Small Things Considered - Henry Petroski
2007-12-18

Why has the durable paper shopping bag been largely replaced by its flimsy plastic counterpart? What circuitous chain of improvements led to such innovations as the automobile cup holder and the swiveling vegetable peeler? With the same relentless curiosity and lucid, witty prose he brought to his earlier books, Henry Petroski looks at some of our most familiar objects and reveals that they are, in fact, works in progress. For there can never be an end to the quest for the perfect design. To illustrate his thesis, Petroski tells the story of the paper drinking cup, which owes its popularity to the discovery that water glasses could carry germs. He pays tribute to the little plastic tripod that keeps pizza from sticking to the box and analyzes the numerical layouts of telephones and handheld calculators. *Small Things Considered* is Petroski at his most trenchant and provocative, casting his eye not only on everyday artifacts but on their users as well.

Life's Imponderables - David Feldman 2000

The Science Files - Richard Zurawski
2013-08-02T00:00:00Z

Conventional wisdom has it that science is boring. "The Science Files," an hourly radio call-in talk show about science, is anything but boring, and certainly none of the listeners, emailers or tweeters who participate in the call-in radio talk show think science is boring either. Richard Zurawski has been hosting "The Science Files" for eight years and has fielded literally thousands of questions. This book, *The Science Files*, is about the questions that listeners have been asking about science and the way the world, nature and the universe works. Compiled by Zurawski, the questions and answers in this book are lively, engaging and interesting discussions about a wide range of topics. Present throughout is Zurawski's passion for learning and his genuine fascination with the natural world. Furthermore, *The Science Files* is a dialogue that encourages readers and participants alike to continue to learn and to ask questions.

The Many Tongues of Literacy - Ray B. Browne
1992-06

Statistics indicate that more than half the population of America is illiterate or subliterate in the conventional sense, but very literate in other media such as television, sports, and leisure time activities. But statistics can lie or tell only half a fact. Since the languages of literacy are constantly expanding and developing, it is time that American educators, and the public in general, reexamine their definitions of literacy and the media in which we need to be literate.

Therefore, educators must redefine literacy if they are to be realistic about its sources, uses, and values. The need is vital to a developing world.

Wait Until Tuesday - John M. Garrett 2017-02-17

What if you could save a life, even in death? What if a part of you could live on and give a new life a new heartbeat to another person in need? Organ donation is this ultimate gift of life, and for one man and his family, waiting for this miracle gift would be a lesson in life, faith, and hope. In *Wait until Tuesday*, author John M. Garrett shares his compelling story of waiting for a heart transplant while trying not to die. After a series of close calls, John is finally told he needs a heart transplant, but he is made aware of the fate of

many awaiting transplantation that there is a serious shortage of organs, and many die before their gift can arrive. But also a story of never giving up, Wait until Tuesday offers a window into the mind of a man fighting to stay present and strong for both himself and his family. His perseverance and his eventual gift of life would not only give him a second chance, but it would also give the world an advocate for the miracle of organ donation and transplantation. Even though a great majority of adults are in favor of organ donation and transplantation, only 2 percent of those who die become organ donors due to a fear, health factors, age, and other unknowns. Explore this personal chronicle of one man's gift of life and all the courage, faith, and support it takes to make the miracle of transplantation possible.

The Day It Finally Happens - Mike Pearl

2020-09-22

From a VICE magazine columnist, “a deeply entertaining—if occasionally horrifying” (Joshua Piven, coauthor of *The Worst-Case Scenario Survival Handbook*) look at how humanity is likely to weather such happenings as nuclear war, a global internet collapse, antibiotics shortages, and even immortality. If you live on planet Earth you're probably scared of the future. How could you not be? Some of the world's most stable democracies are looking pretty shaky. Technology is invading personal relationships and taking over

jobs. Relations among the three superpowers—the US, China, and Russia—are growing more complicated and dangerous. A person watching the news has to wonder: is it safe to go out there or not? Taking inspiration from his virally popular VICE column “How Scared Should I Be?,” Mike Pearl games out many of the “could it really happen?” scenarios we've all speculated about, assigning a probability rating, and taking us through how it would unfold. He explores what would likely occur in dozens of possible scenarios—among them the final failure of antibiotics, the loss of the world's marine life, a complete ban on guns in the US, and even contact with extraterrestrial life—and reports back from the future, providing a clear picture of how the world would look, feel, and even smell in each of these instances. For fans of such bestsellers as *What If?* and *The Worst Case Scenario Survival Handbook*, *The Day It Finally Happens* is about taking future events that we don't really understand and getting to know them in close detail. Pearl's “well-researched speculations induce daydreams and nightmares and mark [him] as one of his generation's most interesting writers” (Alec Ross, *New York Times* bestselling author).

