[The Wisdom of the Shamans](#) - Don Jose Ruiz 2019-05-07

For generation after generation, Toltec shamans have passed down their wisdom through teaching stories. The purpose of these stories is to implant a seed of knowledge in the mind of the listener, where it can ultimately sprout and blossom into a new and better way of life. In *The Wisdom of the Shamans: What the Ancient Masters Can Teach Us About Love and Life*, Toltec shaman and master storyteller don Jose Ruiz shares some of the most popular stories from his family's oral tradition

and offers corresponding lessons that illustrate the larger ideas within each story. Ruiz begins by explaining that contrary to the stereotypical image of "witch doctor," the ancient shamans were men and women who fulfilled several roles within their communities: philosopher, spiritual guide, medical doctor, psychologist, and friend. According to Ruiz, their teachings are not primitive or reserved for a chosen few initiates but are instead a powerful series of lessons on love and life that are available to us all. To that

aim, he has included exercises, meditations, and shamanic rituals to help you experience the personal transformation these stories offer. The shamans taught that the truth you seek is inside of you. Let these stories, lessons, and tools be your guide to finding the innate wisdom that lives within.

She learns the Twilight Language of Dreaming, an avenue for understanding the energetic gateways of human existence. Don Juan Matus defines the language of this dream power and doña Celestina tutors on sex, reproduction, and male-female affairs in relation to the state of the world. Twilight Language enables communication between beings of the upper and lower realms. The author describes how it is possible for our individual and collective consciousness to be transported to higher levels. At the conclusion of each of her narratives she offers detailed exercises for experiences in extra-lucid dreaming as well as case studies showing how to apply dreaming techniques in the

“real” world. *Twilight Language of the Nagual* is both a serious navigational aid to other realms revealed through dreams and an exploration of the energy techniques of dream power for healing and enlightenment.

The Mastery of Self - Don Miguel Ruiz, Jr. 2016-01-01
The ancient Toltecs believed that life as we perceive it is a dream. We each live in our own personal dream, and all of our dreams come together to make the Dream of the Planet. Problems arise when we forget that the dream is just a dream and fall victim to believing that we have no control over it. "The Mastery of Self" takes the Toltec philosophy of the Dream of the Planet and the personal dream and explains how a person can: Wake upLiberate themselves from illusory beliefs and storiesLive with authenticity Once released, we can live as our true, authentic, loving self, not only in solitude and meditation, but in any place--at the grocery store, stuck in traffic, etc.--and in any situation or scenario that confronts us. The Ruiz family has an enormous following, and this new book from don Miguel, Jr. will be greeted with enthusiasm by fans around the world. Rainbow Serpent - Merilyn Tunneshende 1999

Beyond Philosophy - Nancy Tuana 2020-09
Questions of whether anything exceeds reasonable sense and meaning have persisted throughout the history of philosophy. These questions have even continued in postmodern thought as well as in liberatory philosophies in which many kinds of events and lineages are experienced and seen as beyond philosophy. In this cowritten text, distinguished philosophers Nancy Tuana and Charles Scott pay particular attention to lineages and their dynamism as they develop the idea of things beyond philosophy, beyond norms. This is not a history

of philosophy or a critical study of a particular philosopher but a way to engage experience around dimensions of events that are beyond measuring, counting, meaning, and value. These attunements, they assert, are vitally important for the ways people orient themselves in the world and comport themselves in it. Tuana and Scott build on the alternatives to normative ethics that they find in the work of Nietzsche, Foucault, and Anzaldúa. They urge attunement to the world as a way to speak about what is impossible to give voice to, to live in the spaces between speech and the unspeakable, and to conceptualize and articulate the boundaries of rational sensibility.

Don Juan and the Power of Medicine Dreaming - Marilyn Tunneshende 2002-04-01

A journey of healing and transformation through Toltec mysticism, shamanic dreaming, and the teachings of the Mayan prophecies. • The author studied with don Juan Matus and the Nagual sorcerers who taught Carlos Castaneda. • Includes numerous transcripts of Toltec Dreamwork sessions, providing examples of how dreamwork can transform personal life challenges. Marilyn Tunneshende learned the secrets of Dream Power, energetic healing, and sorcery from don Juan Matus, the Toltec shaman who mentored Carlos Castaneda. This book is her personal story of over 30 years of interaction with the mystical guides, dreams, and prophecies of the Maya. Through her journey we learn of the power of transmutational energies and how they might be applied to heal and transform our world. Like so many in the early 1970s, Marilyn Tunneshende had plans to travel the world beatnik-style, beginning with Mexico. Traumatized by the sudden death of her fiance after a series of premonitions, Marilyn found her adventurous trip transformed into a path of spiritual awakening, which took her into an intense apprenticeship with Toltec shaman don Juan Matus. After becoming a fully initiated Toltec sorceress and Nagual Dreaming Woman, she experienced a second trauma that threw her from the path of mystical study back into the everyday world of the West. For years she pursued her career as a teacher and linguist--all but dismissing her former mystical experiences as madness. When a series of dreams begin to pervade her consciousness and she received a heart-breaking diagnosis that she had AIDS, Marilyn returned

