**Reeds Lights, Shapes and Buoyage Handbook** - Simon Jollands 2019-03-07

It's easy to confuse (or forget) what particular lights, marks and shapes mean – especially under stress or in the dark – but with this handy book, help is quickly at hand. Laid out simply & clearly for quick accessibility, it enables crew, navigators, skippers and even casual day guests aboard to quickly identify the lights, marks and shapes being displayed by other ships at night as well as during the day. A ready reckoner reminder of: -Cardinal buoys and channel markers -Lights displayed by ships at night (tugs, dredgers, pilot vessels, stationary vessels, fishing boats, yachts, motorboats) and from all aspects (front, side, astern) -Daytime shapes displayed by boats (e.g. for anchoring, towing, diving, dredging) -Ships' sound signals (used in fog) -Signal flags and their navigational meanings (I am dragging my anchor; You are running into danger; I have a diver down). These lights, shapes and marks are applicable worldwide, by maritime law, which makes this international handbook a valuable and popular addition to the Reeds Handbook series.

[The Adlard Coles Book of Radar](#) - Borje Wallin 2013-09-12

Radar is notoriously tricky to operate and 'read' correctly for collision avoidance either with the land or with other vessels. But used by an informed operator it is an immensely valuable navigation tool - especially in poor visibility. GPS will tell you where you are, but it won't tell you if there's another boat in that spot! Rather than taking a theoretical, academic approach, this book is highly practical and hands on - complementing the radar owner's manual and explaining what the operator really needs to know when faced with actual situations at sea. Packed with illustrative photos, charts and radar screen shots, this book gives guidance from a real life, on-the-water perspective, and will enable readers to solve problems on the spot.

**The Complete Ocean Skipper** - Tom Cunliffe 2016-04-14

Following on from his bestselling *The Complete Day Skipper* and *The Complete Yachtmaster*, yachting legend Tom Cunliffe turns his attentions to the third strand of the RYA syllabus. With the same hugely popular, highly practical approach, *The Complete Ocean Skipper* covers everything a yachtsman needs to know when planning an offshore cruise or ocean passage. All aspects of planning and preparing for – as well as setting out on – a long-distance cruise are featured: - Preparation: types of suitable boat, choice of rig, engine power, safety equipment, communication systems, crew preparation - On passage: ocean weather systems, forecasting, deck routines, watchkeeping, self-steering, emergencies, heavy weather techniques - Ocean navigation: electronic as well as celestial A unique and definitive handbook, *The Complete Ocean Skipper* goes beyond the theory of the RYA syllabus to ensure that readers are equipped with the knowledge of both what to do and how to go about it, in whatever circumstances. A veteran offshore yachtsman as well as an RYA examiner, Tom Cunliffe brings his experience to bear and packs this must-have guide with invaluable hands-on advice for offshore and coastal sailors alike. With clear, helpful colour photographs and diagrams throughout, this is the essential book for anyone planning for or dreaming about sailing further afield.

**Safe Skipper** - Simon Jollands 2015-03-12

Whether out for an afternoon's sail or embarking on a long offshore passage, there is always an element of chance and uncertainty about being at sea. To be responsible for the wellbeing of both crew and vessel, a good skipper needs to know their limitations and ensure they are operating well within the margins of safety. *Safe Skipper* is a practical and thought provoking guide for yacht skippers of all levels of experience, full of invaluable advice and tips on how to reduce to the minimum the risks of mishaps and equipment failure at sea. There's a wide range of information on seamanship, preparation, seaworthiness, gear, boat handling, leadership, teamwork, watch keeping, communications, navigation, weather and emergency procedures, all delivered in a highly practical, lively, non-preachy fashion. Included throughout are useful checklists, box-outs and case studies of accidents and their causes, with survivors' testimonials and explanations of how disasters were avoided, or could have been, all of which provides valuable lessons for everyone who goes to sea.

**RYA Powerboat Logbook** - Rya 2013-01-01

**We, the Navigators** - David Lewis 1994-05-01

This new edition includes a discussion of theories about traditional methods of navigation developed during recent decades, the story of the renaissance of star navigation throughout the Pacific, and material about navigation systems in Indonesia, Siberia, and the Indian Ocean.

**The Complete Yachtmaster** - Tom Cunliffe 2017-09-07

*The Complete Yachtmaster* has been a bestseller since first publication and has established itself as the standard reference for Yachtmaster students as well as skippers of all levels of experience. In this fully revised and up-to-date 9th edition, Tom Cunliffe brings together all the essentials of modern cruising in one volume. He presents an analysis of a good skipper, the theory and practice of sailing and sail trim, the art of seamanship, accurate navigation including chart plotters and PCs, understanding meteorology, heavy

weather preparation, understanding yacht stability and coping with emergencies. The Complete Yachtmaster builds knowledge as it builds sailing confidence, guiding examination candidates as authoritatively and reassuringly through the RYA syllabus as a sea pilot bringing a ship safely to harbour. Required reading for all skippers and budding skippers, both on board or in the classroom. 'A gem, distilled from decades of experience' Yachting Monthly 'Cunliffe's competence and authority radiate from the pages... thoroughly recommended' Little Ship Club 'There are all too few authors who not only know their subject but can write well about it. Tom Cunliffe is one' Cruising  
Rules of the Road at Sea - Basil Mosenthal 2001-01-01

Stress-Free Sailing - Duncan Wells 2015-03-12

The vast majority of sailing yacht scenarios comprise a couple sailing the boat together, and needing to carry out all manoeuvres and activities themselves with no help from a back-up crew. Their boat handling, navigation, sail handling, anchoring and mooring skills all have to be carried out both efficiently and effectively, preferably with the minimum of physical effort (to conserve energy). But most sailing technique books assume a crew of 3 or 4, all willing to lend a hand. This book is therefore a first, addressing the most common sailing scenarios that anyone cruising will have to deal with, and providing clever, original, highly

effective (and most importantly successfully tried and tested by the author) techniques and solutions for dealing with the huge variety of essential operations on a boat - from sail setting and reefing, to picking up mooring buoys in a variety of wind and tide situations, anchoring, berthing and leaving a pontoon shorthanded, picking up a man overboard, sailing in fog and heavy weather - and even going up the mast. This book will be a godsend to anyone sailing single or shorthanded - including couples with young children who need to be supervised by one parent whilst the other runs the boat. Organised into techniques for different cruising scenarios, the book features step by step sequential photos showing exactly how to approach each situation and carry out the task in hand.

**Day Skipper Exercises** - Pat Langley-Price 2003-11-28

Complimenting Day Skipper by the same authors, this new edition contains additional question papers on chartwork, tides, pilotage and passage planning, all with fully explained answers and new general knowledge questions on seamanship, anchorwork, ropework and rules of the road - all part of the Day Skipper course. A free practice chart is included, as are all the necessary pilotage notes, tide tables and tidal curves so that the questions can be completed without reference to other publications.
