to what is so far known about Rumi.

Achtung-Panzer! - Heinz Guderian 1995

This is one of the most significant military books of the twentieth century. By an outstanding soldier of

independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

*Manish* - Soborno Isaac Bari 2021-10-10

After reading *The Love*, Purohit Mehta became a fan of its author--a child--and sent letters to Indian universities to invite the child for a book talk. The child rejected many invitations due to conflicts with Imam Jalaluddin Zelgai--who provided Taliban training to American Muslim children, some of whom he abused (like ten-year-old Muhammad Abdul). Eventually, the child changed his mind and traveled to India, but some enemies of his--Muhammad Islam and Muhammad Ullah--attempted to assassinate him. The Purohit noticed and protected the child by taking the bullet. The child held the Purohit's falling body and said, "You are not a man. You are a Manish." Upon arrival in New York, the child knocked on the Mecca Mosque door. Suddenly, Imam Zelgai towered over him and said, "Take your chalk and go away." The child responded, "I'm not here for chalk. I'm here for Abdul." The name of the child is Soborno Isaac. He calls this story Manish.

And Q's mom is not about to let anyone ruin this miracle by telling Q about his impending death. Values for Educational Leadership - Graham Haydon 2007-06-04

`If you are intending to embark upon or support others taking part in any of the programmes of the National College for School Leadership I would definitely keep this book close by' - Cliff Jones, CPD Update  
What are values? Where do our values come from? How do our values make a difference to education? For educational leaders to achieve distinction in their practice, it is vital to establish their own clear sense of values rather than reacting to the implicit values of others. This engaging book guides readers in thinking for themselves about the values they bring to their task and the values they intend to promote. Crucially, the book promotes critical thought and constructive analysis about the underlying values involved with: - aims and moral purpose in education - individual qualities in educational leadership - vision in education - school ethos and culture - the school as an educational community. By inviting reflection using valuable case studies and work-through activities, as well as referring to a wide range of academic literature, this book will be an important resource for those working towards professional qualifications such as NPQH, and invaluable for anyone aspiring to excellence in educational leadership. Graham Haydon is Senior Lecturer in Philosophy of Education at the Institute of Education, University of London, where he teaches on Masters courses in Values in Education and Applied Educational Leadership and Management.