The Size of Thoughts - Nicholson Baker

2011-08-24

The Size of Thoughts, a collection of essays that have appeared in the New Yorker and other publications, includes one never-before-published piece on the world of electronics. The essays celebrate the joy--and exquisite details--of everything from library card catalogs and reading aloud to the significance of wine stains on a tablecloth. Baker turns any subject, from feeding a child to phone sex, into literature with a style that is sparkingly original, frequently beautiful, and always thought-provoking. The Size of Thoughts, through its varied forays into the realms of the overlooked, the underfunded, and the wrongfully scrapped, is a funny book by one of the most distinctive stylists and thinkers of our time.

How to Sell Your Idea to Hollywood - Robert

Kosberg 2011-07-14

How to find develop, pitch, and sell your ideas for films to the movie studios, from the man Sherry Lansing calls the best idea man in Hollywood.

How to Sell Your Idea to Hollywood gets to the very heart of the script: the idea. A mere idea can land you fame, fortune and status. At the very least, it can be your way into the movie business.

This book can show you just how powerful an idea can be in Hollywood. Ideas are not a dime a dozen great ideas are one in a million. Even if you cannot write a script, you can definitely come up with an idea. Once you have an idea, you can use that idea as leverage to get yourself into the movie game. If your main goal is to be a screenwriter, you still need to start with a good idea, which can help you make a deal to write your script for a studio (or you might choose to just sell your idea or your story). Successful producer Robert Kosberg has never met anyone who didn't have an idea. And this book will help you to learn how to find ideas, create ideas and pitch them to the right people. You'll also learn

what a high concept idea is and most importantly, how to get your ideas to the right people.

Remember you control the rights to your own ideas and that's why ideas are so powerful. How to Sell Your Idea to Hollywood encourages people at all levels who are attempting to get their break in the business. It has everything you need to know to sell your ideas to the movies. If you never thought you had something to offer the movie business you do!

An Other Tongue - Alfred Arteaga 1994

As our millennium draws to a close, we find ourselves in the midst of great and rapid global changes with nations and political systems dissolving all around us and the world becoming one of shifting identities--of peoples unified and divided by such distinctions as nationality, ethnicity, race, religion, and colonial status. The articulation and construction of these distinctions, the very language of difference, is the subject of An Other Tongue. This collection of essays by a group of distinguished scholars, including Norma Alarcón, Gayatri Spivak, Tzvetan Todorov, and Gerald Vizenor, explores the interconnections between language and identity. The Chicanos, the U.S./Mexico borderland polyglots whose sense of history, nationality, and race is as mixed as their language, are the book's prime example. But the authors recognize that border zones, like diasporas and post-colonial relations, occur globally, and their discussion of hybrid or mestizo identities ranges from the United States to the Caribbean to South Asia to Ireland. Drawing on personal experience, readings of poetry and fiction, and cultural theory, the authors detail the politics of being human through the mediation of

language. What does "shadow" mean to the Native American Indian, or diaspora to the East Indian immigrant? How does British colonialism yet affect Irish and Indian nationalist literary production? Why is the split between Eastern and Western European language use necessarily schizophrenic? So much of our sense of difference today is constructed as we speak, and An Other Tongue speaks with eloquence to this phenomenon and will be of great interest to those concerned with the discourse of post-colonial studies, critical theory, and the remapping of world literature. Contributors. Norma Alarcón, Alfred Arteaga, Juan Bruce-Novoa, Cordelia Chávez Candelaria, Michael G. Cooke, Edmundo Desnoes, Eugene C. Eoyang, David Lloyd, Lydie Moudileno, Jean-Luc Nancy, Tejaswini Niranjana, Ada Savin, Gayatri Chakravorty Spivak, Michael Smith, Tzvetan Todorov, Luis A. Torres, Gerald Vizenor

Flip to another page and there's a whole bunch of facts about how long things take (a yak's gestation

period: 258 days). On another page: kid facts (the average four-year-old laughs 400 times per day; grownups, about 15). So be smarter and laugh a lot more with this amazing collection that features thousands of great facts, plus word origins, myth-conceptions, conspiracy theories, and much, much more! Arranged for simple and speedy reference, this book is the perfect companion for trivia buffs and knowledge junkies everywhere!