to the world of Mayan prophecy and nagualist training in order to unleash the powers of transmutative energies in healing her own body and actualizing transcendent liberation.

Coyote Anthropology - Roy Wagner 2010-07-01

Coyote Anthropology shatters anthropology's vaunted theories of practice and offers a radical and comprehensive alternative for the new century. Building on his seminal contributions to symbolic analysis, Roy Wagner repositions anthropology at the heart of the creation of meaning—in terms of what anthropology perceives, how it goes about representing its subjects, and how it understands and legitimizes itself. Of particular concern is that meaning is comprehended and created through a complex and continually unfolding process predicated on what is not there—the unspoken, the unheard, the unknown—as much as on what is there. Such powerful absences, described by Wagner as “anti-twins,” are crucial for the invention of cultures and any discipline that proposes to study them. As revealed through conversations between Wagner and Coyote,

Wagner's anti-twin, a coyote anthropology should be as much concerned with absence as with presence if it is to depict accurately the dynamic and creative worlds of others. Furthermore, Wagner suggests that anthropologists not only be aware of what informs and conditions their discipline but also understand the range of necessary exclusions that permit anthropology to do what it does. Sly and enticing, probing and startling, Coyote Anthropology beckons anthropologists to draw closer to the center of all things, known and unknown.

Shamanic Awakening - Sandra Corcoran 2014-03-02

One woman's mystical path through grief into renewal, expanded awareness, and discovery of her own healing capabilities • Offers a lens into a wide variety of wisdomkeeping traditions and alternative healing paradigms throughout the Americas and Europe • Shows how the mystical path enables us to find renewal in times of profound loss • Details the author's awakening to the energies of the cosmos, which can guide us toward our destiny, balanced between our soul's dark and light energies How do you find renewal after loss, especially the loss of a child? How do you find purpose and courage when loss is your constant teacher? After weeks of profound grief following the loss of her young daughter, Sandra Corcoran found herself inexplicably at a life-changing workshop on indigenous teachings and energy

healing. With the first glimpse of the light that called her to the workshop, Corcoran found herself beginning a 30-year metaphysical journey within, initially to heal her grief but eventually leading her from the darkness into the light of her own soul's evolution. Working with Native elders and indigenous wisdomkeepers throughout North, Central, and South America, Corcoran opened her heart to the immensity of the living energies of the cosmos and discovered her shamanistic gifts as an intuitive counselor, dreamtime decoder, and facilitator for others' self-healing. As she learned to discern these living energies and work with them, she also discovered the middle path between the soul's dark and luminous energies, striking the balance that allows us to fulfill our destiny. Sharing the core teachings of her many indigenous and esoteric mentors, including lessons in synchronicity, metaphysics, the extraordinary power of the heart, multi-dimensional realms, and energy healing, Corcoran leads readers on an adventure across continents through birth, death, ceremony, and ritual to renewal and the frontiers of expanded consciousness. She shows that no matter how far outside of the familiar we are led, we are guided back to ourselves and offered another opportunity to embrace our world and, ultimately, find our place in it.

The System of Antichrist - Charles Upton 2005

The System of Antichrist examines the present religious and cultural scene from the standpoint of traditional metaphysics and critiques the New Age spiritualities within their postmodern context. Its many references to Rene Guenon and Frithjof Schuon also help introduce these important but little-known 'traditionalist' thinkers. The book presents lore relating to the 'latter days' of the present cycle from the vantage point of

comparative religion, drawing upon relevant doctrines from Buddhism, Hinduism, Judaism, Christianity, Islam, Zoroastrianism, and the Native American traditions. It also speculates upon the social, psychic, and spiritual nature of that being known to Christianity, Judaism, and Islam as the Antichrist, presenting him as both an individual and a system and warning those willing to be warned against the spiritual seduction and terror he represents, and against the regime which will be-and is-the social expression of that seduction and that terror. Finally, in tracing the roots of Antichrist in the fallen nature of man, the author sketches the particular quality of spirituality proper to apocalyptic times, the dangers it faces, the unique opportunities open to it. And along the way he describes his own course from the 'spiritual revolution' of the 1960s, through the world of New Age spiritualities, to the threshold of traditional esoterism and metaphysics. As he says, speaking of the angst that characterizes the modern world: 'The specific medicine for the shock of despair is the deeper shock of meaning. Nothing but the weight of eternity, breaking through the thin, brittle shell of the postmodern sky, can set us on our feet.'

