**More Lives Than One: The  
Extraordinary Life of  
Felix Dennis** - Fergus  
Byrne 2015-09-10

Canny, infuriating,  
cynical and generous by  
turns, Felix Dennis was  
a true one-off. When he  
died in 2014 he was a  
multi-millionaire. Yet  
he spent his last months  
writing poetry and  
planting the millionth  
tree in his own forest  
in Warwickshire.

Journalist Fergus Byrne

got to know him well in this time and was granted exclusive access to Dennis's archives and papers. He found everything had been kept and, along with hours of interviews with girlfriends, family, staff and friends the world over, he has now written the only authorised biography of a man who described himself as lucky to have led several lives. His early rebellious days started with dropping out of grammar school, playing in a rock 'n' roll band, and being imprisoned (with Richard Neville and Jim Anderson) for charges of obscenity relating to a priapic Rupert Bear in the 'schoolkids' issue of the magazine Oz. The launch of Kung-Fu magazine, created when Dennis spotted a queue at a Leicester Square cinema for a Bruce Lee film, changed his

fortunes. An industrious and self-destructive era then followed. He moved to America, added the magazines MacUser and Maxim to his portfolio, but also discovered crack, hookers and S & M. When his lifestyle led him to hospital, he gave up the drugs overnight and took to writing poetry. He acquired a mansion in Warwickshire, bought a much loved home in Mustique from rock star David Bowie, gave generously to charities, planted the largest broadleaf forest in Britain, and published several volumes of verse promoted by very well received readings nationwide. This is a hugely readable account of one of the most extraordinary characters of our time.

**Project Based Teaching** - Suzie Boss 2018-09-20  
It's no secret that in today's complex world, students face unparalleled demands as they prepare for college, careers, and active citizenship. However, those demands won't be met without a fundamental shift from traditional, teacher-centered instruction toward innovative, student-centered teaching and learning. For schools ready to make such a shift, project-based learning (PBL) offers a proven framework to help

students be better equipped to tackle future challenges. Project Based Teachers encourage active questioning, curiosity, and peer learning; create learning environments in which every student has a voice; and have a mastery of content but are also comfortable responding to students' questions by saying, "I don't know. Let's find out together." In this book, Suzie Boss and John Larmer build on the framework for Gold Standard PBL originally presented in Setting the Standard for Project Based Learning and explore the seven practices integral to Project Based Teaching: Build the Culture Design and Plan Align to Standards Manage Activities Assess Student Learning Scaffold Student Learning Engage and

Coach For each practice, the authors present a wide range of practical strategies and include teachers' reflections about and suggestions from their classroom experiences. This book and a related series of free videos provide a detailed look at what's happening in PBL classrooms from the perspective of the Project Based Teacher. Let's find out together. A copublication of ASCD and Buck Institute for Education (BIE).