Are Lobsters Ambidextrous? - David Feldman
2009-10-06

The sixth book in David Feldman's bestselling Imponderables® series, packed with even more answers to perplexing questions and solutions to everyday mysteries. Culled from the thousands of letters submitted by desperate fans, the questions in *Are Lobsters Ambidextrous?* would have overwhelmed a lesser authority than David Feldman. Has anyone ever seen a live Cornish game hen? When a body is laid out in a funeral home, why is the head always on the left side from the viewer's vantage point? Why is there no Betty Rubble in Flintstones vitamins? What are the little numbers on the bottom right of cancelled checks? Why do quarterbacks always say "Hut"? Why do dogs eat standing up while cats often eat sitting down? What does the "Q" in "Q-tips" stand for? What do they do with the caffeine left over from making decaffeinated coffee? And more! With 141 irresistible entries, charming illustrations by longtime Imponderables®

collaborator Kassie Schwan, and almost 100,000 copies sold in combined editions, *Are Lobsters Ambidextrous?* is an Imponderables® classic.

Reference Librarianship - Peter Sprenkle
2013-04-03

A daily diary of actual interactions between a reference desk librarian and his patrons. *Reference Librarianship* documents a year in the life of a young librarian working in the "trenches" at a library in the Midwestern United States. This one-of-a-kind book provides a daily diary of every librarian/patron transaction—no matter how mundane or absurd—to demonstrate not only how advances in technology have affected the reference librarian's job, but how the public's expectations have changed, as well. The book also includes observations by a now-retired reference librarian on the current state of the field based on these unedited interactions. Over the past two decades, the job of reference librarian has seen many changes. But in many ways, reference desk work hasn't changed a bit, with its mix of odd, humorous, routine, and ridiculous requests that capture what it's like to deal with patrons day after day. *Reference Librarianship* paints a clear picture of the field for library school students, provides emotional and philosophical

support to practitioners, and reminds library administrators of what life was like on the “front lines.” A sampling of the daily transactions documented in *Reference Librarianship: Monday, May 19, 2003*: pencil pencil network down I tell people that I can’t sign them up for an Internet terminal because the network is down and they just stand there, staring into space One of them asks for three days worth of newspapers microfiche machine explanation Sorry, Sir, the network is still down (multiply by twenty and insert randomly into the remainder of the day) magic tricks, but he pretty much knew where they were One of our large interior plate glass windows shattered. No one was hurt and it made a fascinating noise, like a crystal waterfall landing on soil. “Books on prostitution, you know—whores?” Someone from the County called to ask if any criminal activity had occurred on a particular street. Someone else referred her to us. She was dubious—with good reason. “Math puzzles.” Okay. I show him the books. “Just math.” Certainly. I show him the books. “I need them in Spanish.” Grrr ... *Reference Librarianship* is an enlightening, educational, and entertaining look at the real world of reference desk work. It’s an essential read for reference librarians (both public and academic), library administrators, and library school students, as well as anyone who works with the public.

Imagine a City - Mark Vanhoenacker 2022-07-05

This love letter to the cities of the world—from the airline pilot—author of *Skyfaring*—is "a journey around both the author's mind and the planet's great cities that leaves us energized, open to new experiences and ready to return more hopefully to our lives" (Alain de Botton, author of *The Art of Travel*). In his small New England hometown, Mark Vanhoenacker spent his childhood dreaming of elsewhere— of the distant, real cities he found on the illuminated globe in his bedroom, and of one perfect metropolis that existed only in his imagination. These cities were the sources of endless comfort and escape, and of a lasting fascination. Streets unspooled, towers shone, and anonymous crowds bustled in the places where Mark hoped he could someday be anyone—perhaps even himself. Now, as a commercial airline pilot, Mark has spent nearly two decades crossing the skies of our planet and touching down in dozens of the storied cities he imagined as a child. He experiences these

destinations during brief stays that he repeats month after month and year after year, giving him an unconventional and uniquely vivid perspective on the places that form our urban world. In this intimate yet expansive work that weaves travelogue with memoir, Mark celebrates the cities he has come to know and to love, through the lens of the hometown his heart has never quite left. As he explores emblematic facets of each city's identity— the road signs of Los Angeles, the old gates of Jeddah, the snowy streets of Sapporo—he shows us with warmth and fresh eyes the extraordinary places that billions of us call home.