Power of Silence - Carlos Castaneda 1991-06

What's a Cellphilm? - Katie MacEntee 2016-07-27

What's a Cellphilm? explores cellphone video production for its contributions to participatory visual research. There is a rich history of integrating participants' videos into community-based research and activism. However, a reliance on camcorders and digital cameras has come under criticism for exacerbating unequal power

relations between researchers and their collaborators. Using cellphones in participatory visual research suggests a new way forward by working with accessible, everyday technology and integrating existing media practices. Cellphones are everywhere these days. People use mobile technology to visually document and share their lives. This new era of democratized media practices inspired Jonathan Dockney and Keyan Tomaselli to coin the term cellphilm (cellphone + film). The term signals the coming together of different technologies on one handheld device and the emerging media culture based on people's use of cellphones to create, share, and watch media. Chapters present practical examples of cellphilm research conducted in Canada, Hong Kong, Mexico, the Netherlands and South Africa. Together these contributions consider several important methodological questions, such as: Is cellphilm a new research method or is it re-packaged participatory video? What theories inform the analysis of cellphilms? What might the significance of frequent advancements in cellphone technology be on cellphilms? How does our existing use of cellphones inform the research process and cellphilm aesthetics? What are the ethical dimensions of cellphilm use, dissemination, and archiving? These questions are taken up from interdisciplinary perspectives by established and new academic contributors from education, Indigenous studies, communication, film and media studies.

Shamanic Quest for the Spirit of Salvia - Ross Heaven
2013-05-20

The first practical guide to the transformative uses of salvia • Explains how salvia connects you with your higher purpose and aids you in envisioning your unique path in life • Describes appropriate methods of use, a shamanic diet to increase effectiveness, and the meaning of the symbols experienced during salvia's ecstatic embrace • Explores recent clinical research into salvia's long-term positive psychological effects and its potential as a treatment for Alzheimer's, depression, and addiction Salvia divinorum has been used since ancient times by the Mazatec shamans of Mexico for divination, vision quests, and healing. Known by many names--nearly all associated with the Virgin Mary, who has come to symbolize the spirit of salvia--this plant ally is now regarded as the most powerful natural hallucinogen. Providing the first practical guide to the shamanic, spiritual, and therapeutic uses of salvia, Ross Heaven shares his in-depth quest to connect with the spirit of this plant teacher. He explores recent clinical research into its many long-term psychological effects, such as increased insight and self-confidence, improved mood and concentration, and feelings of calmness and connection with nature, as well as salvia's potential for combating diseases like Alzheimer's, depression, and even cocaine addiction. Reviewing the traditional Mazatec ceremonies surrounding salvia's harvest and use, Heaven describes appropriate methods of consumption, typical dosages, and the shamanic diet he used to increase salvia's effectiveness. Examining firsthand accounts of salvia journeys from around the world, he decodes the meaning of the symbolic images experienced during salvia's ecstatic embrace and details

the interplay between salvia and the lucid dreaming state. Comparing salvia to ayahuasca and the San Pedro cactus, Heaven explains that salvia's greatest strength as a shamanic plant ally lies in its ability to connect you with your higher purpose and aid you in envisioning your unique path in life.

The Invention of Culture - Roy Wagner 2016-11-21

"This new edition of one of the masterworks of twentieth-century anthropology is more than welcome...enduringly significant insights."—Marilyn Strathern, emerita, University of Cambridge
In the field of anthropology, few books manage to maintain both historical value and contemporary relevance. Roy Wagner's *The Invention of Culture*, originally published in 1975, is one that does. Wagner breaks new ground by arguing that culture arises from the dialectic between the individual and the social world. Rooting his analysis in the relationships between invention and convention, innovation and control, and meaning and

context, he builds a theory that insists on the importance of creativity, placing people-as-inventors at the heart of the process that creates culture. In an elegant twist, he also shows that this very process ultimately produces the discipline of anthropology itself. Tim Ingold's foreword to the new edition captures the exhilaration of Wagner's book while showing how the reader can journey through it and arrive safely--though transformed--on the other side.

