Later English Broadside Ballads - John Holloway
2005-09

Lively, exciting, amusing - this collection of ballads reveal the bawdy, anarchic sub-culture of England before the Industrial Revolution. Drawn from the eighteenth and early nineteenth centuries, it demonstrates the great wealth and variety of the English broadside ballads during these periods. At this time political balladry was rife and Irish ballads began to be composed in

English - their distinctive background giving them a unique range of poetry. Indeed, these ballads represent an extensive, varied and important area of English literature. Written, as the editors observe, 'to provide a moment in which listeners could enjoy verse, wit and song', they very much reflect the lively observation, love of detail and social awareness of the age of the novel. This volume includes 127 ballads, ranging from 'Admiral Benbow' and 'The Jolly Bacchanal' to 'The Bottle the Best Companion' and 'The Young Man's Fortune'. Reprinted from contemporary or near-contemporary broadsides in the Madden

Collection at the University Library, Cambridge, the head and tail blocks, a distinguished feature of the original texts, are also reproduced for this edition. The introduction is designed to enable individuals to read the texts in perspective and with pleasure. The book further includes a select bibliography and an index of ballad titles. This book was first published in 1975.

Dangerous Bodies - MARIE. MULVEY-ROBERTS
2018-06

Through an investigation of the body and its oppression by the church, the medical profession and the state, *Dangerous bodies* reveals the

actual horrors lying beneath fictional horror in settings as diverse as the monastic community, slave plantation, operating theatre, Jewish ghetto and battlefield trench. It provides original readings of canonical Gothic literary and film texts including *The Castle of Otranto*, *The Monk*, *Frankenstein*, *Dracula* and *Nosferatu*. This collection of dangerous bodies is traced back to the effects of the English Reformation, Spanish Inquisition, French Revolution, Caribbean slavery, Victorian medical malpractice, European anti-Semitism and finally warfare. The endangered or dangerous body lies at the centre of the clash

between victim and persecutor and has generated tales of terror and narratives of horror, which function to either salve, purge or dangerously perpetuate such oppositions.

The Good Drone - Kristin Bergtora Sandvik
2016-08-25

While the military use of drones has been the

subject of much scrutiny, the use of drones for humanitarian purposes has so far received little attention. As the starting point for this study, it is argued that the prospect of using drones for humanitarian and other life-saving activities has produced an alternative discourse on drones, dedicated to developing and publicizing the endless possibilities that drones have for "doing good". Furthermore, it is suggested that the Good Drone narrative has been appropriated back into the drone warfare discourse, as a strategy to make war "more human". This book explores the role of the Good Drone as an organizing narrative

for political projects, technology development and humanitarian action. Its contribution to the debate is to take stock of the multiple logics and rationales according to which drones are "good", with a primary objective to initiate a critical conversation about the political currency of "good". This study recognizes the many possibilities for the use of drones and takes these possibilities seriously by critically examining the difference the drones' functionalities can make, but also what difference the presence of drones themselves – as unmanned and flying objects – make. Discussed and analysed are the

implications for the drone industry, user communities, and the areas of crisis where drones are deployed.

Little Ree - Ree Drummond 2017-03-28

New York Times bestselling author, Food Network star, and *The Pioneer Woman* herself, Ree Drummond, brings us the first book in a brand-new picture book series! In Ree's own words: "I was all grown up when I moved out to the country. When I first arrived, I felt so out of place! But eventually, I looked around and

discovered all the wonderful things about country life. So I decided to write a story about my experiences, as seen through the eyes of a little girl named Ree. "Little Ree moves to the country and feels as scared and unsure as I was. But then she finds that if she sets her mind to it, being a country girl is a pretty cool thing. Come along on her adventures!" Little Ree trades in her city days for a country way of life when she moves with her family to her grandparents' ranch. She's excited to ride horses, swim in the pond, and help Grandma cook for everyone. But on her first day, she finds that living on a ranch can be

tough. She has to get up at the crack of dawn, learn to herd cows, and make sure her horse, Pepper, doesn't eat everything in sight. And that's all before breakfast! Will she ever get used to this new place? Luckily, the end of the day brings a big family barbecue...and the happy discovery that being a country girl isn't about the right pair of boots, it's all about the right attitude. With warmth, humor, and stories inspired by life on the ranch, Ree Drummond's picture book introduces us to a spunky new picture book star and treats us to a special pancake recipe at the end! Sailing with Vancouver - Sam McKinney 2004

Could I have been one of them? was what Sam McKinney wondered as he retraced, alone, from Puget Sound to Queen Charlotte Strait, the explorations of Captain George Vancouver and his men. In the 1790s, day after day, they had rowed for long hours, camping on rocky beaches in all weathers and charting the intricate coastline for the first time. Two hundred years later, McKinney followed them in his 25-foot sailboat, anchoring in the same locations as they had done, experiencing the same winds and waves,

and sharing what McKinney calls the link of vulnerability that is the ever-present condition of all people who go to sea. With his boat, his pipe and the occasional glass of rum, McKinney invites readers along on a perceptive voyage through time and along the magnificent Pacific Northwest coast from Puget Sound through the Georgia and Queen Charlotte Straits. Describing both the historical and contemporary voyages around the Inland Sea, McKinney offers insightful comparisons of what sailors saw and experienced in the 18th century and what they see today. At the end of his trip McKinney, like Vancouver,

claims the area he had explored, not by deed of ownership but out of love for the place, its staggering beauty...(and) the memories of the people and cultures who have found homes along its shores. Could he have, indeed, been one of Vancouver's men? He isn't sure, but he would like to have given it a try.