Toltec Dreaming - Ken Eagle Feather 2007-06-11

A metaphysical instruction manual on the role of dreaming in the Toltec tradition • Describes the energy body, its modes of perception, and how it produces dreaming • Provides an outline of the dream gates showing how they correspond to the chakras • Includes detailed instructions for awakening dreaming potential and for exercising and expanding the dreaming body--what to expect and how to respond Toltec Dreaming explores the many aspects and levels of the dream-state, distinguishing ordinary dreaming from "dreaming awake," a condition of heightened awareness through which the active dreamer ascends to the Dream of Transcendence. In this book, Ken Eagle Feather presents the history of dreaming's place within the Toltec tradition and provides a practical how-to manual for achieving and maximizing dreaming potential. The Toltec Way superimposes on the waking world the subtle physics of the dream world in order to create a conscious dreaming body, often referred to as an "out-of-body experience," that can allow anyone to use dreaming as a vehicle to

higher consciousness. Once the dreaming energies are fully awakened, unbounded conscious perception can come alive, whether one is in the world of dreams or in daily life. The author shows how to communicate while in the dreaming body and indicates what one may encounter in the dream. He also identifies barriers to dreaming and includes instructions for detaching the dream body from the waking ego. Filled with techniques that stimulate dreaming and the development of the dreaming body, this book will guide practitioners along the Toltec Way of the Dream.

Adam Jacot de Boinod's book on extraordinary words from around the world will give you the definitions and phrases you need to make friends in every culture. A true writer's resource and the perfect gift for linguists, librarians, logophiles, and international jet-setters. While there's no guarantee you'll never pana po'o again (Hawaiian for "scratch your head in order to help you remember something you've forgotten"), or mingmu (Chinese for "die without regret"), at least you'll know what tingo means, and that's a start. "A book no well-stocked bookshelf, cistern top or handbag should be without. At last we know those Eskimo words for snow and how the Dutch render the sound of Rice Krispies. Homo Serpiens - Aeolus Kephias 2011-06

Homo Serpiens investigates the millennia-long "psi-opa" known as culture and the various socio-religious systems of worship that have shaped and directed humanity's evolution until now. Mapping a flow of archetypes,

beliefs, and practices from Ancient Egypt, through the wilderness with Moses and the Israelites, into the Ministry of Christ, the Gnostic movement and the inception of Christianity, Aleister Crowley's Law of Thelema, Hitler and the National Socialists, and finally the UFO contact cults and alien abduction rituals of modern times, Homo Serpiens unveils an occult agenda behind history and the mythic narrative of Masonic Sorcery Theater that drives it. Drawing on the works of C.G. Jung, Rudolph Steiner, and Philip K. Dick, this work interprets all human and even trans-human manipulations as side effects of an even deeper process of DNA-activation, Kundalini rising, and species mutation, from personal to galactic consciousness, into 2012 and beyond. Homo Serpiens is a grimoire for the end times. Chapters include: A Fellowship of the Rings; Homoplasmate and Apotheosis of Species; The Egyptian Strand; The Judaic Strand; The Aiwaz Working; The Nazi Strain; The Humalien Agenda and the Return of "the Godsa; The Goddess Revival; The Lucifer Coil; more. Aeolus Kephias has dedicated much of his life to the study of philosophy, world folklore, comparative religion, Jungian psychology, parapolitics, and the so-called "paranormal." He has traveled extensively throughout his life and continues to do so. He has lived on three different continents. Kephias is devoted to mapping worlds both inner and outer. He is currently hosting a podcast, "Stormy Weather: News from the Front Line in the End Times, as well as setting up "Crisis-Gnosis Management, an "Existential Detective Agency." His twenty-year researches for The Lucid View and Homo Serpiens have led him into the realms of paranoid awareness, surrealism, mind control, ritual abuse, shamanism, demonology, and alien abductions. Against all

odds, he has kept his sense of humor intact.

Journey To Ixtlan - Carlos Castaneda 2012-04-17

In Journey to Ixtlan, Carlos Castaneda introduces readers to this new approach for the first time and explores, as he comes to experience it himself, his own final voyage into the teachings of don Juan, sharing with us what it is like to truly "stop the world" and perceive reality on his own terms. Originally drawn to Yaqui Indian spiritual leader don Juan Matus for his knowledge of mind-altering plants, bestselling author Carlos Castaneda immersed himself in the sorcerer's magical world entirely. Ten years after his first encounter with the shaman, Castaneda examines his field notes and comes to understand what don Juan knew all along—that these plants are merely a means to understanding the alternative realities that one cannot fully embrace on one's own.
